Shaping the Future

Education is not only about books and homework. It's also about art, history and culture. It's being a part of something larger and learning about the past so you can help shape the future.

That's why First Citizens Bank is proud to support our youth and community by encouraging participation in cultural events and performances.

By sponsoring educational and artistic public school programs, we introduce our students to a whole new world of learning and show them that education doesn't always come from a book.

It looks like a perfect d.
The only problem is, it's a p.

It's dyslexia. A reading disability where some kids confuse their d's with their p's, b's and q's. But, with the right help, most of these kids can go on to do well in school.
