

MOFFAT'S VEGETABLE LIFE PILLS

PHENIX BITTERS.

THESE medicines have long been known and appreciated for their extraordinary and immediate powers of restoring perfect health to persons suffering under nearly every kind of disease in which the human frame is liable to be involved. In many hundreds of certified instances, they have even rescued sufferers from the very verge of an untimely grave; after all the deceptive nostrums of the day had utterly failed; and to many thousands they have permanently secured that uniform enjoyment of health, without which life itself is but a partial blessing.

The proprietor rejoices in the opportunity afforded by the universal diffusion of the daily press, for placing his VEGETABLE PILLS within the knowledge and reach of every individual in the community. Under the most pernicious quackeries, which boast of vegetable ingredients, the Life Pills are purely and solely vegetable, and contain neither Mercury, Antimony, Arsenic, nor any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent physicians, are not generally known to the ignorant pretenders to medical science; and were never before administered in so happy and efficacious a combination.

The first operation is to loosen from the coats of the stomach and bowels the various impurities and crudities constantly settling around them; and to remove the hardened feces which collect in the convolutions of the small intestine. Other medicines only partially cleanse them, and leave such collected masses behind as to produce costiveness, with all its train of evils, or violent diarrhoea, with its imminent dangers. This fact is well known to all practical anatomists, who examine the human bowels after death; and hence the prejudice of these who inform you that the quick medicine of the Life Pills is to cleanse the bowels and the bladder, and by this means, the liver and the lungs, the healthy action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the agency of the liver and the lungs, when it passes into the heart, being thus purified by them, and cooled by its contact with a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of dominion in the blooming cheek.

The following are among the distressing varieties of human diseases, to which the Vegetable Life Pills are well known to be a timely remedy: DYSPEPSIA, by loosening the bowels, and creating a flow of pure healthy bile, instead of the stale and acrid bile; Flatulency, Puffing of the heart, Loss of Appetite, Heartburn and Headache, Nervousness, Irritability, Languor, and Miscellaneous, will vanish as a natural consequence of its cure. Costiveness, by clearing the whole length of the intestine, and without violence; the bowels become active, and the cholera, by removing the sharp acid humors, and by promoting the lubricative secretion of the mucous membrane, prevent all kinds of biliousness, by restoring the blood to a regular circulation, through the process of purgation, and the consequent solution of intestinal obstructions in others. The Life Pills have been known to cure Rheumatism permanently in three weeks, and the gout in half that time; by removing local inflammation from the muscles and ligaments of the joints. Dropsies of all kinds, by forcing and strengthening the kidneys and bladder, they operate most delightfully on the most delicate organs, and have never been found to exert a certain remedy for the worst cases of Gravel. Also, Hemorrhoids, by dissolving from the tumors of the bowels the slimy matter to which these eruptions adhere, Asthma, and Consumption, by relieving the air vessels of the lungs from the mucus, which even slight colds will occasion, which if not removed becomes a permanent and protracted disease. The Life Pills give to the blood, and all the humors, Scorbatic Eruptions and bad Complexions, by their alterative effects upon the fluids that feed the skin, the morbid state of which occasions all Eruptions, Complaints, Sallow, Cloudy, and other disagreeable Complexions. The use of these Pills will show the necessity of an entire cure of Salt Rheum, Eczema, and a striking improvement in the Clearness of the skin. Common Colds and Influenza will always be cured by one dose, or by two, even in the worst cases. Piles—as a remedy for this most distressing and obstinate malady, the Vegetable Life Pills deserve a distinct and honorable mention. It is well known to hundreds in this city, that the proprietor of these invaluable Pills was himself afflicted with this complaint for upwards of thirty years, and that he tried in vain every remedy prescribed within the whole compass of the Materia Medica. He however, at length tried the medicine which he now offers to the public, and he was cured in a very short time; after his recovery he has been pronounced not only improbable, but absolutely impossible by any human means.

DIRECTIONS FOR USE.—The Proprietor of the VEGETABLE LIFE PILLS does not follow the base and mercenary practice of the quacks of the day, in advising persons to take his pills in large quantities. No good medicine can be taken at bed time. These pills should be taken at regular intervals, for a week or fortnight, according to the obstinacy of the disease. The usual dose is from two to five, according to the constitution of the person. Very delicate persons should begin with but two, and increase as the nature of the case may require. Those more robust, or very costive habit, may begin with three, and increase to five, or even six pills, as they will effect a sufficiently rapid change to guide the patient in their further use. These Pills sometimes occasion sickness and vomiting, though very seldom, unless the stomach is very foul. This, however, may be considered a favorable symptom, as the patient will find himself at once relieved, and by perseverance will soon recover. They usually operate within 10 or 12 hours, and never give pain, unless the bowels are very much encumbered. They may be taken by the most delicate females, under any circumstances. It is, however, recommended that those in later periods of pregnancy should take but one at a time, and thus continue to keep the bowels open; and even two may be taken, where the patient is very costive.

One pill in a solution of two table spoonfuls of water, may be given to an infant in the following doses—A tea spoonful every two hours till it operates; for a child from one to five years of age, half a tea spoonful every two hours till it operates. THE PHENIX BITTERS are so called because they possess the power of restoring the expiring embers of health, to a glowing vigor throughout the constitution, as the Phoenix is said to be restored to life from the ashes of its own dissolution. The Phoenix Bitters are entirely vegetable, composed of roots found only in certain parts of the western country, which will infallibly cure the FEVERS AND AGUES of all kinds; will never fail to eradicate entirely all the effects of Mercury infinitely sooner than the most powerful preparations of Sarsaparilla, and will immediately cure the determination of BLOOD TO THE HEAD; never fail in the sickness incident to young females; and will be found a

LAND AND MILLS FOR SALE.

IN consequence of the intended removal to the west of one of the joint owners, the subscribers propose to sell their valuable SAW AND GRIST MILLS, situated on Lower Little River, fourteen miles from Fayetteville, to which is attached upwards of 7000 acres of TIMBERED LAND, lying on each side of the river, and convenient thereto. The Mills are now in good repair, carrying three single saws, which saw on an average thirty thousand feet of lumber in a week, though the quantity has been increased greatly above this. The lumber is readily conveyed by water to the Wilmington market, and attended with little expense. The stream is sufficient to carry a gang of saws, affording at all seasons abundant water, on which may be erected a factory, there being an excellent site for that purpose. To a person wishing to invest capital in property of this kind, this place holds out inducements inferior to none in this country. There is a good dwelling house on the premises, together with other necessary outbuildings. The situation is healthy and water pure. A person from the low country, wishing a healthy retreat, would do well to call and examine. We will sell on accommodating terms, giving a liberal credit, the purchaser securing the payment with approved notes. For further information, refer to David Reid, Esq. Fayetteville, or to the subscribers. ALEX. MURCHISON, & CO. Cumberland Co. Dec. 7th, 1837. 100 tf
