Twenty-Nine Democrats Unite With Forty Republicans To Put Measure Through

POINDEXER'S MOVE TO REDUCE SUM FAILS

Final Vote Ends Battle of Eight Days; Proposition Opposed by Progressives

(By The Associated Press.) Washington, April 20.—The Colombian treaty growing out of the United States' work in Panama was ratified today by the senate. It provides for the payment by the United States of \$1,000,000 to the South American republic, but has yet to be approved by the Colombian assembly. The Harding administration, through ratification of the treaty, won its first fight in the senate. The president in a message to the senate March 9, five days after his inauguration, recommended ratification as "very helpful at the present time in promoting our friendly relationships."

POINDEXER'S MOVE

The PoinDEXER's move to cut the indemnity to Colombia from \$25,000,000 to \$15,000,000 was supported by sixteen Republicans and six Democrats. The latter were Dial, South Carolina; McLaughlin, Tennessee; Simmons, North Carolina; Trammell, Florida; and Watson, Georgia. Twenty-two Republicans and seven Democrats supported Senator PoinDEXER's amendment to the indemnity. The amendment was introduced by Chairman Johnson, of the immigration committee. Opponents of ratification, composed largely of what is known in the senate as the progressive Republican group, were vigorous in their denunciation of the pact throughout the discussion.

Immigration Restriction Bill In House Draws Sharp Fire From Many Speakers In Both Leading Parties

(By The Associated Press.) Washington, April 20.—The immigration restriction bill drew sharp fire today in the house, especially from members from New York State, and was as vigorously opposed by Chairman Johnson, of the immigration committee, and other representatives who declared legislation to keep out undesirable immigrants necessary at this time.

Debate on the measure continued throughout today and will be resumed tomorrow with a vote expected before adjournment on Friday. While the measure is being passed by a large majority, leaders conceded that it would not receive the overwhelming vote a similar bill introduced at the last session.

Leading in Fight. In the measure were Representatives Cockran, Democrat; Selgel, Republican; Chandler, Republican and London, Socialist, all of New York; Sabath, Democrat; Illinois; Stevenson, Democrat; South Carolina; and Huddleston, Democrat. Representative Cockran declared the bill marked the renunciation and abandonment of the policy which had fixed the position of the United States in the civilized world.

PASTOR JIMISON GIVES PLATFORM

Announces Principles on Which He is Running for Mayor

STRONG FOR EDUCATION

Well-Known Methodist Minister Candidate for Chief Executive of Winston-Salem

With the announcement of his platform, printed in The Journal this morning, Rev. Tom P. Jimison, pastor of Grace M. E. church, South, yesterday afternoon formally entered the contest for the office of mayor of Winston-Salem. Mr. Jimison has decided to make the race as an independent. Mr. Jimison sets forth in his declaration of principles in the campaign strong advocacy of liberal policies towards educational activities; extension of public welfare, close supervision of public service corporations, larger development of public health service, and other issues. His platform in full, as given out by him yesterday is as follows:

Education. "I am in favor of an adequate educational program for the city regardless of cost. "The department of public welfare should be extended to meet the needs of the city and satisfy the demands of the State. "The city attorneyship should be held by a lawyer who is free from "entangling alliances" with the big corporations that are likely at any time to be rivals or competitors of the city itself. "The city should more closely supervise the public service corporations doing business within our borders. The ice companies should be forced to sell ice at a reasonable price. The street car company should be forced to obey the State law in regard to the segregation of the races. This should be done in justice to both whites and negroes. "Public Health. "The department of public health ought to be maintained and its work extended wherever possible. "There should be no sort of secrecy in the conduct of the city government. I stand for "open covenants openly arrived at," and am for taking the public into confidence in all matters affecting the city. "The departments that are not better off than they are now, should be reorganized, and all should be run in such manner that the humblest citizen will be accorded the same treatment as the richest and most powerful. "Sunday Laws. "Our Sunday laws are ridiculously hypocritical. Under the pretense of Sabbath observance we have made it unlawful for a drug store to sell a glass of lemonade or a dish of ice cream."

GREAT DELAY IN STATE PRINTING SEEMS POSSIBLE

Concerns Having Contracts With State Threatened With Tie-Up by Strike

MAY 1ST IS DATE SET FOR GENERAL WALKOUT

Board of Trustees of Training School To Meet; Governor Morrison To Speak

(By JULE B. WARREN.) The Winston-Salem Bureau, Merchants' National Bank Building, Raleigh, April 20.—With only a small beginning made on the immense amount of State printing resulting from the last session of the General Assembly and with practically all State printing behind, the whole printing business in Raleigh is threatened with a strike on May 1, which will completely tie up the whole program. The employing printers' association and the Typographical Union have both spoken what they declare is the last word on the proposition of increasing the wage scale to \$44 for day work and \$47 for night work or reducing the number of hours from forty-eight to forty-four per week. The printers gave the employers until the first of May to come to some decision on their ultimatum, and the Raleigh firms who have all the State printing contracts have given out a statement in which they declare they are unable to meet the demands of the printers. The reduction in the number of working hours in the main bone of contention. They claim that this will amount to paying for twelve months work in a year's time and of getting only eleven months labor for this pay. They declare that their margin of profit now is such that they will be unable to meet this new reduction in hours and increase in pay. Newspapers Not Affected. When the printers of the State were first made to include the newspapers of the city as well as the com. (Continued on Page Three)

NO SETTLEMENT OF COAL STRIKE

British Miners Find Owners' Proposal Unacceptable

BOTH SIDES RELENTING

Government Takes Steps To Alleviate Difficulties of the Poorer Classes

(By The Associated Press.) London, April 20.—It is virtually certain there will be no settlement of the coal strike before next week. The miners' federation has decided that the owners are too vague to afford a basis for negotiations. Both sides, however, continue to display a desire to get together if a deal can be found, and should Frank Hodgson, secretary of the miners' union, succeed in the admittedly hard task of swinging the delegates' conference Friday to his side, it is believed another joint conference will assemble, possibly Monday. The statement of the miners' federation regarding the proposals issued last night by the owners says they are "vague and meaningless, and in the main merely reformulate previous offers." The federation adds that its own proposals are perfectly clear—a national wage board with a national tonnage levy to enable the poorer pits to pay their way. The proposals taken from him and kept his discovery a secret until today when he told his mother. "Albert dreamed for a week that he was a millionaire," declared Mrs. Dameron, a hardy mountain woman, "and now he's gone and done it." Tonight the fortune was still in Dameron's keeping with no intention on his part, he said, of depositing it in a bank.

HARDING ACKNOWLEDGES BIG PROBLEM OF POSTMASTERSHIP

Has Long Conference With Hays on Executive Order Issued by Former President

CIVIL SERVICE RULES MAY PROVE A FACTOR

But Doorway Will Be Kept Ajar a Bit To Give Hope To Eagerly Awaiting Through

(By DAVID LAWRENCE.) Special Correspondent, Winston-Salem Journal, Copyright, 1921. Washington, April 20.—President Harding today tackled the problem of postmasterhood throughout the country, their removal and appointment on a basis that would make for efficiency instead of political manipulation and inefficiency. Postmaster General Hays talked at length with the president about the executive order issued by President Wilson whereby postmasters were placed under civil service rules. There has been much misunderstanding about the Republican desire to revoke that order. It has been called a return to the "spoils" system. Mr. Harding is unwilling to have that meaning attached to the plans of his administration in respect to postmasters. He does mean however to see to it that all postmasters shall be appointed on a merit system. Although no definite announcement can be made as yet, it looks as if the administration policy would be somewhat as follows: First, revocation of the Wilson executive order whereby only one man was eligible for appointment out of a group of applicants who had passed an examination. Second, substitution of an executive order putting all postmasters under civil service and requiring examination but permitting appointment from any one of the top three on the eligible list. Third, recommendation to congress that legislation be enacted making the system permanent so that every

DREAM OF ALBERT BECOMES A FACT

Sees Visions of Treasure and Plows Up a Fortune (By JULE B. WARREN.) The Winston-Salem Bureau, Merchants' National Bank Building, Raleigh, April 20.—Charlie Jones, Guilford county man, who appealed from a fine of \$50 in the recorder's court on indictment of driving an automobile while intoxicated and got a sentence of two years on the road from Judge Big Jay in the superior court, now finds the judgment of the lower court confirmed in an opinion by the supreme court today; for that court held that the sentence was within the jurisdiction of the law, which prescribed a minimum but not a maximum sentence. The case in the batch of opinions handed down today.

JUDGE WEBB'S NON-SUIT IN LOGGINS VS. S. P. U. COMPANY REVERSED BY SUPREME TRIBUNAL

(By JULE B. WARREN.) The Winston-Salem Bureau, Merchants' National Bank Building, Raleigh, April 20.—The reversal of Judge Webb's non-suit of the Loggins vs. the Southern Public Utilities Company, of Forsyth, in the district court, was affirmed by the supreme court today. The case held that the non-suit was not so far as the company was concerned. The highest court, however, in an opinion written by Justice Scales, with Justice Allen and Justice Walker dissenting, holds that the company is only responsible for a passenger while he is on the car, but the passenger is entitled to protection on leaving the car. To the extent that the company should pick out a safe landing place. The boy, it was set forth, was allowed off the car at a traffic control corner, took a few steps, and was hit by the automobile. The court thinks the jury should have been allowed to pass on the facts, and hence reversed the decision of the lower court. Other opinions included Wood vs. Wood, Davidson, affirmed the opinion that the wife had right to bring suit for divorce in her county rather than in Davis, home of her husband. Brady vs. Hughes, sheriff Randolph county, Guilford, no error; Lemmons vs. Sigmond, DeWitt, reversed; decision to non-suit case against register of deeds for issuing marriage license to girl under age.

IS SELECTED FOR LOFTY POSITION IN GOVERNMENT

News In Received In Winston-Salem With Many Expressions of Gratification

MANY CANDIDATES WERE MENTIONED FOR HONOR

Native of Carolina, Mr. Blair Has Spent His Life in This City and Vicinity

Friends of D. H. Blair received a telegram from him late yesterday stating that he had been appointed Commissioner of Internal Revenue by President Harding. It had been known for some days that Mr. Blair occupied a prominent position in the government and the news telling of his final selection was received here with a great deal of satisfaction by citizens of the community. The office to which Mr. Blair has been elevated is one requiring of its incumbent broad business qualifications, strict integrity, marked executive ability and rare tact. Those who know Mr. Blair recognize him as embodying all these high qualities in marked degree.

NATIONAL FUNDS

The commissioner of internal revenue is charged with collecting practically all the funds that contribute to the operation of the federal government. There are under the commissioner sixty-four collectors, one for each of the districts into which the country is divided for the purpose of facilitating the collection of revenue. Each collector appoints fifty deputy collectors. The organization is thus one that embraces the entire nation and its operation is directly and greatly a matter of its citizens. The commissioner must be accessible to each of the 48 members of the house and the twenty-five members of the senate. He has charge of a vast staff of patronage and is expected to keep in close touch with business conditions throughout the land.

HEAVY COUNTER BY GREEK ARMY

Delivers Heavy Offensive to Save Izbak; Turks Bring Up Contingents from Tripoli (By The Associated Press.) Constantinople, April 20.—The Greeks are delivering a heavy counter-offensive against the Turks near Izbak to prevent the Turks from capturing the town. The Greeks continue their preparations for a formidable offensive, which is expected to commence in a few days, probably in an effort to reach Kutayah. The Turks are bringing up the last of the conscripts from the interior tribes, which, together with the army of Kiam Kar Bekir, form an army of about 100,000 men. The Turkish communication issued today says that five members of the woman's battalion have been killed near Izbak, where the Greeks are being pressed.

Federal-State Co-operation For Building Roads is Given Hearty Approval by Greensboro Meeting

(By The Associated Press.) Greensboro, April 20.—Chattanooga, Tenn., putting up a vigorous fight for the tenth annual convention, 1922, of the United States Good Roads Association in session here, won a point over a number of other cities today. The committee vote gave the Tennessee city the jump on the other cities. The treaty between the two states, which has been in force since 1912, provides for the construction of public roads and public highways in the United States.

The president of the convention waits for the appointment of a committee of representative citizens from the various States to go to Washington to present the resolutions to the proper committee of the senate and the house of representatives of congress. Assist States. That the national government should give assistance to the several States, is the policy which has been accepted by congress as was made clear in the passage of the federal aid road act in 1916 and reauthorized in 1917 with an appropriation more than double that of the first one, declared Mr. Hatch, one of the speakers of the day.

GERMANS STORM CHICAGO COUPLE

Mob At Potsdam Assails Americans After Empress' Funeral POLICE TO THE RESCUE (By The Associated Press.) Berlin, April 20.—James E. Tobin, son and his wife, residents of Chicago, were attacked by a crowd of German men, women and children Tuesday as they sat on the terrace of Sans Souci park following the funeral of former Empress Augusta Victoria. The Americans were rescued by a security policeman and two German civilians, who locked arms and surrounded them, accepting a pelting of sticks, stones and umbrellas in defense of the couple until they were able to escort them to the police station in Potsdam. Here a patrol of extra policemen were summoned and dispersed the crowd.

Thought them French
