J. Sikes. He waived examination of the State's witnesses, put up no evidence in his own behalf, and was remanded to jail without bail to await the July term of Stunty Superior Court for the trial of original cases when he will, no doubt be tried for his life by a jury of twelve men of Stunty county.

BODEHEAVER TO LEAD SINGING AT ATLANTA C. E. CONVENTION

(Special To The Journal.)
Atlanta, Ga., June 15.—Homer Bodeheaver, Billy Sunday's song leader, is coming to Atlanta July 13-15, to lead the singing in the great All-South Christian Endeavor Convention to be held in the City Auditorium and Atlanta churches.

Mr. Bodeheaver is recognized as the world's greatest leader of singing. It is estimated that he leads more than 5,000,000 people a year in gospel songs. No other man has ever done that. He is truly wonderful.

This is Mr. Bodeheaver's first visit to the far South and the Christian Endeavor of Dixie consider themselves fortunate in securing this great leader. He will be accompanied on this trip South by Charles H. Gabriel, the sweet-voiced singer and writer of many of the greatest hymns of the Church, and Charles H. Gabriel, Jr., who comes along as the pianist of the party.

Two of the unusual musical features of this great convention will be the open air song service and patriotic address on the steps of the Georgia State Capitol Building Saturday afternoon, July 15. Bodeheaver and Gabriel will lead the singing and Daniel A. Poling of Boston will give the address. Mr. Poling is a great orator. Saturday evening there will be twelve great street meetings consisting of songs and a gospel message held on the streets of Atlanta. Each street meeting will be in charge of a different delegation.

Three thousand delegates from all parts of the South will attend this great convention.

Music, Ice Cream, Soda Water. Friday night June 16th—Fairview Drug Co.

STATE PUBLICATION OF SCHOOL TEXT BOOKS

To the Editor of The Journal.

The State publication of school text books has been undertaken by Kansas. The Legislature of that State has appropriated a quarter of a million dollars to establish a text book plant. This is to be the extent of the taxpayers' investment. Books will be distributed at a profit sufficient to cover depreciation, replacement and an interest of four per cent on the investment.

The cost of the publication of the State school books is not expected to be much less than that of publishing houses. But Kansas intends to save its citizens from paying the big profits made by the book concerns. It does not have to create its market. Education is compulsory, the school book market is created by law, and thus there are no advertising expenses, no resident agents in large cities, no induces at the State capital. Dealers are allowed fifteen per cent profit, and the dealers pay the freight charges.

For 19 years Kansas has done other kinds of State printing by the contract system, under which the State prints often made from \$20,000 to \$30,000 annually. To do away with this abuse Kansas finally undertook to do its own printing, with so much success in reducing the cost that the present experiment in the publication of school books followed as a matter of course. Kansas enterprise deserves the attention of serious citizens. Compulsory education should mean the best education at the lowest price possible. It should not mean that the taxpayers may be forced by law to submit to exploitation by school books companies.

By taking over the publication of school books, the State also eliminates the political activity of private publishers, and thus "takes the school out of politics"—so far as such a miracle is possible.

Fairview Drug Co. Friday night, June 16th. Music, soda and ice cream; come!

Cool—no mosquitos. Grove Park Inn

Sunset Mountain, Asheville, N.C.

—the finest Resort Hotel in the World. It is absolutely fireproof and open all the year. The 120-acre, 18-hole, golf course is the finest in the South—it is a blue grass course. All the water used at the Inn comes from the slopes of Mount Mitchell, the highest mountain east of the Rockies, nearly seven thousand feet altitude. The milk and cream come from Biltmore Dairy on the estate of the late Geo. W. Vanderbilt.

It is the cleanest, most sanitary hotel ever built. Every floor is tile. Every bedroom has Mosaic tile covered with French rugs made at Aubusson, France. The foods are the finest money can buy. The kitchen is spotless white tile to the roof and pure white Mosaic tile floors. The buildings are built of great mountain boulders—some of the walls are five feet thick.

We are three and a half miles from the railroad. The street cars are not allowed to come near enough to be heard. We burn coke—not soft coal. Automobiles not allowed near the building during the night. Thus we have no smoke, no dust, no train noise. We have pure air, common-sense, digestible food, quiet in the bedrooms at night, the finest Orchestra outside of New York and Boston, a great organ, and an atmosphere where refined people and busy business men with their families find great comfort and a good time.
