

Business park getting ready for a corporate headquarters

SPECIAL TO THE CHRONICLE

Davidson Craven is developing a new building in Winston-Salem's Westpoint Business Park that will house the corporate headquarters and production facility for Red Clay Gourmet Pimento Cheese as its first tenant. The new 115,000-square-foot Class A warehouse building will be located next to a Hanesbrands distribution center on Annapolis Drive at Clemmons Road and is projected to be finished in early 2019.

Davidson Craven's capital partner on the project is Skylark Partners of Austin, Texas.

Red Clay will occupy 21,000 square feet of the new facility. Upon completion, Red Clay will move all its headquarters and production operations from its current 4,800-square-foot facility and office located on Blue Rock Court just off U.S. 421 to the new location in Westpoint Business Park.

Davidson Craven has

selected CBRE/Triad as leasing agent for the building, which has 94,000 square feet remaining available for lease.

"The west Winston-Salem industrial submarket is very healthy and has seen no meaningful development of Class A Warehouse space in many years," said Jonathan T. Smith of Davidson Craven. "We are excited about providing Red Clay a headquarters consistent with the company's high-quality product line and offering new best-in-class warehouse space to an area that has long served many of the most important businesses in Forsyth County."

"This project is located on the last significant development site in Westpoint Business Park, a well-established cornerstone of the Forsyth County industrial market," Smith added. "The west Winston-Salem industrial submarket is home to such companies as Hanesbrands, BE Aerospace/Rockwell Collins, Foothills Brewing, Salem Baking, South

years – Red Clay is now sold in more than 1600 retail locations across 42 states including Alaska. Our new facility will help us better serve our current customers and allow for us to have ample space to support our growth."
