

THE NEWS FROM CALIFORNIA.

We publish rather more than we are wont of the rich tales of California to-day. The wonders of that golden land are beginning now to make a deep impression upon the public mind—and the actual receipts of loads of the glittering treasure, brings the thing home at once to men's intense thoughts and deeper pockets.

When Appleton returned home and lectured upon California, all his eloquent declamations, and vivid descriptions, and scientific speculations were dissipated and put to flight, and rendered valueless, by his answer to one plain and matter-of-fact question: "Have you any gold?" they asked him—"I am sorry to say I have none," was the reply; and the lecture room of Mr. Appleton was deserted, his eloquence being no longer an attraction; men could not depend upon what he had seen, and could only talk about, but not produce and exhibit.

But with Mr. Parrott and Lieut. Beall, the case is very different. The first has some \$60,000 of the real rosy gold, obtained in California, about which there can be no romance—no richer eloquence! and the latter carries about in his hand, and exhibits to every person, a lump of the real stuff, weighing eight pounds, and worth about two thousand dollars! Now, as seeing is believing, and feeling the naked truth, such strong arguments are perfectly convincing—and the future for California, which had measurably subsided, begins to prevail once more very extensively, and the talk is of travelling. If men can get rich by one year's labor in California, what's the use of staying here, where it will take him twenty?

SAVINGS BANKS.

The New York Herald, after mentioning the very great benefits derived from these institutions on the working classes, by safely keeping their surplus earnings, and allowing their interest on their deposits, states a curious fact: "The interest allowed by those institutions is five per cent. the difference between that and the legal rate of seven per cent. being reserved for expenses, clerk hire, rent, &c. As the institutions, however, grew in favor with the people, it was found that the difference of two per cent. existing between the rate given to depositors, and that at which the banks loaned their deposits, which is the legal interest of seven per cent., was more than sufficient to pay all expenses of conducting the business. The consequence is, that a large surplus fund has accrued in the vaults of almost every institution of this kind in the city, to which there is no legal ownership. These large sums in fact belong to no person; not to the depositors, for they receive the rate of interest tacitly agreed upon when they made their deposits; nor to the directors, for their services are gratuitous. One institution of this kind in New York has a surplus of over half a million of dollars, which is regularly invested, and is accumulating from year to year, by the interest accruing upon it at seven per cent."

DIPLOMATIC APPOINTMENTS.

It is reported that the following appointments have been made or are in contemplation: Abbott Lawrence, of Mass., Minister to London. Wm. C. Rives, of Va., Minister to Paris. Baillie Payton, of La., Minister to Chili. Wm. A. Graham, of N. C., Minister to Spain. G. P. Marsh, of Vt., Minister to Constantinople. Clay, of Kentucky, Charge to Portugal. Edward Kent, of Maine, Charge to Bogota. Judge Child, of St. Louis, Charge to Naples. Thos. L. Catenden, of Ky., Consul to Liverpool. Lorenzo Dwyer, of N. Y., Consul to Havre. Some of these appointments have certainly been made; others may not have been determined on.

CHOLERA AND SMALL POX.

At a meeting of the Commissioners of Raleigh on Saturday evening last, the following Ordinance was passed: "Be it ordained by the Commissioners of the City of Raleigh, in view of the prevalence of the Cholera in various parts of the country, and the importance consequently of having the City cleaned and purified, that the City Commissioners be required forthwith to resort to the use of lime on their premises, or to such other means as they may judge proper, for the purpose of destroying all offensive matter of whatsoever character; and that the town Constable be directed to inspect said premises, and see that this Ordinance is properly carried out. It was further ordered by the Board, that as the Small Pox is known to be in the town of Greenborough, and may by possibility be communicated here, it be recommended to the citizens of Raleigh to have themselves and their families vaccinated without delay."

SOMETHING NEW.

The last Lincolnian Republican has three marriage notices, which hang out all the efforts of the press in that line. The first happy pair sent a plentiful supply of the rich bridal cake, and thereupon, says the editor, "A portion of it melting on our own palate, while we distributed the rest among our youthful corps of delighted typos, our office resounded with good wishes for a long life of health, prosperity, and felicity to the happy pair. The junior leading, all united with him in singing: Oh! happy pair, you're ever blessing here! For you may life's calm stream untroubled run, For you'll see roses bloom without a thorn, And bright as morning shine its evening sun." The singing here, we suppose, was accompanied by a dance of Deids; all which was highly complimentary. The editor, perhaps, did the honors. The second is also accompanied by a "delicious quartain of poetry. The third we give verbatim at liberam, as follows: On the 24th ult., by John R. Logan, Esq., Mr. Alston Putnam, to Miss Conelia Irby. "The world was sad, the garden was a wild, And Alston said 'O! fair Conelia smile!'"

UPPER CRUST GENTILITY.

We have heard of a family near a thousand miles from this City, so execrably genteel, that they refused permission to one of their negro men to marry a female slave, the property of a mechanic, on account of the society! This reminds us of an old adage, (as black herself as the ace of spades), whose misdeeds daughter being about to be married, objected to one of the bride's maids selected, because her color was a shade too dark!

SPEECH OF SENATOR BENTON.

Senator Benton has recently made a speech to his constituents at Jefferson City, Mo., which has created considerable excitement among the "Democracy." A telegraphic dispatch from St. Louis says:—"That part of it already published fills thirteen columns of the Jefferson City Enquirer of Saturday last. Its principal topic is the resolutions submitted by Mr. Calhoun to the Southern Convention, and the vote of instructions passed by the Legislature of Missouri. Col. Benton says he sees but little difference between them, except that the former would dissolve the Union immediately, the latter ultimately. He asserts the right of Congress to legislate for the territories, and refers to the course of Mr. Calhoun in 1820, on the admission of Missouri. He acknowledges the right of Congress to legislate on slavery in the territories, and to exclude or abolish it if necessary. The course of Mr. Calhoun, he says, must prevent all compromise. Those who deny the right of Congress to legislate on the subject cannot vote for a compromise. The North will not deny the right of slave-owners to take slave property to California. The law which makes such property legal, expires when the property is removed to territory for which Congress has not legislated. Territorial governments are the creatures of Congress. In Oregon he says slavery was prevented by the Benton proviso. There is nothing practical or real in the whole slavery question to quarrel about. The territory would not have it, unless it is forced on them by Congress, and the denial by the South of the right would preclude the possibility of that. Col. Benton does not say how he would vote on the Wilmot proviso."

OFFICES FOR VIRGINIA.

It having been reported several times that one of the editors of the Richmond Republican would receive an office at Washington City, that paper [of May 30] disclaims the wish or design of accepting office by the editor alluded to. Yet the same paper seems to look upon the appointment of Mr. Wm. C. Rives to the French Mission, as all right and proper, because "the highest talents and qualifications should be selected, without reference to residence." The Virginia press is usually pretty cool upon this subject, and seems to think it quite natural that Virginians should be entitled to nearly all the offices of the country—hereditarily, we suppose, because it has always been so; and it has some well high to be regarded among them that an F. F. V. has two claims to any other American's one. We imagine that the people of North Carolina will look upon this appointment (should it be made) with great disgust. Rives (if we mistake not) was one of those Virginia Senators who voted for the Expunging Resolution—a black act of political usurpation—and he is one who has been on so many sides of the political blanket, as very palpably to expose to question his consistency and honesty. If his appointment were politic in other respects, as a Virginian, he himself is very objectionable.

We have never been able to see why Virginia should receive so many offices—what peculiar claims she has. She never votes for us—cannot now be expected to support the Administration—but so far as her action as a State is concerned, will do all she can to put it down. We confess we should like to see a little modesty tempering the rapacity of her office-seekers—some little show, among her people, of being satisfied with less than everything! The "sublime self-conceit and assurance of these" Virginians would be astonishing, were they not so well known. If the whole continent were under their authority, and they embraced among their citizens thousands who combined, each in his own person "the wisdom of Solomon, the valour of Alexander, the military genius of Napoleon, the eloquence of Demosthenes, the wealth of Croesus, the physical strength of Hercules, and the unspotted virtue of Adam before his fall," they could not place a higher estimate upon themselves—such pyramids of human greatness are they, compared with the mole-hills of common humanity!

If they do not get all the offices, therefore, it will not be because they do not ask and expect them—Washington City being all the time full of them, greedy and rapacious above measure. The health of the Bishop at the last advices was better; he was attacked with neuralgia. The Small Pox. Since our last the small pox has appeared in one more family in the country, north of town, in which it is hoped that the care taken in vaccinating will mitigate its violence, and modify its attacks on other members of the family. The other cases in the country, north, are all reported as mild and rapidly recovering. In the country south, the affliction has not yet spread beyond a single family, but we regret to say has proved fatal in two cases. Asmath McAdoo died on Sunday night, and her brother, Dr. Albert V. McAdoo, died on Tuesday morning last. In both these cases the disease is said to have exhibited its most malignant characteristics. Five of the black family have since been attacked, but none of them are yet dangerously ill. In town the disease is still confined within the two families noticed in our last. At Mr. C. N. McAdoo's all are recovering. At Mr. Underwood's, the case that first occurred has taken a favorable turn, but other members of the family probably cannot escape the affliction, modified, it is to be hoped, by vaccination. The most rigorous measures to prevent the spread of the contagion continue to be enforced, and we trust will result effectually.—Greenwood Pat.

LOUISIANA.

WHIG NOMINATIONS FOR CONGRESS. The Whig nominations for Congress in Louisiana are all made, and are as follows: First District—O. P. Jackson. Second do Charles M. Conrad. Third do Richard Stewart. Fourth do Octavius N. Ogden. In the last Congress the second district was represented by a Whig, (Mr. Thibodeaux)—all the others by Democrats. In the Presidential election, however, every district gave a majority for Taylor. The New Orleans Bulletin, says: In the late Presidential canvass, every Congressional District in the State was carried by a handsome majority for Gen. Taylor, and why should we not be able to do the same in November next? We really see no reason why, by proper exertion, Louisiana cannot have an entire Taylor delegation in Congress. It would be a most appropriate and gratifying compliment to the glorious old hero, to whom the State gave such an efficient and cordial support from the first moment that he was named for the high office which he now so ably administers. Let us, then, start in the present campaign with this determination, and let our friends in each of the districts commence at once, with a good will, and with an unwavering resolution to effect that result, and we feel but little doubt that it can be accomplished.

THE OVERFLOW IN NEW ORLEANS.

A despatch received in Baltimore from New Orleans to the 29th ult., brings intelligence that, in spite of all efforts to stop the cessante, the water was still rising, and that labor was perfectly lost in attempting to subside it. "Already one-half the city," says the despatch, "is inundated, and the inhabitants are flying from their homes. All business was being wound up, and all who could do so were leaving for the North, to escape a season that was feared would be the most deadly in the history of the city. The cholera is also spreading, especially in those parts of the city that are inundated."

FOURTH OF JULY.

A meeting of the Citizens of Raleigh was held at the Town Hall, on Saturday afternoon last, for the purpose of making arrangements to celebrate the approaching Anniversary of American Independence—the 4th of July. The following is the Committee, on the part of the "Guards," viz: Lieuts. Scarborough, Gales and Col. W. H. H. Tucker.

NAILED TO THE COUNTER.

General Taylor has been greatly belied by the opposition press, who represent him as merely making one of his cabinet, and putting himself on a level with them, by voting with them on every important question. You may be assured that this is a Locooco insinuation; the whole history of Gen. Taylor's life, his character, and his well known acts in times of difficulty forbid the belief of such an aspersion. He is fully conscious of his position, he knows that he and not his cabinet were elected by the people to execute their will, and he acts as independently here as he did on the Rio Grande. It is really astonishing that his well known characteristics should be so soon forgotten by those who were the first to behold in them the materials fit to form the head of the government. Gen. Taylor is more a president than ever Gen. Jackson was, for he is never the slave of his prejudices or his passions, and hesitates as little to take the responsibility when he deems it necessary. We know what he was as commander in the field and you may be sure that he is not very different in the cabinet.—N. Y. Mirror.

Wednesday the 23d ult. was the day appointed for the meeting in St. Luke's church, Salisbury, of the 33d annual convention of the Protestant Episcopal Church in the State of North Carolina; but we learn that the Right Reverend Bishop of the Diocese, being detained on the way by indisposition, did not reach there in time to organize the convention on that day. On Thursday, the 24th, the Bishop appeared, took his seat, and opened the convention with prayer; after which the Rev. Joseph B. Chesire was elected Secretary. The Bishop being again attacked by severe illness was unable to attend the meetings of the convention, whereupon the Rev. Dr. R. S. Mason was unanimously chosen President, pro tem. A large number of delegates, clerical and lay, and other persons from various parts of the State, were in attendance on the Convention, and we learn that the parochial and other reports made, gave evidence of the prosperity of the church, and that although some excitement prevailed at the opening of the convention, in regard to a minor of unusual forms and practices in parts of the diocese, yet the difficulties were fully adjusted, and the convention adjourned on Monday in perfect harmony and good feelings, to meet in Christ Church, Elizabeth City, on the 3d Wednesday in May, 1850. The health of the Bishop at the last advices was better; he was attacked with neuralgia.

FROM THE BALTIMORE AMERICAN.

THE UNITED DEMOCRACY IN CONNECTICUT, NEW YORK, OHIO AND WISCONSIN, have established a platform, of which the general features are the following: 1 No more slave territory or slave States. 2 The abolition of slavery in the District of Columbia. 3 The extension of the Wilmot proviso over the Territories of California and New Mexico. 4 Liberal appropriations by Congress for the improvement of rivers and harbors. 5 Equal suffrage for men of all colors. 6 The repeal of all Tariffs. 7 Direct tax on land for the support of the Government. 8 The Sub Treasury. This basis is the result of a coalition between the Hunker and the Barnburning wings, the latter having prevailed in that struggle for ascendancy between the two.

THE LOCOFOCO CANDIDATE.

Mr. Lane, the Locooco candidate for Congress in this district, did not make his appearance here last week, nor has he gone to Hyde court this week, though this is the last court there before the election. By the way, we have heard it said that as his chief argument in the canvass two years ago was "Billy Lane has never been beaten," he is now in great tribulation to know what substitute he shall make therefor, that will be satisfactory to his "democratic friends." Again it is surmised that he is still unable to "tell his head from his heels." Whether one or both of these causes have kept him from mingling with the people, we are unable to say. Again, here's a health to thee, "Billy Lane!" And in quaffing it allow us to give thee a piece of advice:—Nothing can serve a genuine Locooco like a good stout hobby. Start something, no matter what—any thing will unite "the party," down this way. But in mounting be careful not to get on heels upwards." N. S. Wig.

The Southern Baptist Convention, which adjourned its session from Nashville, Tenn., in consequence of the prevalence of cholera, met in Charleston, S. C., on the 23d ult. The Rev. Wm. B. Johnson, D. D., of South Carolina, presided. The next meeting of the Convention is to be held in Nashville, Tenn., on the 2d Friday in May 1851. The delegation from North Carolina consisted of Rev. Messrs. J. J. Finch, N. A. Purdy, J. J. Brantley, J. M. Daniel, C. R. Ellis, J. Peterson.

RAIL ROAD MEETING IN FRANKLIN.

At a meeting of a portion of the citizens of the County of Franklin and Granville, assembled at the Hotel of Col. Fowlkes, in Franklin, to take under consideration the Rail Road project of the last General Assembly, Col. E. T. Fowlkes was called to the Chair, and Dr. W. W. Green was appointed Secretary. The object of the meeting having been explained in a brief but pertinent address by the Chairman, on motion of Clem. Wilkins, Esq., it was Resolved, That the Chairman appoint a Committee of five to report Resolutions for the consideration of the meeting.

Whereupon, John D. Hawkins, sen., Allen C. Perry, Clem. Wilkins, Isaac H. Davis, and Dr. S. A. Jeffreys were appointed, who, after retiring a short time, made the following Report: Resolved, That this meeting highly approve the action of the last Legislature upon the subject of Internal Improvements, and fully believe in their vast utility and practicability: That upon the success of the Central Rail Road depends the welfare of the Raleigh and Gaston Rail Road: That the completion of the former will ensure the success of the latter; and when both shall have been completed, a new era of prosperity will be unfolded for North Carolina, developing her resources now lying dormant, and will place her upon the high ground of successful progress, which as a great State, she is so eminently entitled to occupy.

Resolved, That the patriots, talents and wealth of the whole State should be enlisted and brought to bear upon these great works, so as to ensure their complete success. Resolved, That we highly approve of the Rail Road Convention proposed to be held at Salisbury on the 14th inst., and we think, upon the action of that Convention will depend greatly the success of the whole work;—therefore, it should be looked to with interest, and should be numerously attended by all the friends of Internal Improvement throughout the State.

Resolved, That the following persons be appointed Delegates to said Convention, with the earnest request that they attend and represent the interests of this part of the State, which we deem vitally interested: to wit—John D. Hawkins, Sr., Dr. John O'Brien, Isaac Davis, R. F. Yarborough, Dr. Willie Perry, D. W. Spivey, Dr. Wood T. Johnson, Dr. Peter A. Foster, Dr. Ed. Cradup, A. C. Perry, Clem. Wilkins, Dr. W. W. Green, Wm. F. Hilliard, R. C. Maynard, James Shaw, Dr. Willie Person, P. P. Perry, Jos. Kearny, R. W. Godwin, Dr. S. A. Jeffreys, P. C. Person, and Wipley Perry, jun.

On motion A. C. Perry, the Chairman was added to the list of Delegates. On motion of Mr. Wilkins, it was Resolved, That newspapers friendly to the cause of Internal Improvement be requested to publish the proceedings of this meeting.

All the above Resolutions were unanimously adopted. ED. T. FOWLKES, Ch.
