EXPLOSIVE TRADE TO BE RESTRICTED

Heavy Penalty Will Be Inflicted Metals To Be Turned Into Cash On Persons Handling Explosives Without License

Washington, Nov. 12 -- Any person found with explosives in his possession after November 15, without a liment showing the purpose for which the explosives are to be used will be liable to arrest and fine of \$5,000 or one year's Imprisonment.

Under the law, the director of mines is empowered to utilize the services of all United States officers and all police officers of the states, including the city police forces, county sheriffs. deputies, constables and all officers in any way charged with police duties. The police of the cities have already been organized for this work, headed by a committee of chiefs. The police are not only to look after the enforcement of the law, but are also to make there investigations of all dynamite outrages and fires in factories and warehouses, and to make their reports to the director of the bureau of mines.

Persons apprehended in plots up factories and bridges will be turned over to the authorities for prosecution under federal or state Most states have specially severe punishments for these crimes. New York has an extreme genalty of imprisonment for the placing of dynamite with intent to blow up property. The penalty pro vided in the federal war measure is merely to cover the illegal possession of explosives.

The law provides that everyone who handles explosives must have a li- and all by means of old thimbles. cense issued by the bureau of mines in Washington. The seller of explosives and the purchaser of explosives must have licenses, issued generally by county clerks, or other local officers authorized to administer oaths. There will be at least one licensing officer in each county, and more agents will be designated if the county is sufficiently large to warrant it. If a state has laws providing for a system of licensing persons manufacutring, storing, selling or using explosives, the state officials authorized to issue such state licenses shall be designated as federal licensing agents; also city officials qualified to issue city explosives licenses will be given authority to issue federal licenses. A federal license will not relieve any person from securing licenses requir ed under state laws and local ordinances. Only citizens of the United States or of countries friendly to the United States and the Allies may obtain licenses.

Contractors, mining quarrymen and others using large quantities of explosives, which are hauled by employes, may issue explosives to their employees only thru those employes holding a license, called a foreman's license.

The purchaser of dynamite, in obtaining a license, must state definitely what the explosive is to be used for and will be held accountable for its use as stated and the return of any explosives that may be left.

With the strict enforcement of this law, the federal authorities hope to prevent explosives falling into the hands of evilly disposed persons and to put a stop to all further dynamite plots.

LOCAL "MELTING POT"

For Funds For Army Aviation Corps

Patterned largely after the very England, the ladies of the city, under the management of the Hospital Co-Workers, are inaugurating "a melting pot' for theaccumulation of precious metals which can be turned into cash for a fun to aid the aviation corps of the United States army. The local campaign was started Saturday when a large pot was placed in Barber's win, dow for the receipt of contributions. As stated Saturday, the committee de-sires to collect all bits of old and brojewelry, either silver or gold, as well as metals of lesser value, such as bits of lead, etc. All these pieces will be placed in the pot, and when full the contents will be sent to Washington, where the various metals will separated, melted down and sold roe. for valuable uses.

Like the women of England, the wo. men of the United States are collect. ter. Mrs. S. B. Miller, ing old silver thimbles, no matter how bent and battered they may be, but they are going the English women one better by collecting all kinds of jewelry. Silver thimbies are helping England win the war and bits of jewelry are going to help Uncle Sam win the As an indication of what this ver thimbles has been large enough to pay for seven motor ambulances, five hospital boats, a large amount of cash

The women of the United States ark hoping to do as much for their fight- tain Creamery Company.

Once the realization of the possibilities are understood it is believed every man, woman and child will aid in CAMPAIGN IS OPENED accumulating these old bits of all of the second bits of old gold and sitwomen's costs, bits of old gold and sitver pins, old vases, and in fact any bits of old, discarded jewelry or metal, will help in swelling the fund to an amount that will surprise and startle the nation if each community does its "bit" in this way.

The Hospital Co-Workers are laying to see the pot in Barber's window such filled to overflowing with contributions from Winston-Salem patriots.
