## A PUBLIC SERVICE ANNOUNCEMENT

## FROM MARLEY DRUG

Is your "ZERO premium" PART D plan making you use a specific "preferred" chain pharmacy?

Did you know using a "preferred" pharmacy can have you paying **HUNDRED\$** more for your medicine **WITH** insurance, than you would **WITHOUT** insurance using **MARLEY DRUG**.

> This a common practice that **MARLEY DRUG** discovered when we compared our prices **WITHOUT** insurance, to the patient's **aetna** copays when forced to go to **CVS**.

The patient's Part D plan was **etna** Medicare Premier Plus Plan (PPO).
