Shields said the counselors will work a regular 40-hour week but will have schedules that will allow them to be at the office in the evening, when the need for visits may be greater.

Ms. Dunston said that under the pilot program she visited on a varying schedule and was not situated for any specified amount of time. The new program, she said, will base counselors in a particular unit and allow them to become more involved with the day-to-day lives of the units' residents.

Shields said the project will follow the three-tier approach to counseling for drug abuse, which includes prevention, intervention and treatment. He said families living in the unit who have problems "I think this program will be a with drug use are counseled and
