

WHEN TWO OF NORTH CAROLINA'S  
LEADING HEALTHCARE SYSTEMS MERGE,  
EVERYONE BENEFITS

That's the goal behind the proposed merger of  
Carolina Medicorp, Inc. of Winston-Salem and  
Presbyterian Healthcare System of Charlotte.

Our hometowns benefit because our combined strengths  
allow us to take an even more active leadership role in  
addressing the critical healthcare needs in our communities.

Our physicians and employees benefit through new  
professional alliances and the sharing of resources and technologies.

And most importantly, every individual and every family  
throughout the region benefit.

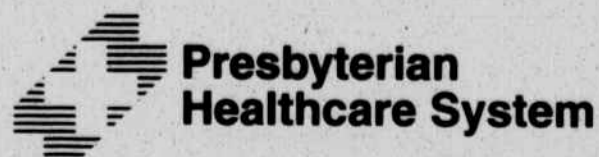

Because now two great healthcare organizations have come together  
to create **Novant Health**, a new system that knows no boundaries.

A system with a single, very clear mission... to improve the health  
and wellness of all the people in the communities we serve.
