

### Mr. Stock Owner

do you give your sick animals doped medicines? Did you ever think of that?

Many animals die after treatment with doped medicines which are worse than none at all.

An animal with a weak heart or run-down condition cannot stand being drugged. When the reaction sets in they usually die.

You should take as much care in doctoring your stock as you would your family.

### Noah's Horse Remedies

are medicines—not dope. Be on the safe side by giving your animals these tested remedies.

Noah's Colic Remedy is recommended for that most dangerous disease, Colic, and is harmless in its effect. Simple to administer—given on the tongue. Cheap in price—50c a bottle, and worth 50 to any stock owner.

Noah's Fever Remedy is a medicine for fever, coughs, colds, distemper, influenza, lung troubles, and the treatment of milk fever in cows. Given on the tongue. Two sizes, 50c and \$1.00.

Noah's Liniment is the best all-round family and stable remedy on the market. Contains no alcohol, chloroform, ammonia, naphtha, benzine, or poisonous drugs. 25c, 50c, and \$1.00 a bottle. Gallon cans at \$6.00.

These remedies are sold by all dealers in medicine. Made in Richmond by the Noah Remedy Co.

"I have been using Noah's Liniment and Noah's Colic Remedy on our stock with the best results, and find them to be the best remedies of the kind I have ever used and recommend them to stock owners.—D. J. Griffith, Sup't S. C. Penitentiary, Columbia, S. C."

"My stable boss says the Noah Remedies are the best he ever used, especially the liniment for the cure of sore shoulders, with which we have had so much trouble. He endorses your remedy as being fine and a sure cure.—T. J. Davis, Sup't State Farm, Lassiter, Va."

### Tobacco Culture.

Editor of the Record:—Forty-seven years ago I began the work of growing tobacco and a few years latter I decided, or rather discovered, that there were dates better than others upon which tobacco should be cut in order to cure up well and have a heavy body. All the years since, I have been very attentive to the study of the nature of the weed while growing, and as a result I have found the way to tell the better dates from the sorry ones. To explain I will say that tobacco contains sap just as a tree and tobacco also contains at intervals an oily substance which is its natural possession, but when the sap-water rises in the stalk it pushes the oil out through the pores of the leaf upon the principle that oil and water don't mix, and tobacco if cut in such a state though apparently ripe will not cure well and will sweat and turn black in the barn, this on account of there being only sap in the stalk, which when cured or dried leaves a mere chaff of the stalks and leaves, but tobacco cut when full of oil will cure up nicely and will be oily and waxy tobacco makes these changes from oil to sap as long as it stands on the hill. Thus I believe so many farmers happen to cut at the wrong time. Farmers have experienced cutting tobacco one week and have excellent success and then cut off the same piece of ground a few days later and have altogether different luck.

I will be pleased to correspond with any who will enclose stamps for reply.

DANIEL V. DAVIS,  
R. F. D. 3. Mocksville, N. C.

### Manson Items.

### DO YOU DRIVE TO TOWN?

This farmer telephoned and—stayed at home.

This farmer went to market.

And find the market unfavorable for your produce? The farmer who has a telephone in his home can telephone first. The useless trips thus saved are worth the cost of service.

Under our plan the service costs but a trifle; the farmer owns the instrument and the equipment.

For information write to our nearest Manager for pamphlet, or address:
