

"Reflections from the Family"

As we turn our thoughts from the old year and focus on the new, we pause to thank "YOU" for your continued support, and patronage throughout the past 43 years. We pledge continued friendship with old friends, to cherish new friends, and for those friendships we hope to earn.

Reflections from the family
Throughout the painful time of grief
A light is always there;
It emanates from friends like you
Reflecting that you care —
Through gentle words of comfort,
A kind and loving deed,
A cheerful floral tribute,
A sentiment to read;
A whispered meditation
To Him whose love we share
A silent thought about us
If you could not be there.
With grateful hearts we thank you
For adding a spark to the ray
That brightened the hallowed and pensive times
That are only a teardrop away.
And when the days grow brighter
And time has eased the pain;
Our deepest appreciation
For you will yet remain.

*Wishing you and yours a Happy New Year
from your loving friends at*
