BLAKES
Patent Fire and Water Proof Paint,
or Artificial Slate.
THE above valuable Paint has been examined
by Dr. J. R. Chilton of New York. Its chemical
analysis is as follows: Silica, Alumina, and Oxide
of Iron, with loss of Magnesia, Lime and Carbon,
which forms Artificial Slate. It therefore after
being mixed with Oil, and spread on harmonizes
and combines in its natural state; and the power-
ful cohesive attraction of the Oxide of Iron binds
and attracts the different component parts, so that
the longer on, the more powerful the attraction.
Consequently the harder the Slate and the closer
it adheres to the substance applied.

3117 Acres Pine Land
For Sale or Lease.
THE subscriber has 3117 acres of (sound pine) land,
equal to any in the State, lying on the
Lake near the mouth of Little's Creek in Flat
District, with good navigation for Flat Boats,
and within five miles of a steamboat landing,
the Pee Dee River. Boats pass regularly every
week during the winter, spring, and fall, from
Charleston, where provisions and other supplies
can be obtained. For the Turpentine Business, it
is a healthy location, and near a wealthy farming
community. The property is well improved,
and some 400 or 500 acres of the above
land will produce Cotton finely, if cleared. There
is timber sufficient to cut from 15 to 20-cro of
boxes. I will sell or lease for 5 years, on liberal
terms, the above land.
Any person that wishes, can get the terms by
applying by letter, or personally, at Hooker's,
N. C. from about the 20th of December next
until the 1st of January, 1852.

VALUABLE PROPERTY
For Sale.
THE subscriber offers for sale the Plantation
with the improvements, whereon he now lives, con-
taining about 200 acres; about half of which is
cleared. The improvements consist of a good 2-
Story Building, containing six large rooms, 2
fire places in every room, and all necessary
buildings. This tract lies on the East side of Gold-
boro', adjoining the Town.
—ALSO—
One other tract, known as the Borden and Hooks
Land, situated on the South side of Goldsboro', ad-
joining the Town, containing about 400 acres, a good
portion of which is equal in point of productiveness,
to any lands in Wayne county, or I might say
most any in the State, and would, if rented and
well attended, always pay more than the interest
on the purchase money. I have also several Tracts
Lies in Goldsboro', which I would sell. I would
sell any, or all of said property, and take in
payment like any Young Negroes, Bonds, Notes, or would
sell on a credit, for any reasonable term.
The flourishing state of Goldsboro' is well known.
Among other advantages, it affords rare facilities
to parents to educate their children. There is at
present, in the vicinity, as good a school—Mr. Jobn-
son's—as the State affords, and a building for a
collegiate school will be commenced in a few
weeks. These considerations, and the intrinsic
value of the property offered for sale, ought
to make a residence and farm near Goldsboro' a
desirable object, especially to parents.
For other particulars, apply to

already engaged, can be accommodated in the

vided on very reasonable terms in families of the
highest respectability in the village.
For terms, &c., application may be made to

lection will be taken up in behalf of the mis-
sion.

MISCELLANEOUS.
Love.—What so unearthly, so beau-
tiful, as the first birth of woman's love?
The air of heaven is not purer in its
wanderings—its sunshine not more ho-
ly in its warmth. Oh! why should it
deteriorate in its nature—why should
the step which prints, sully also the
snow?

NEW INVENTION.—An umbrella with
a gutter round the edge, which causes
the rain to run off at one point.

The Mayor of Killiney has decided
on the steps of
his master's house, is "running at
large."

The dying are fitting clouds, the
living stationary ones, but at evening
both disappear.

Dean Swift says he never knew a
man to thrive who lay abed late in the
morning; and Dr. Franklin says: "a
man may rise late and trot all day, and
never overtake his business."

Mrs. Jarvis says there is no instance
of a wise bachelor—they are merely ra-
tional. So long as a man is single, she
observes, so long is he a nonentity—a
mere cypher of humanity—but with
another figure added—the figure of a
woman, for instance—this cypher be-
comes a respectable member of the hu-
man multiplication table, and proves
himself a lover of his country. Amen.

A SENSIBLE REPLY.—Yesterday e-
vening, during the examination of a
witness as to the locality of the stairs in
a house, the counsel asked him "which
way did the stairs run?"—The witness,
who by the by is a noted wag, replied
"that one way they ran up stairs, but
the other way they ran down stairs."
The learned counsel winked both eyes,
and then took a look at the ceiling.

THE DOCTOR'S WELCOME.—Down
East there resides a certain M. D.—
One very cold night he was aroused
from his slumber by a very loud knock-
ing at his door. After some hesitation
he went to the window, and asked,
"Who's there?" "Friend," was the an-
swer, "What do you want?" "Want
to stay here all night?" "Stay there,
then!" was the benevolent reply.

IMPORTANT.—It is important to have
an umbrella in a shower, dinner when
you are hungry, and a long-bat in a
squall; but the most important of all
to a nice young gentleman, is a nice
young lady to say "Yes" at the right
time.

A LOAFER'S SOLILOQUY.
Oh, dear! Oh, dear! What a world
this is. This world, as Shakespeare
very beautifully remarks, "is all a cattle
show, for man's delusion given—and
and woman's too." 'That's a fact—
Shakespeare's right! This here is a very
—a very checkered life.

"This world is given to fault-finding,
tremenjus. Now, here's my wife—kicked
up a row, just because I went to bed
with my overcoat, boots, and hat, when
she knew that I wanted to get up airy
in the mornin', and start off immediately
on 'portant business. She's very p'cular
to inquire what business it is that
calls me out so airy—but I won't tell
'er. She's no right to interfere in my
business. I don't interfere in hers. I
don't never ask her where she buys gro-
ceries and provision, and gets trusted
for 'em—if she only gets 'em without
throwin' away money for 'em.

And then she finds fault w' me for
spendin' so much money for liker. But
what am I goin' to dew? Licker's cash;
it can't be burt without the dimes. She
says it hurts me, and makes my hands
peel, says that 'twould take a great deal
of new milk to 'make a man's hands
peel bad. What o' that! Haint the
men that sell icker got to live? How
can they pay rent if nobody patronizes
'em? 'That's a question that goes to
my heart like an arrer. When I think
of the high rents that tavern keepers
have to pay, I alays go and take s'uth-
ing to help 'em along. I've thought a
good deal about this lately—and—now
I think of it they've riz on what's his
name's rent, across the way, and I'll
just go over and give him a small lift.
Oh, dear! this is a checkered life.

Tobacco has spoiled and utterly
ruined thousands of boys, inducing a
dangerous precocity, developing the
passions, softening and weakening the
bones, and greatly injuring the spinal
marrow, the brain, and the whole nervous
fluid. A boy who early and freely
smokes or otherwise largely uses tobacco,
never is known to make a man of
much energy of character, and general-
ly lacks physical and muscular as well
as mental energy.
