## IF YOU THROW IT AWAY, IT MAY COME BACK IN YOUR DRINKING WATER

Motor oil from just one do-it-yourself oil change can contaminate more than five million gallons of our drinking water! That's what happens when we throw used motor oil out with our regular garbage, pour it down the drain or onto the ground.

Why pollute the environment when you can give used motor oil a new life by recycling it at one of the following collection sites\*:

Road Sanitary Landfill, 325 Hanes Mill Road, 767-3016  
OR Overdale Road Demolition Landfill, 1000 Old Milwaukee Lane, 788-7355.

Use the collection sites listed or bring used motor oil to Winston-Salem's Fall EnviroFair '92, Saturday, October 17th. For more information contact Keep Winston-Salem Beautiful at 727-8013.

\*Five gallon containers or less will be accepted.
