HORSE BREEDING.

The following extract from the report of Col. Samuel Ringwalt, of Downington, to the Agricultural Bureau, will be found of use to the farmer and raiser of horses.

The lesson taught by the war, of the superiority of blooded horses for cavalry purposes, should certainly not be neglected or forgotten by the people. In the improvement of our inferior breeds special attention should be paid to the selection of mares, as there is great virtue in the old Arabian rule, which attaches even more importance to the qualities of the dam than to those of the sire.

Sound, vigorous and good mares should always be chosen. The prevailing idea that the breeding properties of mares should be exercised when they are old and unfit for service is erroneous and prejudicial. The proper working season of the stallion is from the first of April to the first of August. The average period of gestation in the mare is about eleven months, varying about two weeks, the time on an average being two weeks longer in bearing a male than a female foal.

During the first winter colts should be permitted to run at large, and only housed in bad weather. They should not be fed much strong grain as their eyes and limbs often suffer therefrom. The same treatment should be observed the second winter. In the summer they should be turned to grass. The third winter they will require more grain, particularly if it is intended that they shall begin to earn their food.

The stallion selected for a sire should be as compact as possible. A long belly and a short back, a yellow eye and a thick thigh, have been considered pretty good marks. It should be, if possible, so paired with the mare that the good points of each may be preserved, and the defects, if any exist in either animal, may be counteracted by opposite qualities in the other.

The foal of a full-blooded dam got by a pure Normandy stallion will generally prove a more useful and valuable horse for all practical purposes than any other cross; and among the valuable blooded animals of our country, my observation has led me to place in the front rank, for stamina, speed, endurance, vigor and strength combined, the old Messenger stock.

OAKS PLANTED BY SQUIRRELS.—It is a curious circumstance, and not generally known, that many of the oaks which are called spontaneous are planted by the squirrels. The little animal has performed the most essential services to the British Navy. A gentleman walking one day in a woods belonging to the Duke of Beaufort, had his attention diverted by a squirrel, which sat very composedly on the ground. He stopped to observe its motions; in a few moments the squirrel darted like lightning to the top of the tree beneath which he had been sitting, and in an instant he was down with an acorn in his mouth, and began to burrow in the earth with his paws.

After digging a hole he stooped down and deposited the acorn; then covering it he darted up the tree again. In a moment he was down with another, which he buried in the same manner. This he continued repeatedly.

The industry of this little animal is directed to the purpose of securing himself against want in winter; and, as it is probable that his memory is not sufficiently re-

tentive to enable him to remember the spot in which he deposited every acorn, the industrious little fellow no doubt loses a few every year. A few spring up and are destined to supply the place of the parent tree. Thus is Great Britain, in some measure, indebted for her mercantile greatness to the industry and bad memory of a squirrel.

The consecration of Bishop Beck with the new Bishop of Georgia, will occur on Thursday, the 2d of April next. The Right Rev. Dr. Atkinson, Bishop of North Carolina, is to act as consecrator, assisted by the Bishops of South Carolina and Alabama. The sermon is to be preached by the Right Rev. Dr. Wilmer, Bishop of Alabama. Bishops of other dioceses are expected to be present, and large numbers of distinguished visitors from all sections.

The ceremonies will take place at Savannah.

LANDHOLDERS who wish to Sell Agricultural or Mineral Lands, Water Powers, Mills, Town Lots, or Real Estate of any kind, will find it to their advantage to place their property in our hands for sale. We have great facilities for procuring purchasers for all such property.

ESSEX COUNTY, N. C., May 21, 1867.

Dr. J. J. Lawrence. Please send me immediately, per Express to Durham, two dozen more bottles of your Rosadalis. I have carefully examined its Formula, and have used it in my practice in a number of cases, and am well pleased with it. I think it beyond doubt the best Alternative Remedy, &c. I have used it in several cases of Scrofula and Syphilis, &c. It has, therefore, an indication in recommending it to Physicians and others, as the most reliable Alternative Remedy.

Respectfully, your acq., A. B. NOBLE, M. D.

WILSON, N. C., May 21, 1867.

The undersigned, officers of the county of Nelson, and State of Virginia, take pleasure in recommending a solvent and reliable company, "The Piedmont Real Estate Insurance Company," of this county; and besides the merit of its solvency, its rates and terms for Life Insurance are such as to commend it to public patronage.

Its Stockholders, Directors and Officers are men of high integrity, and patrons can rely on an honorable, efficient management of its affairs. None of us have stock or personal interest in this company, and simply give this as a disinterested testimony to the merits of a good institution.

WILSON, N. C., September 15, 1867.

Dr. J. J. Lawrence. My youngest daughter, aged five years, has been dreadfully afflicted with Scrofula nearly all her life. I consulted a Physician, but without relieving her much; in fact, most of the time she was in a state of suffering. During the last spring she was worse than ever, her body and limbs being covered with sores and ulcers, with her eyes badly diseased and swollen. While in this condition, I was advised by Dr. L. A. Stib to try your Rosadalis. I at once procured three bottles, and commenced giving it to her. The effect was magical. In less than a month to my great astonishment she was entirely well. I am, Sir, Yours, with respect and gratitude, W. W. BURNETT.

Capt. J. H. B. - Sir: For the last seven or eight years I have been severely afflicted with a very troublesome form of SALT RHEUM from which I have never been able to obtain the slightest perceptible relief from any of the many remedies which I have at various times applied, until I obtained to try Dr. Lawrence's Rosadalis. In less than one month I found myself almost entirely cured of my troublesome complaint.

Other members of my family have used it as a blood purifier, with the most gratifying results. Truly I can say, that of all the medicines I have ever used before, none have been so happy & so efficient in effect as the Rosadalis, and I would most cheerfully recommend it to the public and to all suffering humankind.

Very respectfully, yours, &c. MR. E. N. BOGERT, Opposite the Crawford H. Ave.

I hereby certify that I was cured of a "Chronic Affection of the Ear" by the use of the Rosadalis of Dr. Lawrence's Rosadalis, and the same advice which sufficed with the "Kidney Disease," to try the Rosadalis.
