Why have over 20,000 people traveled to Southeastern Eye Center for cataract surgery?

Because there is *no substitute* for experience.

"I was just about blind in both eyes from cataracts. Now after 'No-Stitch' cataract surgery at Southeastern Eye Center I can see and do everything. There's nothing like Southeastern — they have good doctors and do great work."

Independents Love Home Ownership!

Some may think all appliance brands are distributed pretty much alike. At Crosley we don't believe that for a minute. We have a way of doing things that's different. It's based on a philosophy that Crosley appliances have lived by since the early years of the thirties. Our way means we look at the appliance industry as building relationships, not just selling to anyone to make a sale.

THE CROSLEY SYSTEM

It means training sales people who won't settle for less than excellence. And having know how with those practical differences that make all the difference to your business. It's a commitment from every person in Crosley Distributorships to respond to your request before that very day ends.

It means sometimes being first, but always being best. It's a big order. But that's the Crosley way. It's more than what we do. It's how we do it. Yes, it's controlled brand distribution.
