### Haag & Smith's Patent WATER WHEEL.

THE undersigned having accepted the agency for the above named wheel, would call the attention, of the proprietors of Mills, Factories, &c. &c., to the many advantages they would derive from using it. It is well adaptedt to all purposes for which a water wheel is used. The small space it occupies, and the velocity of its motion, are attractive features. It requires but a small amount of gearing. Ice does not affect it. Works as well on horizontal as vertical shaft. Suitable to any locality. Not affected by back water. It is simple, cheap and durable. One of the wheels can be seen in operation at Foard, Tatum & Co's, Mill on South Yadkin

I have been in the Mill wright business for 25 years, and consider this by far the best whell I have ever yet met with. This wheel costs from \$15 to \$275, according to size. For further particulars address me at, Jerusalem, Davie Co., N. C.

#### VERY IMPORTANT NEWS FROM SPAIN IN REFERENCE TO CUBA.

We have two very interesting items of news from the other side, in reference to Cuba. The Assassination of General Hindman. - The Memphis Avalanche makes the following startling allegations, which ought not to have been put forth without substantial evidence, and ought not to remain without judicial investigation :

"The past few days have produced revlations which firmly fix the crime of this horrid murder upon not an individual member of the radical party in Arkansas, but the leaders of that foul organization themin the plot, who furnished all the needed information about Gen. SHOOTING OF MR. LAW AT DARLINGTON.

On the night of the 4th instant, a party of from twenty to thirty men broke into the cotton house of Mr. J. K. Law, brother of General E. M. Law, who, hearing the noise, got out of bed, and opening the window to look out was immediately fired at, by the whole party, three balls entering his face and forehead. The window was literally shattered with the bullets; after which the party took four mules and a wagon, and haded it with four and-a-half bales of cotton, and drove off. A party of twenty persons from Florence the following day went in search of the assassins; found the males and wagon, but could get no clue to the party or cotoutrage was perpetrated by blacks or whites. There is a rumor that one of the party has been arrested. Mr. Law is supposed to be mortally wounded. The scene of this outrage was in Darlington District between the Courthouse and Florence. - Charlesian Mercury, 7th inst.

# CURIOUS CALCULATION.

When the public debt of the United States caused by the rebellion was at its highest point if amounted to nearly one dollar a minute for the time that has elapsed since the creation of the world. According to generally accepted chronylogy it was 4,004 years from the creation to the birth of Christ; that makes this year of the world 5 872. There ar 525,600 minutes in a year of 365 days; the whole number of minutes, then, since the beginning, is 3,039, 19,200-in round numbers, three thousand millions, which is about the number of dollars of our debt at its highest figure.
