Washington, June 15 .- President Witson today received a committee from St. Louis carrying resolution praising the Administration. He said

"You have over-stated my claims to credit, but I accept what you have said very gladly as a tribute of the heart rather than a tribute of the judgment, though I know you intended it as both, and as a tribute of the heart if gives me peculiar pleasure.

"It is not often that there is a personal contact of this sort in this rather alremums and lonely business. rather stremuous and lonely business of directing a government, and it was with an instinct of real friendship that you came in such interesting numbers to bring me this carouragement and to tell me that you do believe in the motives and in the purposes that have characterized this administration.
