★ HOROSCOPES ★

ARIES: (March 21-April 20)

Your strength and courage will be required during this week to meet a personal challenge... this seems to be an inner struggle of self worth. You may become privy to information concerning a financial matter, don't take any advice lightly. Dreams may be telling you something.

Don't put all your eggs into one basket this week, especially regarding relationships. Relying too heavily on others will only hurt and disappoint you. Motivation will take hold of you and with a little blood flowing, your enthusiasm will affect all those around you.

SCORPIO: (October 24 - November 22)

The blues may be trying to follow you throughout the week. There is truly an abundance of love and affection surrounding you from just about everywhere, so there is no reason to stay withdrawn. Try not to jump to conclusions about a co-worker, things aren't always what they seem.

SAGITTARIUS: (November 23 - December 21)

It may be time to make that commitment to a primary relationship which is long overdue. If you are having second thoughts, it is no doubt time to talk about whether or not it's worth investing more time and energy into something which may not be beneficial to either of you.

CAPRICORN: (December 22 - January 20)

You seem to be easily influenced during the week, which is very uncharacteristic for you. Could it be some sweet face has you in it's spell? Try to keep your temper in check when someone in the workplace tries to push your buttons. Not everyone meets your high moral code.

AQUARIUS: (January 21 - February 19)

Communications of all kinds will be very important during the week. Your significant other may be feeling left out and needs the reassurance that they crave, children may need guidance concerning educational matters, and friends need support regarding a life decision.

PISCES: (February 20 - March 20)

Protect your feelings during the week by keeping them to yourself. If you do something nice for someone else, don't expect to be thanked, there are things which need to be done for their own sake. Take people for what they are, not what you want them to be.

CANCER: (June 22 - July 23)

Stand up for yourself and don't let anyone, friend or family, get away with what is rightfully yours. If you are in the market for Mr. or Mrs. Right, they may be right in front of your eyes, so keep your eyes open. Don't be manipulated by guilt into doing something undesirable.

LEO: (July 24 - August 23)

Hard work and more hard work will give you an enormous sense of satisfaction this week. Time seems to fly because you are so wrapped up in a current project. This will lay a foundation on which success will surely be built. You will attract positive notice.

VIRGO: (August 24 - September 23)

A fresh start this week may be just what you need. Your financial situation seems to be improving steadily, though maybe not as quickly as you would like. This new beginning just may be marred by your inclination to go for glitter instead of substance and quality.

LIBRA: (September 24 - October 23)

IF THIS WEEK IS YOUR BIRTHDAY
You may be accused of being both elusive and shallow. And you are elusive in order to protect the priva-

cy you consider so very precious. You are not shallow, but have the ability to detach your emotions from your intellect, and tend to just skim the surface of many things.
