

Libraries Help the Economy

From our **Survive & Thrive** series that helps the unemployed find work to providing resources to help new businesses start-up and current businesses expand, the Library plays a vital role in our economy.

Libraries Support Education and Lifelong Learning

Libraries believe that learning lasts a lifetime and we offer programs, resources, and opportunities to help students of any age.

Information is Power

Information is not a one-size-fits all proposition. Having wrong information can be a detriment, just as the right information can be power.

Why Do Libraries Still Matter?

Reading Still Matters

Reading remains critical for a community to grow and prosper.

Libraries Nurture Community Life

The Library is dedicated to our community's growth through information and idea exchange, education, literacy, entertainment and business and cultural programs.

Fall Book Sales

Call your local library for information about **Fall Friends of the Library Book Sales** or visit www.forsythlibrary.org for a complete listing.

Teen Books with a Beat

This year's theme, "**Books with a Beat**," encourages teens to read poetry, books about music and to listen to audio books. Visit www.forsythlibrary.org for full program details.
