# Local Company Exhibits at Market

A local business is making its debut at the home furnishings market in High Point this week.

Pan African Imagery, owned by Annie R. Hairston, opens its display of art from the country of Tanzania, Africa today, along with hundreds of other home furnishings manufacturers and distributors.

The company, which was established in January, sells authentic African art made by members of the Masi tribes throughout Tanzania. Works include village and wildlife scenes, silhouettes of dance and movement, and modern African art,

all created using a batik method of dying fabric.

Because of this method, Hairston said every piece is unique.

"They are all originals and no two are alike," Hairston said.

Pan African Imagery will display its works at Showplace on the Park on Commerce Street in High Point.

Although the market is not open to the general public, buyers from galleries and home furnishing companies are welcome. The market will run through April 23.

**Ground Beef Top Priority**

One of the most versatile products in the Food Lion meat department is ground beef. Every Food Lion store grinds fresh beef throughout each day.

Food Lion offers several varieties of ground beef -- from regular to extra lean.

When choosing and preparing ground beef, here are several tips to remember: 1) Look on the label for the percent of fat content. 2) Look for a bright red color. Food Lion packages its ground beef in clear plastic wrap so you can see the product. 3) Due to lack of oxygen reaching the center of the ground beef, the center is not a bright red color. However, once air reaches the center of the fresh ground beef, the product will regain its bright red color. 4) Make sure ground beef is thoroughly cooked. (160° internal temperature)

For those ground beef fans who are seeking an alternative to beef, try ground turkey and ground pork. Ground turkey and ground pork are excellent substitutes for ground beef.

Prices in this ad good Wednesday, April 14 thru Tuesday, April 20, 1993.
