1. Information that Britain and the United States have agreed to follow parallel diplomatic action "to protect their shipping in the Yangtze river against Japanese interference."

Immediate cause of the strong British attitude was believed to be the Japanese declaration of last week in which Tokyo announced that henceforth Japan is the dominant power in East Asia and must cooperate with her for prosperous and stable conditions.

MUST VEER TO CONSOLIDATE AFTER LOSSES

Said to Remain Strongest Man in Party Despite Tuesday's Setback

MANY CONGRESSIONAL SEATS STILL IN DOUBT

NEW YORK, Nov. 10. (UP)—The abrupt national swing toward the Republican party in Tuesday's election gave President Roosevelt good ground either to close his ranks with the left wingers or to ally with conservative Democrats for the 1940 presidential cam- paign.

The general election cut down promising administration political timber. It left the president still more emphatically the strongest man in sight to head a 100 per cent New Deal ticket in 1940.

Stocks rose and business appar- ently was reassured by Republi- can victories.

Left wing leaders immediately saw danger of a divided house and set about for consolida- tion efforts.

At New York, Mayor LaGuardia, Fusion leader and American Labor Party statesman summoned outstanding Progressive leaders to meet in Washington next week. His object is coalition.

Former President Herbert Hoover raised the conservative coalition flag and called upon conserva- tive Democrats to join Republi- cans to stop the New Deal.

REPUBLICANS TURN BACK NEW DEAL

By ARTHUR F. DOUGLASS United Press Staff Correspondent NEW YORK, Nov. 10. (UP)—The Republican party turned back the 6-year New Deal tide in Tues- day's general elections, and today again was a major political force capable of giving Democrats a hot fight for the presidency in 1940.

Although the Republicans cap- tured important political posts in many strategic states as the na- tion swung to the right of the New Deal, Democrats retained control of both houses of congress and possession of more than one-half of the 48 gubernatorial posts.

Virtually complete reports from the off-year election presented this picture: Republicans won eight addition- al senate seats and their candi- date was leading in a neck-and- neck race in Indiana. In Iowa, the hotly contested senate race ap- peared settled last night with the re-election of Guy M. Gillette.

A total of 162 Republicans had been elected to the house at 4:30 p. m. This was a gain of 74 seats and 25 contests still were in doubt.

Republicans made a net gain of 11 gubernatorial seats. President Roosevelt received the news of the Republican triumphs in silence at his Hyde Park, N. Y., home.

Chairman James A. Farley of the Democratic National commit- tee conceded that Republican gains exceeded his expectations, but he insisted that the country still is "strongly behind the hu- manitarian policies of President Roosevelt."

He said the defeat of Democrats in Connecticut, Rhode Island and Nebraska should be attributed chiefly to local issues and that Democratic victims in Ohio, Ore- gon, Massachusetts and Pennsylv- ania resulted from failure to head intraparty strife. While Farley said that "we lost a few more (Continued on page three)
