

building, with one teacher and 25 students per square foot. It also encompasses more than 30 buildings, 100 classroom faculty, and more than 5000 students.

Not only are the facilities cutting edge, so is the curriculum. From its inception as a teaching and trade skills institution, WSSU's curriculum has grown to offer more than 40 major and minor majors, 100+ undergraduate programs, both on and off campus.

WSSU offers a wide range of online programs and a number of opportunities to study abroad and engage in biomedical research. To give more students an opportunity to pursue a medical education, there's WSSU in collaboration with a number of community colleges to provide them quality education with a transfer credit to WSSU.
