THE RECORD joins their many friends in expressing deepest sympathy to the bereaved ones.

The farmer that is wise will not let the fancy prices paid for cotton the past season, cause him to over do the thing the coming season. If your tobacco barns are built and fitted and you have no expense in saving and curing your crop of tobacco, it will be decidedly the wise plan to cultivate both tobacco and cotton. The farmer who cultivates both will surely have good prices with one or the other crop. The prices of cotton are as uncertain as the weather.—Louisburg Times. These are our sentiments exactly and we publish the above with the hopes that they may do good.

I am Waiting.

A correspondent calls on me to call a meeting of men to organize a Society For the Prevention of Cruelty to Animals.

This work is generally undertaken by ladies, and I hope that our noble women will take hold of the matter. I am waiting for a general request before calling a meeting. T. J. TAYLOR.
