Your granddaughter gets a bad ear infection and it makes her deaf.

You can't believe she's losing her hearing before you do. You've had a lifetime of sounds and she's only had three years.

You stick your fingers in your ears to see what deaf feels like.

You take a sign language class with her; you ask the instructor how to say "I love you."

Hope. That's what Easter Seals is all about. At some point in their lives, 1 in 5 Americans will be affected by a disability. We provide early screening, sign language classes and speech therapy to help children with hearing losses live with independence, dignity and equality. But we can't do it without your help. Support Easter Seals. Give ability a chance.
