Col. Wm. Bingham announcing commencement of the celebrated Bingham School.

Col. Bingham, we learn, has in press a new grammar of the English language, which will soon be ready. We doubt not, from Col. Bingham's high reputation that this work will prove valuable to our school literature.

We regret to learn that the Hon. R. C. Puryear was stricken with paralysis at his residence, in Yadkin County, on last Sunday morning and is not expected to live.

A lady friend styles Demorest's Illustrated Magazine as Queen of the Monthlies, and it is not unworthy of the title. The July number, which has come early to hand, is as gorgeous as the month it represents. It is brimming full of good stories, fine illustrations, household hints, and gay, sensible fashions. Notwithstanding that this publication is issued from an "Emporium of Fashions," the editors do not disdain a glance at folly as she flies, and some of the best hits at prevailing frivolities which we have ever seen were found in the pages of "Demorest." To ladies living far from metropolitan centres, it is especially valuable and useful, and we are not surprised that so many confess it "indispensable." The subscription price is \$3 per year, with a handsome premium. Address W. JENNINGS DEMOREST, 473 Broadway, N. Y.

SALEM FEMALE SEMINARY.—We have received the Catalogue of this ancient and renowned institution. It is in a very flourishing and prosperous condition, notwithstanding the hardness of the times. Nothing that we could say would add anything to its character or reputation.

We learn from the Standard that the Republican State Executive Committee of North Carolina, met in Raleigh last week, and adopted the following resolutions:

Resolved, That this Committee recommend that a Convention of the Republican party of North Carolina assembled in Raleigh on Wednesday, the 4th day of September next; and that the people be requested to elect or appoint, through primary meetings, delegates thereto.

Resolved, That the Chairman appoint a Committee of five, whose duty it shall be to wait upon Gen. Sickles in relation to the appointment of persons to office in this State, and also, with reference generally to the condition of our people and the work of reconstruction.

The Chairman announces the following gentlemen as the Committee to wait on Gen. Sickles: C. R. Thomas, D. M. Carter, C. L. Harris, James H. Harris and G. W. Brodie.

The Committee appointed by the March meeting is now, we suppose, *functus officio*. There is, in fact, now no Republican organization in the State, and will not be until after the September Convention.

Bishop Atkinson has made the following appointments:

STEVENS ON CONFISCATION.—Mr. Thaddeus Stevens has again disregarded the instructions of his physician, and comes out with another letter in favor of confiscating the estates of rich "rebels," to compensate the Pennsylvania people for the losses and damages inflicted by "rebel raids." He also reiterates his intention to procure small homesteads for the freedmen who "conquered their rebel masters at our 'rebel' Thaddeus hopes he will live five years longer, to work out his scheme. We predict that five years hence Thaddeus will, if living, be ready to deny that he ever favored confiscation.—Richmond Whig.

SHERIDAN AND WELLS—THE LATTER VACATES.

New Orleans, July 9.—Yesterday morning at half past 9 o'clock, Brevet Brigadier General John W. Forsythe, of Gen. Sheridan's staff, called at the Executive office, at Mechanics Institute, and told Governor Wells that he bore a written communication to him from the General Commanding, which was found to be as follows:

HEADQUARTERS FIFTH MILITARY DISTRICT, New Orleans, June 7.  
Mr. J. Madison Wells, ex-Gov. of Louisiana:

SIR:—Gov. Flanders has just informed me that he has made an official demand on you for the records of the office which you have heretofore held as Governor of Louisiana, and that you have declined to turn them over to him, disputing the right to remove from office by me, which you have acknowledged and urged on me up to the time of your own removal. I therefore send Brevet Brigadier General John W. Forsythe, of my staff, to notify you that he is sent by me to eject you from the Governor's room forcibly, unless you consider this notification as equivalent to ejection.

(Signed) P. H. SHERIDAN, Maj. Gen. U. S., Com. 5th Mil. Dist.

After reading the communication Gov. Wells stated to Gen. Forsythe: "SIR:—I surrender the office I hold only to the sword," and called up Judge Ryan to bear witness to what he said. Without making any response whatever Gen. Forsythe withdrew.

Ex-Gov. Wells has consulted with eminent counsel as to what course to pursue at law.

About 10 o'clock Gov. Flanders, accompanied by Gen. Forsythe, appeared at the Executive office and entered upon his duties as Governor of Louisiana, without any ceremony whatever. He stated that his efforts should, to the best of his ability, be exerted for the public good.

GOV. FLANDERS—MAYOR WITHERS—GEN. JOHNSTON AND OTHER WASHINGTON NEWS.

Washington, June 9.—Benj. F. Flanders, the new Governor of Louisiana, arrived there twenty years ago from N. H. and commenced his career as a clerk in the charity hospital. He was subsequently Secretary to Mayor Crossman, an ardent Know Nothing, Secretary of the Opelousas Railroad, was violently opposed to co-operation during the incipency of the rebellion, and Federal Treasury Agent for several years past.

Sheridan seems to be unsupported here. His prompt action defeats the plans of the schemers and shocks the conservatives. Some changes in the District Commandery are regarded as certain.

The July meeting of Congress is now considered almost probable.

Ex-Mayor Withers has returned from New York and will communicate with the President on Monday.

Gen. Grant has returned from West Point. Gen. J. Johnston was at the War Department yesterday looking after the interests of his Rail Road. It is his first visit since 1861, when he vacated the Quarter Master General's Office.

The Treasury will redeem and destroy \$20,000,000 of compound interest notes next week.

The State Department has been officially notified of the commutation of the sentences of the Irish American Fenian.

The Postmaster General returned this morning and the President this evening.

The President received the first intimation of Well's removal through the newspapers. He considers these removals unauthorized by the law. Surratt's trial undoubtedly commences to-morrow.

THE INDIAN WAR.

Omaha, June 10.—Gen. Sherman has issued an order saying that the Pacific Railroad shall be well guarded.—The freight and passengers have been forwarded from the terminus under a sufficient guard.

Gen. Sherman is sanguine of cleaning the Platte Valley of Indians in two weeks. The Indians and nine passengers had a fight within nine miles of Moore's fort.—One passenger was killed, and a son of Gen. Davis mortally wounded. The passengers returned to Omaha this morning. Gov. Steel, after a narrow escape, has reached Denver City.

SURRATT'S TRIAL.

Washington, June 10.—Surratt was placed upon his trial this morning. The City Council have organized. The Board of Aldermen elected are white men throughout. The Board appointed a negro Carrier, Reading Clerk, and a negro Messenger.

The Extinguisher. A New Patent Fire Engine!

BY MEANS OF THIS INVENTION the devouring flames can be subdued in less time than is required to write this notice, and thus your.

Houses, Stores and Furniture, and other valuables may be saved when they would be destroyed before a Fire Company could be summoned.

ALWAYS READY, POWERFUL AND PROMPT.

This little Engine is capable of being used at any time, by any person, and in any place, and consequently, of subduing a fire at the moment of its discovery even though it has already made alarming progress. The great damage usually done by the application of a large quantity of water by an ordinary Engine is almost entirely avoided by this process, as it is not the water which extinguishes the flame, but

Carbonic Acid Gas, with which it is impregnated. It is

Very Simple in its Operation, the mere turning of a small tap putting it into complete operation without the slightest danger to life, health or property. It may be kept charged and

Ready for Instant Service, and it need not be recharged for months, or even for years—is so light that any person can carry it with the greatest ease, to any part of a building that may be on fire.

Entirely Self-Propelling, it requires no skill to manage it beyond what is necessary to direct the stream by means of a flexible tube.

The Extinguisher occupies no more space than a bucket of water; weighs, when ready for use, from 75 to 95 pounds, is strapped to the shoulders and carried on the back with the greatest ease. It extinguishes fire promptly on Kerosin, Tar, and other inflammable material where water produces no effect.

Wherever this Extinguisher has been tried it has proved

Entirely Successful.

The following from a leading New York Paper will show its vast utility in a great city, and on RAIL ROADS, STEAMBOATS,

MACHINE SHOPS, &C. It must be Invaluable.

TIFFANY'S GREAT JEWELRY STORE, N. YORK—Swept by the New Patent Fire Engine.—Between 1 and 2 o'clock this morning a fire broke out on the fourth floor of Tiffany's Jewelry store, No. 550 Broadway. The fire occurred under a work bench. The flames extended to the fifth floor. The fire was discovered by a private watchman employed on the premises. Several clerks who slept in the building attempted to extinguish the flames, but were unsuccessful. An alarm was then given, and the fire patrol put out the fire with a Patent Fire Extinguisher. The damage to property was only about \$900—insured at the Fireman's Insurance Co.—New York Evening Post.

Notice to Distillers. COLLECTOR'S OFFICE, UNITED STATES INTERNAL REVENUE, Sixth District North Carolina, SALISBURY, May 14, 1867.

Notice is hereby given to the Distillers in this District, that the Secretary of the Treasury has adopted and prescribed for use in Distilleries, a metre invented by Mr. Isaac P. Tice, of New York.

No Distiller will be allowed to continue in operation after the fifteenth day of May, 1867, unless he shall before that time, have made application for a Metre, and accompanied his application with adequate security for the payment of the necessary expense, which will probably vary, according to the size of the distillery—from six hundred to fifteen hundred dollars.

Distillers of brandy are not required to have the metre, but they are required to pay the special tax and \$2 per gallon, except on that made from grapes, which is only \$1 per gallon. Those distillers who continue in operation their distilleries after this date, will be prosecuted for so doing, as no applications have been filed for Metres.

White Sulphur Springs. Catawba County, North Carolina.

THE PROPRIETORS OF THIS CELEBRATED Watering Place, having gone to great expense since the last season, in changing the position of and repairing the Cottages, grading the walks and erecting new Buildings, together with many other improvements, will open the SPRINGS for the reception of visitors on

Saturday, June 1st, 1867. Being situated in the Northwestern part of the State, in a country remarkable for its beauty and healthfulness, these together with the virtue of the waters, make it one of the most desirable watering places in the country.

The Mineral Waters—of these Springs are the White and Blue Sulphur, and Chalybeate, and they possess all the finest qualities of these waters, and are sovereign remedies for all diseases of the liver, bowels, stomach and kidneys.

The Springs are accessible by any of the roads leading to Salisbury, N. C. and at that point the Western North Carolina Railroad will convey visitors to Hickory Station, at which place conveyances are always in attendance to take them to the Springs.

Dr. White, of the Medical College, of Virginia, will be at the Springs the entire season, and in valids may rely upon good attention. Having again secured the services of Mrs. Wrenn, and made ample arrangements for keeping a good table, and the best wines, liquors and cigars, and having engaged Smith's Band for the season, and we safely promise to all every convenience for pleasure, comfort and amusement that may be desired.

Patent Mica Roofing.

The New York Mica Roofing Company, (Established 1854,) are manufacturing under Letters Patent the best article of composition roofing ever offered to the public. It is adapted to every style of Roof, steep or flat, and can be readily applied by any one. The U. S. Government, after a thorough test of its utility, have adapted its use in the Navy Yards, and upon Public Buildings. The Roofing is put up in rolls, and has only to be nailed to the Roof to make a Durable Fire and Water-Proof Covering. We particularly recommend its use upon Buildings, Stores, Churches, Factories, Machine-Shops, Steamboat Decks, &c.

Mica Roofing Paint. For coating Tin, Iron, or Shingle Roofs. It forms a body equal to three coats of Ordinary Paint. No roof can rust under it, and old leaky roofs may be made permanently water proof and durable by its use. The Paint requires no mixing, but is ready to be applied with the ordinary paint brush. Price \$1.00 per gallon, which will cover two hundred square feet.

Also manufacturers of BLACK LUSTRE VARNISH, Tanned Oil and Roofing Pitch. Discount to the Trade. Circulars and Price Lists furnished. Rights for counties sold at low rates. Address: THE MICA ROOFING CO. 194 Broadway, N. Y.
