C. J. FLEMING, Adm.  
THOMAS M. PITMAN, Att'y.

### The Remedy That Does!

Dr. King's New Discovery is the remedy that does the healing others promise but fail to perform," says Mrs. E. R. Pierson, of Auburn Centre, Pa. "It is curing me of throat and lung trouble of long standing, that other treatments relieved only temporarily. New Discovery is doing me so much good that I feel confident it continued use for a reasonable length of time will restore me to perfect health." This renowned cough and cold remedy and throat and lung healer is sold at C. A. Thomas drug store. 50c. and \$1.00. Trial bottle free.

People insist on morality unless it's for the Mselves.

This is what Hon. Jake Moore, State Warden of Georgia, says of Kodol For Dyspepsia: "E. C. DeWitt & Co., Chicago, Ill.—Dear Sirs—I have suffered more than twenty years from indigestion. About eighteen months ago I had grown so much worse that I could not digest a crust of corn bread and could not retain anything on my stomach. I lost 25 lbs; in fact I made up my mind that I could not live but a short time, when a friend of mine recommended Kodol. I consented to try it to please him and was better the next day. I now weigh more than I ever did in my life and am in better health than for many years. Kodol did it. I keep a bottle constantly, and write this hoping that humanity may be benefited. Yours very truly, Jake G. Moore, Atlanta, Aug. 10, 1904." Sold by Hunter Drug Co.

Evening gowns cost a lot, but what some of them show is worth it.

**Beat the World Afloats.**

"It gives me unbounded pleasure to recommend Bucklen's Arnica Salve," says J. W. Jenkins; of Chapel Hill, N. C. "I am convinced it's the best salve the world affords. It cured a felon on my thumb, and it never fails to heal every sore, burn or wound to which it is applied. 25c. at C. A. Thomas drug store.

A girl is awful proud of being able to blush without knowing why.

**It Can't Be Beat.**

The best of all teachers is experience. C. M. Harden, of Silver City, North Carolina, says: "I find Electric Bitters does all that's claimed for it. For Stomach, Liver and Kidney troubles it can't be beat. I have tried it and find it a most excellent medicine." Mr. Harden is right; it's the best of all medicines also for weakness, lumb back, and all run down conditions. Bent too for chills and malaria. Sold under guarantee at C. A. Thomas drug store. 50c.

**THE NORTH CAROLINA COLLEGE OF AGRICULTURE AND MECHANIC ARTS.**

Mention this Paper!

**Wood's High-Grade Seeds.**

**Crimson Clover**  
The King of Soil Improvers, also makes splendid fall, winter and spring grazing, the earliest green feed, or a good hay crop.

**CRIMSON CLOVER** will increase the productivity of the land more than twenty times as much as the same amount spent in commercial fertilizers. Can be sown by itself or at the last work of corn, cotton or other cultivated crops.

**Wood's Trade Mark Crimson Clover Seed** is the best quality obtainable, of tested germination, and free from impurities and objectionable weed seeds.

Write for "Wood's Crop Special" giving prices and information about Crimson Clover and other Seasonable Seeds.  
**T. W. WOOD & SONS,**  
Seedsmen, : Richmond, Va.

### CLIMBING UP THE HILL.

Never look behind boys: Up and on the way! Time enough for that, boys, On some future day.

Though the way be long, boys, Fight it with a will; Never stop to look behind When climbing up the hill.

First be sure you're right, boys: Then, with courage strong, Strap your pack upon your back And tug, tug along; Better let the lag lout Fill the lower bill, And strike the farther stake pole Higher up the hill.

Trudge is a slow horse, boys, Made to pull a load, But in the end will give the dust To racers in the road.

When you are near the top, boys, Of the rugged way, Do not stop to blow your horn, But climb, climb away.

Shoot above the crowd, boys; Brace yourselves, and go! Let the plodding land pad Hoe the easy row.

Success is at the top, boys, (Waiting there until Brains and pluck and self-respect Have mounted up the hill.

—James Whitecomb Riley.

### Average Length of Life.

The man who lives till he is more than a century old and the child who dies in infancy are alike included in the law of averages. They balance each other's chances as it were.

Of 100,000 people living at the age of 10, only 95,014 will live to the age of 21, only 82,284 will be living at 40, only 49 will be living at 90, and only 9 at 97. At 30 the average man may take it that he has under 35 years to live; at 40, under 28 years; at 50, under 21 years; at 60, under 14 years.

In each and all of these cases how he lives will determine whether he will have a longer life or a shorter life, but the average will infallibly work out within a space of ninety years.—Cassell's Saturday Journal.

### A Strange Reptile Killed Near Gamewell.

'Squire Geo. Kaylor showed us a curiosity Monday in the shape of a pair of snake feet. At least the reptile belonged to the snake family, but seemed to be about half lizard. It was about two feet long and had a long neck about the size of a man's forefinger, than a body the size of a man's wrist about six or eight inches long, then a tail like that of a snake. The two feet were near the forepart of the body at the end of the neck and look very much like the feet of a lizard or frog. The reptile was killed by two little colored girls near Gamewell and they so mutilated the body that it could not be preserved or skinned. The question is, what was the thing, anyway.—Lenoir News.

### Sure Cure for Chiggers.

The June bulletin of the Missouri State board of health has a very timely article on the cure of chiggers. The article shows that chrysalis and blood poison have followed severe attacks of the chigger. The chigger is not an insect, but is known as a mite, and in many sections they are called harvest mites, as that is the time of the year they appear. The best cure for killing the mites and to relieve the irritation is hyposulphite of soda. This is dissolved in water until a saturated solution is obtained and the solution is applied to the spot where the chigger entered the skin. Usually one application is sufficient, but sometimes two or more are necessary. The solution is not harmful, nor disagreeable, except that there is a smarting when the skin is sore from scratching. If the solution is applied to the skin and allowed to dry without wiping off, it will absolutely prevent chiggers entering the skin for a day or more.

### Just Exactly Right.

"I have used Dr. King's New Life Pills for several years, and find them just exactly right," says Mrs. A. A. Felton, of Harrisville, N. Y. New Life Pills relieve without the least discomfort. Best remedy for constipation, biliousness and malaria. 25c. at C. A. Thomas drug store.

### Why Not the Farm?

Not in many decades, if ever before, have the interest and dignity in agricultural pursuits been so carefully considered by the people of North Carolina and the South. Really, the work of a sure-enough farmer is coming to be regarded as a profession, and there is less prejudice against the farmer's life as a calling or vocation than ever before. The truth is, there is no work or profession more noble in its influence and development, and many young men, even, who a few decades ago would have spurned it, now look upon it with favor. Some young men get an exaggerated view of things in their early life which is hard to change. For instance, many young fellows who are about to start out in life, just as they have completed their school course, it may be, look at the young farmer and then at the young merchant and draws comparisons. Several things enter into the comparison. The young merchant perhaps lives in a more attractive home than the farmer; he perhaps wears a little finer clothes than the farmer; it may be he looks a little more "spick and span"; and his hands are tender, well-shaped and fair to look upon, while the farmer's are sun-tanned, a little rough, it may be, and his general appearance not so "band-boxy." Well, it is all right for persons to look well when they can and when it is absolutely necessary; but a little difference in the appearance of a man's dress or a little sun-burn on his hands and face should not discount the great and high calling which he follows. There is nothing under the canopy of heaven that is nobler in its essentials than the life of a farmer, and the man or woman who would discount a man because of the evidence on his person that he lives in God's open air and health-giving sunshine, is of small calibre, and their opinions are not worth the consideration of those against whom they are prejudiced for such cause. Glorious are the fields, glorious are the songs of the birds, glorious is the touch with Nature and glorious is the life of a real farmer.—Exchange.

### Short-Lived Doctors.

Physicians, with all their knowledge of drugs and the laws of hygiene, are as a class short-lived which fact seems surprising to their patients. But, as a medical journal says, the doctor who made his own health his chief concern would have to retire from business in order to see to it.

The general practitioner tells you to eat regularly and sleep seven or eight hours every night. He recommends change of air and scenery now and then. Yet you find him day after day, driven by demands of his profession, swallowing his meals in a hurry, going without sufficient sleep, and hardly ever taking a vacation.

Longevity is not for him. A patient, however, makes a sad mistake who refuses to follow the advice of the family physician simply on the ground that the physician doesn't practice what he preaches.—Boston Globe.

### \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

### BAD WEATHER COMES HIGH.

**Effects of the Weather on Various Callings.**

Of course, every one is interested in the weather, but few think how much effect it has on trade. In this connection the Dresdener Anziger sums up, apparently from English sources, some figures concerning the cost of bad weather to those engaged in the different branches of trade. When it rains, nearly all tradesmen complain of bad business except the cigar dealers; the latter, however, rub their hands with delight. The desire to make a bad day more endurable by a good cigar increases the takings of the cigar dealer 15 per cent. The public house keepers in the city have no cause for complaint every one knows. Whoever has anything to do in the street supplies himself with umbrella and raincoat, and these cost money. In nearly all other shops the proprietors wait unavailingly for customers. Women especially have no great desire to shop in the rain. That means a considerable loss of trade; it has been estimated that the shops in the West End of London lose by a single rainy day \$500,000.

Some kinds of merchandise are especially sensitive to the influence of the weather. Mutton and pork, for instance, are spoiled by very strong electric discharges; so that many a butcher will lose \$50 to \$75 by a thunderstorm.

A real London fog is much more expensive by reason of its impenetrable darkness. For gas alone, London expends a day when there is a fog \$7,500 more than usual. The apothecaries are pleased by such weather, for the reason that it causes a number of diseases, so that their income is doubled. The underground railways also have their income increased by rain and fog. Naturally, it is much more pleasant to be protected from the wind and wet than to sit on the top of an omnibus and get soaked through.

So nature causes considerable expenditure for man. She herself is a spendthrift, as in a storm she wastes giant forces. The storm that destroyed Galveston could have furnished the power given by all the steam engines of the world for years. A single thunderstorm would suffice to drive all the dynamos in existence, and the average value of a flash of lightning has been calculated as about \$1,205.—Scientific American.

Bert Barber, of Elton, Wis., says: "I have only taken four doses of your Kidney and Bladder Pills and they have done for me more than any other medicine has ever done. I am still taking the pills as I want a perfect cure." Mr. Barber refers to DeWitt's Kidney and Bladder Pills. Sold by Hunter Drug Co.

### Hitchcock to Be Chairman of the National Committee.

Frank Hitchcock, of Massachusetts, chairman of the Republican national committee and manager of the national campaign; George R. Sheldon, of New York, treasurer of the national committee, and Arthur I. Vorys, of Ohio, a member of the Ohio Republican headquarters, which are to be Cincinnati. This was the result of the meeting of the executive committee of the Republican national committee here to-day. All of the eight members of the executive committee were present and their report was unanimous.—Hot Springs, Va., Dispatch.

### The death of Joel Chandler Harris better known and so greatly beloved as "Uncle Remus" will bring grief and sorrow to many a household. To none will his loss be felt so keenly as by the children in the Southland. By his Br'er Rabbit and Br'er Fox stories he established himself forever in the tender hearts of the little ones who will miss him sorely.—Cleveland Star.

### Dream Nets Him \$25,000.

Sullivan, Ind., July 15.—Willis Pratt had three dreams, each worth \$8,333.33. For three successive nights he saw visions of a wonderful churn which would make butter quicker and more cheaply than any churn ever dreamed of previously. At least Pratt had never dreamed of the like.

Pratt, who is a farmer living near Sullivan, arose from his bed on the third morning and straightway hied himself to his woodshed and fashioned a model of the dream churn. Now a Chicago churn manufacturing company has offered him \$25,000 for the right to place his patented invention on the market.

### Use DeWitt's Little Early Risers.

Use DeWitt's Little Early Risers, pleasant little pills that are easy to take Sold by Hunter Drug Co.

### "In a Minute."

"Well, well, don't fret; I'll be there in a minute."

But, my friend, a minute means a good deal, notwithstanding your effort to hold it on consequence. Did you ever stop to think what may happen in a minute? No. Well, while you are murdering a minute for yourself and one for me, before you get ready to sit down to business we have in hand, I will amuse you by telling you some things that will happen men a time.

In a minute we shall be whirled around on the outside of the earth by its diurnal of thirteen miles. At the same time we shall have gone along with the earth, in its grand journey around the sun, 1,800 miles. Pretty quick traveling, you say? Why that is slow work compared with the rate of travel of the light which just now reflected on that mirror, made you wink. A minute ago that ray was 11,160,000 miles away.

In a minute, all over the world about eight new-born infants have each set up a wail of protest at the fates for thrusting existence upon them, while as many more human beings, weary with the struggles of life, have opened their lips to utter their last sigh.

In a minute the lowest sound your ear can catch has been made by 990 vibrations, while the highest reached you after making 2,228,000 vibrations.

In a minute an express train goes a mile and a street car thirty two rods, the fastest trotting horse 147913 feet, an average walker has gotten over sixteen rods.

In each minute in the United States, night and day all the year around, twenty-four barrels of beer have to go down 12,096 throats and 4,830 bushels of grain come to the bin—Cleveland Press.
