GREAT DAY FOR WAR SAVINGS

Col. F. H. Fries, State Director of the War Savings campaign, has every reason to be encouraged denial and self-reliance. We have reached a time concerning his work. At the meeting of the executive committee yesterday, plans were discussed and new ideaz advanced. Each member of the luxuries, Such an expenditure resolves itself into a committee was thoroughly in accord with the plans as outlined by Col. Fries, and resolved to opportunity offered through the sale of these war stand behind him until the end of the campaign savings stamps. The Cardinal adds with self-evident The meeting was entirely harmonious and much touth that to buy them is "not only a privilege, but enthusiasm prevailed. Many prominent men of it is the clear duty of every American citizen, young the State, members of the committee, were guests and sid." of the city and Col. Fries for the day,

Chairman Gorrell, of the county committee, will certainly see the work in Winston-Salem and Forsyth start off with new interest as a result of State government at Raleigh are to be commendaddresses of Hon. James H. Pou and Hon, J. Y. the Fuel Administration's order that office build-Joyner stirred the nearts of the people who heard lines and closed, as on legal holidays every Monday not exactly understand his or her part in the fight, the heads of the State Departments at Raleigh

they certainly went away enlightened. If after hearing such awakening addresses, the day and adopted the following resolution: people of Winston-Salem and Forsyth county fail to do their full part, not their "bit", in the great vation and in co-operation with the spirit of the war, they deserve nothing better than Kaiser rule, order of the Fuel Administration of January 17 as this is what will certainly be the result if 1918, that all State Departments be closed to the the war is lost.

of his hearers when he said, "the big spring drive be requested to give notice to this effect to the will decide the crisis with the United States play- general public." son to take the advice of Mr. Pou and throw every bunce of power into the struggle with a determination to bring it to a speedy and successful close

The results are terrible to think of should the United States tarry on the job and let the Germans break the western front. In the words of Mr. Pou, "we will be fighting Germany on ou. own shores by the spring of 1919 if we fail to hold the line and let the Germans through so they will obtain control of the eastern hemisphere." Now is the time for every American to be up and doing before it is eternally too late.

Supt. Joyner voiced the sentiments of every person in the audience when he said the name of every man who fails to do his duty will go down on the roll of dishonor. He reminded the people not be, how much of the Puel Administration's that they were called upon to make sacrifices in order to conserve fuel can I evade and avoid ingiving but that these sacrifiess are nothing com- dictment, but how much of the spirit of the order pared with what the boys at the front are called can I observe without destroying my business. That apon to make.

PATRIOTISM AT ITS BEST

One of the by-products of the Fuel Administration's drastic order, backed by the President. but by no means the least beneficent of its results is the spirit of patriotism it has served to reveal throughout the Nation. While many business men and manufactures and large newspapers have kicked most strenuously, a host of others have shown a willingness and even an engerness to make the big sacrifice for their country's sake. Indeed, the spirit of self-sacrifice and high patriotism shown by hundreds of the country's big business men is as inspiring as it is encouraging to all who want to see Americans stand as a solid, invincible unit against the enemy in this great final struggle for world-wide human liberty.

For example, we have the message of the President of the Universal Film Company to his four thousand employees. Nothing could be finer than that: He said

"We are entirely out of sympathy with the committees from various industries which are flying toward Washington to protest against the order. Let us remember how little we are sacrificing in comparison with the young men of the nation who are offering lives where we are asked to offer only our dollars. If we are stripped of everything we possess and and reduced to the extremest poverty, we will still have life.

"Let us show the Kaiser and his crew that our pledge of support to our government was not made merely to be withdrawn at the first real pinch of war. Let us be ready in our minds to drop everything else if necessary and devote our hearts and souls to the one great object of naking the world a fit place to live

"The President has the most terrific task that was ever imposed upon a single human being the history of the world. Let us make his burden as light as possible, and not participate in anything that will tend to confuse his mind or swerve him a hair's breadth from the great purpose he outlined in his recent message to the world."

The sentiment expressed in the foregoing is without question the sentiment of a vast majority of the country's business men. They also agree with Secretary of the Navy Daniels, who, in commenting on the Fuel Administration's order, declared.

"There was universal acquiescence when one and me-half million men were called from their homes to risk their lives in the trenches or on the battlefields of France and yet when business and dollars have to make a five day sacrifice there is a great protest from one end of the country to the other."

"This five-day non-use of coal is a very small sacrifice. This is really the first pinch demanded and the protests have really been discouraging. We are to put words into deeds. We must trust such able men as Dr. Garfield and his advisers who have no motive except to get ships."

A MESSAGE WORTH HEEDING

The message by mail to every household from Secretary McAdoo asking all to buy war savings ery bit of German peace-camouflage and be ready stamps ought to receive practically universal atfor the next blow of the Teutonic malled fist at the tention, because a practically universal response n the matter of so small an outlay is altogether possible. The war savings certificates and thrift stamps in denominations of five dollars and twenty-five cents respectively will not only raise funds The morals, the order, the humanity, in fact the terest-bearing investment for and encourage habits, civilization of a people may be judged by the con- of thrift in the child, the youth, and the man and eashed at the post office any time. Incidental uses of the system, in addition to the opportunity offered space, and is visible in act every moment.—Isaac edly set forth by Cardinal Gibbons in his appeal for a universal response

There can be few people, he notes, whose cirblood; age retains its tastes by habit,-Roche- cumstances will not permit them to buy at intervals the twenty-five cent thrift stamp, and with each purchase gain step by step possession of the war savings certificate, for each one of which the credit and resources of the United States are pledged to return five dollars for what now costs four dollars and twelve cents.

earnestly commend to young men and old this simple and easy method of acquiring the habit of thrift. Many sorrows are avoided and much happiness is to be gained by the timely application of the principles of thrift. To the building of charactor it brings profitable acquaintance with selfin our national life when no loyal citizen of this country can afford to spend a dollar for wasteful disloyal act, Welcome, indeed, therefore, is the

STATE BACKS FUEL ORDER

The heads of the various departments of the the gathering in the courthouse yesterday. The ed for their generous voluntary action backing up them as nothing else has done since the war be- during the next nine weeks. Although the order did gan. If there was any person present who did not require the closing of State office buildings, met at the suggestion of the Governor last Satur-

"Resolved. That in the interest of fuel conserpublic on each of the Mondays covered by the or-Mr. Pou instilled new patriotism into the hearts der of the Fuel Administration, and that the press

This does not mean that the work of the various departments will not be carried on. It does mean that the central heating plant which serves all the State Departments will not be operated and that as a result many tons of coal will be saved. When work is pressing and cannot be put off until or electric heat being used in individual offices Huns so they'll feel it. when absolutely necessary. But it is believed that by working at night on other days of the week, which would not require extra coal, as the heated buildings stay warm enough for comfort until nine or ten o'clock, it will not be necessary for any office force to be on the job more than two hours

The attitude of every patriotic citizen should is the patriot's attitude.

"FACES FRONT!"

Garfield had no authority to order the shutdown of shops, stores and places of amusement. The commander-in-chief of our army and navy had,

and he exercised it. The order means sacrifice by business concerns, great sacrifice in wages of workingmen and women, much inconvenience to everybody. Is there a business man or workingman who believes that President Wilson, or any other patriot, would bring such effects upon the country unless driven to it by unavoidable necessity? To so believe is to class the president among Traitors. Bombers and the Most Rabid pro-Germans.

We cannot know all the features of that unavoidable necessity, because their publication would be aid and comfort to the enemy to justify, in the minds of those who will sacrifice as patriots, the order to shut down for five days in January and the Mondays following.

We know these things: That England, France and Italy are harder up for fuel, food and munitions than ever before

since the war started. That we must get hundreds of thousands of roops, with their food and munitions, into Eu-

rope, in the next few months. That, for weeks past, hundreds of ships, loaded with fuel, food and munitions, have been lying in Atlantic ports unable to move by reason of lack of

That millions of domestic users of coal throughout the territory designated by this embargo have been suffering miserably, under conditions steadily growing worse.

That the month of February is always the most severe and exacting of the winter season. These facts have all been published again and again. We don't believe that we have a reader, employer or employe, but knows these things to be true. All know, too, that the war will drag along

until we get over to Europe with ability to end it. We've boasted of this; the allies have repeatedly What then are the questions involved in this

coalless period against which many are kicking? They are plainly these questions, and they are very simple and diret: Shall we adequately supply the allies with troops, food, fuel and munitions? Or, shall we prolong the

war and even risk victory? Shall we have five or more coalless days in January? or a coalless February?

Shall we be self-sacrificing patriots and win this war? Or shall we hang on to all we've got, reach out for more, and let the war slide? This paper votes to stand by President Wilson

It is confident that he would not impose upon the country the smallest part of calamity without an end yielding 100 per cent advantage on his action. We are not ready to lie down and cry "Don't let Uncle Sam do it!"

God help our nation and the devil take our vision of "Freedom, for All, Forever;" if, at the first de-mand of the commander-in-chief of our army and navy for great direct sacrifice, a very considerable number of our business men and workingmen become quitters! To believe that this can be so is to befoul the flag under which our best and bravest young men are to fight and suffer and die before the guns of the beastly Hun.

First, the people must have fuel in their homes in order to be efficient for any purpose. With them supplied, our business is war, war, war! And the man who lies down on that should go to school to the Hun.

WE'RE ALL FIGHTING NOW

Determination, courage and confidence-we have got to have all these, and upon confidence largely dependent the other two.

The administration assumes a heavy responsibility in decreeing that many thousands of workmen shall not work for any started period. We have to help the great cause but provide a good in- got to have confidence that the administration would do this unless there were hard necessity for it.

The administration knows how much coal is on dition of the dumb brutes about them. Half-starved cais, prowling mangy dogs in abundance, not necessarily tied up until 1923, but can be got to the consumer. It simply refuses to let present conditions meet the usually severe winter weeks of late January and February, when the weather requires the highest consumption of fuel in the homes and in institutions that must be a total of nearly 2,000 members, heated at all costs. Such weather as February ai- which is probably the largest of any ways gives the regions east of the Mississippi produce a if recent conditions as to fuel production and its has shipped to headquarters a total transportation prevailed.

We ought, at least, to have confidence that the administration has not without fully justifiable reason, taken a step that would, otherwise, damn it, politically, for all time

And it is highly probable that there's more to come. War necessities will increase. The war will get closer and closer to every one of us.

If the country does not volunteer to save wheat, meats, fats and sugar, it will, very likely, he conscripted to do if. If we do not more generally and rationally voluntarily curtail our demand for our manufactures and purchase of the non-essentials, war needs will, very likely, force us to it.

If we do not want long continuance of this war agony in all our vocations, if we do not want a repetition of it in a few years, more or less, we must hold fast to our determination to fight for permanent peace; we must courageously hit as hard and often as we possibly can; and we must did have a few cents which she was have confidence in our commanders. In a word, we must save and sacrifice our level best.

The biggest fighting force on earth is America behind the lines Every one of us is part of that force. We are called upon for hard sacrifice. That's hard fighting. Let's put "determination, courage, confidence" on our flag, and shoot the traitor who tries to haul it down!

LET 'EM MAKE THE MOST OF IT

Comes now Governor Edge or New Jersey, relative of Garfield the goat, and deposeth as fol-

'Nothing could provide more encouragement to the enemy than the mere announcement of this (coalless) order."

Something depends upon how the enemy looks at the order. The enemy knows that we cannot put troops in Europe without coaling ships. The enemy knows that, for weeks past, hundreds of ships loaded with food, fuel and munitions for the allies, have been suck in Atlantic ports because the hadn't coal. Unless Sam is too eager to light the enemy where it will do him the most harm and as that will do him the most harm, he suspends all save the coaling business, for a time. It is a if Uncle had taken off his coat, vest and shirt and tied his suspenders around his waist, in order to make the dangest best fight he knows how. Encouragement? If we were the enemy, we'd begin to believe that Uncle meant bloody business aimed straight at us.

COAL OBSERVATIONS

"Hits vast army of workers!" declares a newspaper heading. True, but if we get the coal to move us to Europe, we'll hit a vaster army of

Now let us put our eye on Railroad Director McAdoo! Coal operators declare, and it is susceptible of proof, that they can furnish the needed coal. if furnished cars.

Every congested freight yard might be cleared by workers made idle by the coalless order. We've sent 300,000 men into Europe. At least 300 ships loaded with supplies for them are stuck in Atlantic ports for lack of coal. Take another think on that coalless days order, fellow patriot

Instead of a coal shortage, you give us a wages shortage, says Senator Reed. You cannot fire shipbeliers with wages and you can with coal.

CURRENT COMMENT

BY A. W. CLINE

Have you bought a War Savings

There is absolutely no safer way of investing money than in Sav-

Paris first, London second, and Washington third is the Kaiser's plan of conquest, with Christmas 1918 as the end. There is quite a big job before him this year.

Those who complain at conditions y now exist should be in the trenches where shells would splash mud and ice all over them.

What about using canned hot air to avert a fuel famine? This is one product of which there is an enormeas surplus in the country. A con reseman or two might supply the entire country.

A few more orders like the one issued by National Fuel Administrator Garfield and the people of this country will begin to realize that there is

When will the general public wake up and see the real needs of the boys who are fighting the battles of this country? The father who has a boy in camp can explain the situation.

Billy Sunday in his Washington meeting never loses an opportunity to "swat" the Kaiser. His denunciaon of this side-parner of Satan is as terrible as that which the "Old rets himself. Boy"

What have you done to make life easier for the soldier boys? Have you bought a Liberty Bond, War Savings stamp, subscribed to the Red Cross, or begun to practice conservation in the home?

It is strange how some of the northern papers are trying to stir up sectionalism in connection with the fight for national prohibition. One paper declares that the ratification of the amendment by the southern states will break the solid south

politically and place the Republicans in power forever. Ever since the beginning of the war patriotism has stood at high tide in Winston-Salem. In every campaign for the good of the cause the citizens have responded nobly. The last great sacrifice, the closing down of the factories, was met with spirit

of patriotism that has never hereto-

fore been manifested.

Already news comes from the different sections of the country that great reliaf is being obtained from the fuel famine as the result of Dr. Garfield's order. In Winston-Salem there has been noticeable relief. Those who were inclined to criticize the older will feel that they were nor an wise as they thought they

A report from Wilkes county shows that the Ped Cross society there has not located a large city. This society of 275 pairs of socks, 200 sweaters 100 pairs of wristlets, 85 scarfs and 3 helmets. One lady has knitted 21 The names of all who have knitted three or more garments are soon to be published. Besides doing great work for the Red Cross Willies county has furnished a fine lot of noble young men for service in the army.

Monday evening an old colored woman, Aunt Winnie Dixon, walked int the postoffice and said she wanted four Thrift Stamps, stating, that "she did not have any meat to divide with the boys in the army, but she willing to give them," for said she, "I do not want to be a slacker." Now that old colored woman had the right idea, and if all the good people of the county would take this view of it we would soon have our part of

selling Thrift Stamps completed."-Romboro Courier.

The school children of Winston-Salem and Forsyth country are soon to be called upon to begin the buying of War Savings stamps in systematic manner, which in other word- means the beginning of savings accounts that will yield interest and teach the saver the most essential of all habits-that of thrift. In this campaign the children are expected to respr as nobly as their parents have done in all former campaigns since the war began. The teachers will be largely responsible for the success or failure of the campaign.

The action of the employees of the local branch of the Southern Public Util ies Company in voting unanimously to call off the annual banquet in order to give the money to the Red Cross, will be recorded as one of the most loyal acts of corporation in Winston-Salem during the war. This is a time when people must deny themselves for the sake suffering brothers.

The Anniversary and Greater Randolph number of the Asheboro Courier 1 issued under date of January 17, and contained 24 pages. Editor Hammer and his associates deserve much credit for the neat appearance and the excellent industrial write-une it contained. The edition is beautifully illustrated with cuts of susiness men, industrial plants, homes, etc. January 1, was the anniversary of the founding of the paper 42 years ago under the name of the Randolph Regulator, with the late M. S. Robins as editor. The Courier has grown steadily until it is today one of the leading weeklies in North Carolina.

Municipal Court

Munici | Court yesterday morning was the scene of much activity, there being all kinds of interesting cases disposed of. In two cases, the defendants were charged with violating the search and seizure act, each one clai ing in defense that liquor was being used for medicine. One of the being used for medicine. One of the violators had no less than about two gallons of "medicine" when her place was s ched by officers. Several colored boys plended guilty to trespassing on the Norfoli & Western By Evidence showed the vauths had been catching cars and throwing coal off. Cases disposed of yesterday are as
