There was another colored man from near Littleton committed to jail here last Tuesday charged with rape upon a colored woman. Officer King, of Littleton, brought the prisoner up.

The boys in camp had a match game of ball last week—Warrenton vs. Raleigh. The score was 12 to 0 in favor of Warrenton. Raleigh was shut completely out. They couldn't touch Shell.

Mrs. Caserly tells us that she knows advertising does pay. She assures us that her adv. now running in this paper has brought her a great trade, so much so that the rush of customers on account of the adv. has kept her and all her force as busy as they could be all the time. Notwithstanding this fact, you see lots of business people with no customers—complaining of hard times and yet do no advertising to bring about better times.

Mrs. H. P. Reams, nee Miss Mattie Curl, died at her husband's residence last Sunday and was buried last Monday evening in the Curl burying grounds at the Rhoden Parker place, Rev. T. J. Taylor conducting the burial services. Mrs. Reams has been in bad health for sometime and a great sufferer. No doubt death was a relief to her. She leaves a husband and infant child to whom we extend heartfelt sympathy. A more extended notice will be given next week.

If you want something specially interesting about Crimson Clover, send for the leaflet just issued by T. W. Wood & Sons, Richmond, Va. It gives with other interesting information, letters from successful growers of Crimson Clover, giving best methods of preparation and seeding—best uses and value—about sowing in corn or cotton at the last working—great value as a soil improver—also about its use for pasture, green feed or hay. The leaflets and catalogues issued by T. W. Wood & Sons are doing splendid work in the practical information giving as to the best crops to grow and the best ways to grow them.

We are pleased to note that Dr. W. W. Taylor was one of the successful applicants who applied for license at the recent meeting of the N. C. Dental Association. The doctor recently graduated with honors from the University of Maryland, and declined a position as demonstrator at that institution, with the view of practicing in Warrenton. His success is no surprise to those who know him. See his business card in this issue.

### Death of Mrs. Tucker.

Mrs. Georgie Miles Tucker, eldest daughter of Mr. and Mrs. J. H. Miles, and wife of Mr. J. Herbert Tucker, died in Petersburg, Va., on the first day of July. She was attacked with typhoid fever early in June, and although everything was done for her that could be done by loving friends and skilled physicians and nurses the disease could not be controlled, but continued its cruel work until her powers of resistance were exhausted and she yielded her body to death and went to join those who have entered into life.

When she was about twelve years of age she made a profession of religion and united with the Warrenton Baptist church. After her marriage two and a half years ago she moved her membership to Petersburg.

She was a sincere christian and a warm hearted friend. Her many friends deplore her early death and grieve that they shall see her face no more.

May God bless and comfort all the members of her family, and may they find Him a help in this great trouble.

Thou art not dead,  
And we will not deplore thee;  
But alive, with thy God,  
With all heaven before thee.  
Where friends are ne'er parted  
We hope that we'll meet thee;  
In the house of our Father  
We surely will greet thee  
And together we'll walk  
In the light of His love.  
T. J. TAYLOR.

During last May an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days time the child had fully recovered. The child is now vigorous and healthy. I have recommended this remedy frequently and have never known it to fail.—Mrs. Curtis Baker, Bookwalter, Ohio. Sold by F. P. Hunter, druggist.
