Wilmington, N. C. 20th Nov. 1835. 46-4t PROSPECTUS

Congressional Globe.

The success of the experiment we have made to furnish a succinct history of the proceedings of Congress, from day to day, with sketches of the Debates, induces the undersigned to persevere in their plan to extend and perfect it. They have resolved that the Congressional Globe shall not only embody the parliamentary annals of the country, but shall also turnish an Appendix, which speakers, on the most important subjects, written out by members themselves, from the notes and printed sketches of the Reporters.

The Congressional Globe, with an Index, will be published weekly, upon double royal paper, in octave form, store recently occupied by F & E I as heretofore, at one dollar for the session. It may be and has on hand a good assortment of as heretolcre, at one dollar for the session. It may be subscribed for separately The appendix of finished speeches will, also, be published for one dollar.

It is probable that the next session of Congress, will continue nearly seven months; if so, the work will contain between four and five hundred, pages, and will be the cheapest publication perhaps in the world.

The next session of Congress will probably be the most eventful one which has accurred for many warrened. eventful one which has occurred for many years, and will certainly be replete with interest, as its course will have great influence in fixing the destiny of the Republic for years to come. Immediately preceding, as it does the next Presidential election, and containing the leading

the next Presidential election, and containing the leading minds of all the contendins parties in the country, deep and abiding interests will attend the debates. The whole drama will be faithfully exhibited in the Congressional Globe and the Appendix.

We have already provided for our reporting corps, eminent ability and skill in one branch of Congress, and we expect to obtain an adequate reinforcement of capable persons in the other, by the time it meets, to fulfil our own wishes and the expectations of the Members.—No pains or cost on our part will be spared to accomplish it. As the work will be continued regularly, and be made permanent, authentic, and therefore highly useful all who take an interest in the political affairs of the country will do well to begin their subscription the next session.

CONGRESSIONAL GROSS.-1 copy during the Session, \$1 00 Do. do. 11 capies during the Session, \$10 00 Appendix — Same price.

The Congressional Gloss will be sent to those papers that copy this Prospectus, if our attention shall be directed to it by a mark with a pen. Our Exchange List is so large that we would not observe it, probably, unless this be done. this be done.

WISH to sell the HOUSES and other Fixtures by me possessed, in ELIZABETH

TOWN, and kept as a place of

Public Entertainment.

Any description of the property is needless, as it is pretty generally known, and no person choosing to buy, would be likely to do so without first reviewing the premises. One peculiarity, however, that may not be at all times apparent, is, that it has been for years the place of rest and refreshment for the most respectable class of Traveliers, and for which I beg leave to offer them my grateful acknowledgments: and nothing more is required than clean beds and good provisions for nian and horse, to ensure success in the calling. My principal reason for wishing to sell is, next to the want of money, that I cannot have suitable assistance in managing the business; and having to sustain the burden of ordering and directing about house affairs, my attention is too much di

verted from my mercantile concerns, which I am also desirous of bringing to a close.

ELIZABETH Town, as is clearly indicated by the present state of the River on which it is situated, and surrounded as it is by fine streams of water suited for purposes of machinery, is destined to become a place of considerable importance, and with a small capital employed in Trade, much may be done, and for which purpose there are Houses already connected with the establishment Many good BUILDING LOTS in the town

A GREAT STORE .- Mr. Isaac Orr, of Washington, advertises for sale the patent right of an " Air Tight Stove," at \$50, 000, till January 1, then at \$100,000 til March 1. This tremendous stove, at this tremendous price, the inventor cays " re-Joseph A. Hill, deceased, hereby gives notice, that the creditors of said estate shall present their quires only from one third to two thirds claims within the time prescribed by law, or they stoves in existence? We are very much afraid that the sale of the above valuable discovery will be injured by the following advertisement which Mr. Orr has thought

proper to issue - Alexandria Gazette.

The world has quite long enough enriched and idolized its living swindlers, robbers, and murderers; and neglected, defrauded, executed, crucifixed, its living benefactors. The blood of the impoverished family of Fulton still rails to us from the ground, while their rigiful inheritance is constitutionally squandered on the Cains of the country. By all the wrongs and miseries of Inventors; by the ingratitude, ridicale, persecution, which they have endured while living; by the pennry and ignorance inflicted on their families; by the mockery of the costless and unprofitable incense offered, when dead, to the abstraction of a name; I insist & shall insist, at least in this instance, that if the world is to receive from me an immense and interminable benefit, it must repay me sor infiniteismal part of its value, or do without

it fourteen years longer.

GEORGE THOMPSON. - This miserable creature has left the U. States no more to return. He sailed from Boston a few days ago for the British province of New Brunswick. He has gone with all his sins upon his head. Not a word of apology or explanation has been offered by him or by the abolitionists who have foisted him upon the public, in reply to the affidavits which have been published proving that in 1830 he was convicted of being a thief; having stolen from his employers no less a sum than 160l sterling, or about \$750. -and that, after having been forgiven for a previous offence of the same character. No apology has been given for his having assumed the clerical office under which he preached repeatedly, though never have ing been authorized to do so by the forme

or authority of any denomination. P. S. The Boston Atlas states that Thompson sailed for this port, in one of the packets, from that city on Sunday noon the 8th inst. This is unquestionably a mistake. Our information of his departure for New Brunswick is such as we believe may be implicitly relied on.

Washington, N. C. N. tember 21. DISTRESSING INCIDENT .- On Wednesday night last, between 8 and 9 o'clock, Benjamin Anus, aged about two years and six months, son of Mr. William Show. merchant of this town, was missing from the house of its parents. Diligent search was made by the family, but no tidings of 50 bundles prime Hay; was made by the lamily, but no tidings of the child could be heard;—the heart-rending screams occasioned by the overwhelming distress of its mother, who had gone in the street to look for her helpless babe, hong; mostly in small casks, to suit customers, were soon heard by a number of families and citizens. The streets and houses were searched; after a considerabletime -awful and distressing to relate-the little innocent was found, by its anguished father, floating on the water! It appears that the child, after dark, while its mother was absent from home, had strayed from the house, with other little children, and, it is supposed, subsequently wandered alone, looking for its home, (the night being dark and rainy.) till it got to the river, when alas! it fel! into the devouring element! The child having been brought to the house, every means were used by the Physicians to resuscitate it, but in vain-the vital spark had fled. The heart felt commisseration manifested by all present for so serious an occurrence, and the deep and pungent dis-tress exhibited by its parents for so sudden and unexpected a loss of their child, who a lew minutes before, was as blooming as the rose, were such that language is inadequate to express. Parents take
