

Here Is An Investment Opportunity Which Merits Careful Investigation

The Cade Manufacturing Company Offers You an Interest In the Manufacture of an Automatic Typesetting and Line-casting Machine That Will Revolutionize Mechanical Methods of Type Composition and Levy Tribute on a Great World-Industry

Efficiency is the watchword of this agent of invention. The whole world is short on man-labor. Power and its application to mechanical work is more and more the prime requisite of progress. That man who can devise means to lessen or eliminate hand work is the supreme genius of civilization and the far boundaries of all lands will bring riches to lay at his feet. Likewise, the investor of large or small means, who grasps his opportunity, may share in mankind's reward to creative intelligence.

The invention by a North Carolinian, Dr. Baylus Cade, of the Cade Typesetting and Line-casting Machine, will mark an epoch in the art of printing. Old practices will be discarded and the new method will be eagerly adopted wherever the wonderful advantages of the Cade Machine are known.

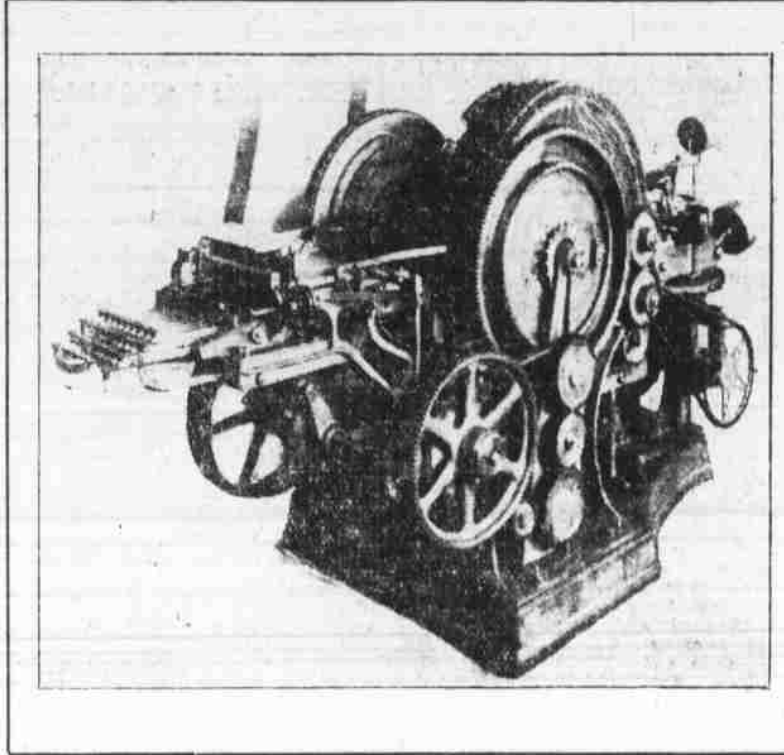

The Cade Machine is different. It differs in many basic respects from any other machine of similar purpose. But mainly it differs in speed, accuracy, upkeep and cost. Its speed exceeds the ability of the operator to manipulate the keyboard. Its accuracy

Preferred Stock will be issued at \$10 per share, par value, full paid, non-assessable. To each purchaser of preferred stock an equal number of shares of Common Stock will be given, for a limited time only. Subscriptions may be paid in cash, or 1-3 with application and remaining 2-3 in 6 and 12 months. Read this offer carefully and act without delay.

equals that of a carefully adjusted watch. Its entire absence of complication and the perfect coordination of its working parts reduce upkeep to the practical vanishing point. And its cost will be low enough to be paid by small-town printers whose ability to purchase a typesetting machine has heretofore been out of the question.

The names of the Directors of the Cade Machine Company are well known in the financial and industrial world. The Directors have subscribed to \$140,000.00 of the Preferred Stock. Their records for upright integrity constitute an unmistakable assurance of the honorable and businesslike administration of the affairs of the Company.

The construction of a large factory is expected to be commenced within a few weeks. Its completion will be rushed in anticipation of the coming industrial expansion and consequent demand for additional printing facilities. Cade Machines will be distributed through already established jobbing and wholesale firms throughout the world.

SELECTS COMMITTEEN TO SERVE WITH CHAIRMAN

(Special To The Journal)
Greensboro, July 14.—Col. Al Fairbrother, chairman of the local committee on public safety for the council of national defense, has chosen as his two associate committee men M. T. Payne and Leon Brandt. Col. Fairbrother has taken steps to inaugurate the working of the Four-Minute Men of America. The Four-Minute Men are unofficial representatives of the government, who have as their task addressing the people on

important topics. The Four-Minute Men use pieces of the greatest con- gregation of people, such as moving picture shows, for their talks. It is planned to have such talks in Greens- boro bi-weekly.
