PROSPECTUS.

If sufficiently supported, the subscriber intends to publish a monthly paper of eight pages, for the purpose of diffusing information on the subject of education...

It is intended to give an account, drawn from the public documents and other sources, of the origin and progress of our Common School system, to compare it with that of other States...

And believing that the State which would improve its schools must first improve its teachers, a portion of our columns will be devoted to the questions—How are our schools to be supplied with competent teachers? How is the standard of education to be raised...

Subscription also received at the Patriot Office. The papers of the State, and others friendly to the cause of Education are requested to publish notice of the above. NEREUS MENDENHALL. 2d no. 7, 1848.
