Its manufacture is based upon a thorough physiological knowledge of the growth of the hair, and its connection with the skin, as well as a knowledge of the various diseases which affect both. This celebrated compound in addition to its usefulness as a preserver and beautifier of the hair, is unequalled by any other article as an external application for bronchitis, erysipelas, swelling, ringworms, scald head, inflamed skin, prickly heat, scrofula, lyster pimples, sore throat, tender feet, salt rheum, rough hands, head ache, chapped skin, chilblains, joint pains, rheumatism, &c., &c.; and the pain occasioned by the sting of insects is immediately relieved by its application, and as a ready and effective resource for all cutaneous diseases of the skin, it merits a place among the household treasures of every family. ### Dr. A. F. Cooper's Spino-Abdominal SUPPORTERS.

THE Subscriber has on hand, a supply of the above valuable Supporters, which are recommended for all persons, afflicted with muscular debility, round shoulders, or prostrated Uteri. Prof. Mott thinks they are very well adapted for some varieties of incipient spinal distortions, as they afford the useful combination of shoulder Braces and Abdominal Supporters, with very decided support to the spinal column. The above Braces are recommended by Physicians generally, who have seen them, and I have sold a number to citizens of this place, who are highly pleased with them. A gentleman observed a few days since, that he had been wearing a very celebrated body brace for some time, and that he would not give one of the above, for fifty such. They need no puffing, as they speak for themselves. P. F. PESCU. Dr. A. F. Cooper's Spino-Abdominal Supporters. Raleigh, March 30, 1849. 17

### IMPORTANT SALE OF Reclaimed Swamp Lands,

In North Carolina. THE President and Directors of the Literary Fund of North Carolina, in pursuance of certain Resolutions, passed at the last session of the General Assembly, offer for sale, Fifty Thousand Acres of Swamp Lands, constituting a part of the Literary Fund of the State, situated in Hyde and Washington Counties, and embracing the region lying between Pamlico and Albemarle Sounds. These lands have been drained at great expense, under the direction of competent Engineers, and laid off into Sections. The drainage has been effected by two main Canals, to-wit: Pungo Canal, extending from Pungo Lake to Pungo river, six and a half miles in length, with an average width at bottom of 22 feet, depth six feet and fall twelve feet—and Alligator Canal, from Alligator Lake to Pungo river, 6 miles long, with an average width at bottom of 30 feet, depth seven, and fall ten feet; together with sundry tributaries or lateral ditches. These Canals are navigable for Bateaux, and emptying into the navigable waters of Pamlico Sound, their mouths are accessible to sea-going vessels. A large portion of this Land abounds in Juniper, Cypress, and other valuable Timber, for which the forest of Eastern North Carolina is distinguished. The residue consists of Prairie, covered with the Cane and Bamboo, and in the estimation of the Engineers who surveyed it, the whole of it is extremely fertile. To Grain Farmers, and to the getzers of Staves, Heading and Shingles, this land offers peculiar inducements. To Immigrants in the Parts of the United States, accustomed to a country similar in many respects, the Land offers a soil believed to be as fertile as any in the North-western States, with easy access to the Sea, and within three days' sail of New York. The Juniper water is pleasant, and the lands enclosed during the last two Summers, in getting Staves, have enjoyed excellent health. The Sale will take place in the Town of Washington, in Beaufort County, by Public Auction, commencing on Monday, the 21st day of May next, and will be superintended by the members of the Board, in person. Terms: The Land will be sold in Sections of about 160 Acres, according to the Maps and Plans of the Engineers. A credit will be given of one, two, three, four years, to be paid in equal instalments, with interest from the day of sale. Bond and approved security will be required, and the title withheld until the purchase money shall be paid in full. Certificates of purchase will be given, and the titles, when made, will be warranted. Turnpike Road. At the same time and place, the Board will receive Proposals for completing the Turnpike Road from Pungo Lake to the Town of Plymouth. Given under my hand, at the Executive Office, in the City of Raleigh, this 6th day of March, A. D. 1849. CHAS. MANLY, Governor of North Carolina, and ex officio Pres't of the Board. By order: L. COWPER MANLY, Secretary to Board. Raleigh, March 9, 1849. 14-1t

### FRESH GARDEN SEED.

WILLIAMS, HAYWOOD & Co., have just received a supply of Garden Seeds, which they warrant to be fresh and genuine. To the Patrons of the Temperance Communicator. I OWE an apology to my Patrons for the temporary suspension of the Communicator. At the earnest solicitation of many friends, I have changed my location from Pittsburg to Fayetteville, whence the mails diversify in many directions, and by which I can send the Communicator more speedily and with more certainty to all my subscribers. The regular issues of the Communicator may be expected as soon as the press can be put in operation—say about two weeks. W. M. POTTER, Ed. Con. Fayetteville, Feb. 7, 1849.

### PROSPECTS.

If sufficiently supported, the subscriber intends to publish a monthly paper of eight pages, for the purpose of diffusing information on the subject of education—with the special view of improving the character of our Common Schools. It is intended to give an account, drawn from the public documents and other sources, of the origin and progress of our Common School system, to compare it with that of other States here and in Europe, thus noting our improvement over former years and suggesting the means of overcoming the defects and difficulties under which we still labor. This will lead us to investigate the sources from which school funds are derived, the modes of their application, the preservation of order in schools, the election of proper books for study, the recreation suitable for the pupils, the treatment necessary for different dispositions, &c. And believing that the State which would improve its schools must first improve its teachers, a portion of our columns will be devoted to the question—How are our schools to be supplied with competent teachers? How is the standard of education to be raised, and the services of a band secured who are well qualified to go forth and in the spirit of love, labor for the advancement of the children who are placed under their charge? But Education is a word of very extensive meaning, and although the primary object of the publication may frequently take us into the school room, we do not intend to be always confined there. Our subject matter is the human mind, and the influences—good and bad, with a view of preventing the one and strengthening the other—which can be brought to operate upon it. That this is a theme of the deepest moment none can deny. It grasps the interests not of this world only—it reaches through eternity. We shall not hesitate then as occasion may demand, to enter the family circle, to place ourselves on the streets or mingle in the busy crowd and there set forth the rules of life and principles of conduct which we believe will promote the good of our race here and rebound to our everlasting welfare in the life which is to come. The publication will be commenced in Greensboro', so soon as a sufficient number of subscribers can be obtained to defray the expenses of printing—to be printed on fair type, at 50 cents a year, payable on the receipt of the first number. Letters relating to the paper may be directed (post paid) to Nervus Mendenhall, Jamestown, Guilford county, N. C. Subscription also received at
