**THE BETTER THING.**  
... to die for the flag.  
... and its white and its  
... and shirk and to  
... the flag sink out of view,  
... to give up this life  
... and the thick of the  
... live out your days 'neath  
... "Old Glory" shall never  
...  
... that we long for will be

## Punch!

It is the man with punch and vigor who accomplishes the big things in life. Sound health gives him a force that sweeps all before it. Back of his health is regular functioning of the physical organs, sound lungs, a good heart—regular bowel action.

Nujol will give you punch by keeping the poisonous food waste moving from your body—and by an entirely new principle.

Instead of forcing or irritating the system, it simply softens the food waste. This enables the many tiny muscles in the walls of the intestines, contracting and expanding in their normal way, to squeeze the food waste along so that it passes naturally out of the system.

Nujol thus prevents constipation because it helps Nature maintain easy, thorough bowel movements at regular intervals—the healthiest habit in the world.

Nujol is absolutely harmless and pleasant to take. Try it.

Nujol is sold by all druggists in sealed bottles only, bearing Nujol trade marks. Write Nujol Laboratories, Standard Oil Co. (N. J. Jersey), 10 Broadway, New York, for booklet, "Thirty Feet of Danger!"

## DR. CHAS. LEE RAPER LEAVES UNIVERSITY

Professor of Economics For 19 Years and Author Of Several Books

Chapel Hill, July 22.—Dr. Charles Lee Raper, for nineteen years Professor of Economics and for eleven years dean of the graduate school at the University of North Carolina, has sent his resignation to President Chase and will leave Chapel Hill within a few days to accept a position as Professor of Transportation at Syracuse University, Syracuse, New York.

His departure from the university faculty will mean the loss of a man who during a long period of teaching in North Carolina has made a high record for sound scholarship, for personal work with his students, and for personal and public service to the university and to the state.

A close student of history and of economics, Dr. Raper in recent years has made special studies in taxation and in transportation which has caused him to be ranked as an authority in those subjects. He has been closely identified with taxatoh history in North Carolina and has been called frequently to Raleigh by the general assembly for advice on taxation problems. He was especially active at the last session of the general assembly and appeared before the financial committee several times in the course of their work in reshaping the taxation system in the state.

Virtually all his life has been spent in North Carolina. Born in High Point, he studied and taught at Trinity College and Greensboro Female College. He was a fellow and lecturer in history at Columbia for two years and received his Ph. D. from that institution in 1912.

He came to the University in 1911 as associate professor of Economics and History, was made Professor of Economics in 1916 and became in addition Dean of the Graduate School in 1919. He received an honorary degree of L.L.D. from Lenoir College in 1917.

Dr. Raper is the author of several books, including "The Church and Private Schools of North Carolina," "North Carolina—A Study in English Colonial Government," "Principles of Wealth and Welfare," and "Railway Transportation." The latter two have been used widely as text books. He has also published many pamphlets and bulletins.

The professorship of transportation at Syracuse University is a newly endowed and established chair and Dr. Raper is called to start the particular work it involves. Only four other institutions in the country, it is said, have such professorships.

No announcement has been made at the University as to Dr. Raper's successor.

## SALISBURY TO HAVE A BIG CANDY PLANT

Salisbury, July 22.—This town is to have a candy factory, a plant for the manufacture of high grade fancy hard candies, the Cobb-Mack Candy Company, incorporated under the laws of Virginia. The plant will be operated in the old Jamec mill on West Cemetery street and which is now undergoing overhauling and being put in shape for the exclusive manufacture of candies.

**Paid High for Word From Kin**  
(Philadelphia Public Ledger.) Charges that \$5 to \$15 are being made for the delivery of letters sent from Russia to relatives in Philadelphia in an alleged scheme of profiteering are under investigation here by postal inspectors and county detectives. The alleged scheme came to light recently when Samuel Epstein was summoned to the office of Major Samuel O. Wynne, head of the county detective bureau, following repeated complaints to the detective bureau that Epstein was "peddling" letters sent here from Russia and charging the addressees from \$5 to \$15 each.

# COUNCIL MEATS

Better Meats That Cost Less  
No Waste · No Ice Needed  
Always Tender  
Ready-Cooked To Perfection

## Meats Arent High—if You Know How to Buy them.

**IF** you could lower your meat bill 15 to 25%—it would seem like old times—wouldn't it? Well, you can, and have as good or perhaps better meat than you are now getting—by cutting out the cost of the waste and trimmings for which you pay. The way to do it is to buy cooked Council Meats.

Why are they cheaper than uncooked meats? Only because Council Meats are fine, tender, prime meats and nothing else—no waste, no trimming. And besides much of the weight of uncooked meat is water—water that is lost in cooking—goes off in steam.

Yet you pay for that water at the price of meat. Being cooked, there is no excess water in Council Meats. They're all meat—meat you can eat—no shrinkage.

That's why their use will lower the meat bill at least from 15 to 25%. And remember, only choice, fine, tender cuts skilfully cooked and seasoned, are used for Council Meats. Start saving today.

### Seven delicious, economical, ready-cooked meat meals

SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
Roast or Boiled Mutton For 5-70c	Tripe—with milk For 5-37½c	Fatted Tongue For 5-80c	Hamburger Steak and Onions For 5-80c	Sausage Meat For 5-50c	Oven Baked Beans For 4-25c	Stuffed Ham For 5-80c
That's two whole pounds of mutton, no bops or waste—more than enough for a family of heavy eaters—and such mutton—tender, choice and prime. Ready for the table after heating the can in boiling water for a few minutes. Compare its price with the cost of uncooked meat.	Selected tripe cooked to a toothsome tenderness with rich, fresh milk and then immediately canned—that is all that's in a tin of Council Tripe—just heat it and serve plain. And think, only 37½c for the meat dish of a meal! Serving it frequently is one way to lower the cost of meat.	Tender selected tongue, well cooked and perfectly seasoned. Ready for delicious sandwiches—or for serving hot on toast. For luncheons or picnics or after theatre treats—this potted tongue is perfect.	Prime steak—the very best—chopped fine. Just enough onion for flavor, cooked to a turn—there's a real meal. It's all in one large can of Council Hamburger Steak and Onions, ready for the table except for warming.	Finely minced choice meat, spiced to a zestful delicacy—those are the ingredients of Council Sausage Meat. They are cooked to a turn and are rare, good eating. Besides, Council Sausage Meat is economical beyond comparison.	A large can of oven baked beans costing a quarter, is a meal in itself, and note that the Council Beans are genuine oven baked, not steamed or boiled—each bean is, therefore, a meaty, delicate, tender whole and digestible too. Council Baked Beans are as good cold as hot, either with or without tomato sauce.	Sugar cured ham, cooked right, then chopped fine and mixed with delicate seasoning that adds to that rich ham flavor. Serve on hot toast. For stuffed eggs or green peppers—or just plain sandwiches—you'll find this ham delicious.
