VALUABLE LAND FOR SALE, in Moore and Moutgomery Counties. By virtue of a power of Attorney to me executed by Mrs. Sally Bass, of the County of Wake, I offer for sale the which he offers on the most reasonable terms for tract of hard in Moore County, known as the Bullock Spring tract, containing about 276 Acres— And also, one other tract, lying in Moore and Mont-gomery counties, on both sides of Williams Creek,

Containing about 400 Acres, more or less.

These lands were partially worked a few years since for Gold, by a gentleman of Raleigh, and found to contain the richest specimens of Copper ore, as well as some Gold and Iron ore.

Capitalists would do well to look into this matter, as a great bargain may be had, and as the plank road will run near it, it may be worked to advantage. If not sold privately, I shall be in Carthage, Monday and Tuesday of Moore County Court, January 28 and 29 and shall then sell at public sale. For further particulars, and as to ti-tle, I refer to C. THE GLOBE:

A Congressional, Agricultural and Literary Newspaper.

THE approach of Congress calls cut the Annual Prospectus of the Globe Establishment.

The time is full of interest. The coming in of a new Administration—the consequent broaching of a new policy touching the internal concerns of the country—the new and most important issues arising from the blo vast accession to the public domain, and the great national ebjects associated with it—the impending difficulty in our relations with France, and the possible complication of our affairs with the troubles of Europe,—compire to crante great expectation as to the proceedings of the next Congress.—The approaching Session will probably continue till late in the sammer of Irial. The debates, from the agitation of so many questions of vital interest to the Republic, will draw forth all the talent of the National Legislature. To laring its deliberations home to

to assist the working of the admirable machinery of our popular institutions, is the ambition of the conductor of the Globe. Extraordinary preparations have heretofore been made to meet the increasing demands of our rapidly-improving and growing coun-

try for Congressional intelligence.

The Globe Press has already enlisted the ablest Reporters yet known to Congress; its materials and muchinery are of the best sort; and the exclusive devotion of the individual who for so many years made it his study to embody and publish the labora of Congress, gives reason to hope that an advance will be made to the accomplishment of this undertaking commensurate with its increased importance. But the accumulation of expense, consequent on the additional number of Reporters required—the extra
charges incurred in printing at night the debates of
the preceding day—the vast addition made to the
mass published by the protracted sessions and the
fuller reports given,—will render our enterprise a
failure, unless Congress shall so far patronize it as to become a purchaser of such portion of the daily sheets issued, as shall contribute to make the reports that fill them. The undersigned has ventured on the preparation he has rands for the next Session, in the expectation that Congress will subscribe for as many daily sheets for each Member, at the subscription price, as will, in part, defray the expense of report-ing, and give them circulation as Congressional de-uments in their several districts. This will enable
