Matchman & Old North State. BY HANES & BRUNER. SALISBURY, JUNE 12, 1868. NOTICE,

Mr. R. C. Badger, Secretary of the State Conservative Executive Committee, requests that Secretaries of Congressional District Conventions forward to him the credentials of the National Democratie Convention, except in cases where the credentials have been already delivered to the State of North Carolina possesses the the delegates.

THE SIGNS OF THE TIMES.

One of the two great parties which d vides the people of the country has its presidential ticket fairly in the field. The names of Grant and Colfax are floating at the main head of every Republican paper in the land. But thus far they have excited less enthusiasm than was ever be-States + Nothing. fore produced by any similar nominations made in times of high party excitement. In the absence of any evidence of capacity for civil employments, Gen. Grant's military prestige does not promise to aid the Radical party materially in the approaching election. Colfax is a man, of personal popularity with his friends, but he has neither the abilities nor the force of character to add any thing to the strength of the ticket. Both Grant and Colfax are identified with, and were nominated by, the impeachment party. The failure of that infamous political scheme has greatly weakened the party which originated it, and has, in a corresponding degree, strengthened the party in opposi tion to it. And though it seems to be pretty certain that the Southern States will be admitted under their, new bogus Constitutions, yet the indications are strong that the Conservatives will carry the Presidential election notwithstanding.

The first great gun of the campaign was fired last Monday. On that day th election for a member of Congress and State officers took place in the State of Oregon. At the last election the State went radical by about one thousand ma jority, and the Radicate filled a majority of the State offices. Now it g es Conservative by at least one thousand majority in the election for a member of Con gress, and the Conservatives have a decided majority of all the State offices. This insures the election of a Conservative Uni red States Senator from that State. This election is ominous. It is but the begin ing of the end, if the Democrate and Con servatives bring out their most available men as candidates for the Presidency and Vice Presidency, which we take it for

granted they will do. And defection in the Republican rank does not promise to be confined to the vo ting masses. There is unmistakable evilence that many men who have heretofore

W. G. BROWNLOW.

The Butler Inquisition .- The que has repeatedly been asked why Butler did not call before him Mr. Hugh J. Hastings, Sun, which may account for the heaita tion of Batler to bring this witness for ward :

It is reported from Washington that General Butler's committee have summ ed Hugh J. Hastings to testify with regard to the alleged impeachment corrup-tion ; but Mr. Hastings has not yet received their subplena. He openly regrets its failure to arrive, and declares himself anxious to appear and testify. We are, of course, not aware what his testimony will really be ; but it can be proved that he positively and publicly affirms that he is not only ready to swear that all his ef forts in Washington were in favor of con-viction, but that Mr. Woolley told him

edly to Butler and other prominent mem bers of the House to keep the whiskey tax at two dollars." The fact that Mr Hastings proposes to give evidence of this er reason why he should be sort is anoth summoned in reality and speedily. He performed a conspicuous part in the tele grams which have been published; and i he presumes to circulate reports of an injurious nature respecting members of the committee, we do not see how they can afford to postpone his examination under oath for a single day.

NATIONAL DEMOCRATIC CON-VENTION.

pondent of the Louisville Journal says : || From what we hear, there is a very general desire on the part of the delegater elect, and others, in the Southern States Brownlow, of Tennessee, and Gen. Stokes, in attention, which meet in New Tork, on the will be produced by the Democrats, if rention, which meet in New Tork, on the they can get a hearing before the nosing committee : EXEXVILLE, May 3.

has been fult, that arrangements would be made with the Rail Road and Steamboat Companies, to allow persons attending that Convention to do so at half fare, or

one fare going and returning. We regret to learn, from head quarters, that all efforts to procure such an arrange-ment have failed. We make this statement, for the information of all partice These who attend the Convention may

These who attend the Convention may, therefore, expect to pay full fare on the usual routes of travel. The Stears packet lines from Norfolk, Newbern, Witnington and Charleston are running with great dispatch and promptness, their charges are much lower than these on the inland routes, and a sea-trip at that season would be desirable

NEGRO SUFFRAGE.

Even the stomach of Thurlo Weed rebels against the Chicage platform, which he says "Lound strange in a government of the people." This is true enough. A plat form which, in the language of Mr ple." Weed, "Declares that in one part the country where colored suffrage i likely to prove ra nous it may be es-tablished and enforced by superior ower, while at another, where such suffrages would be too inconsider able to be noticed, it may he left to the people who have already declar

against it, does indeed sound strange in a government of the peo-

A writer in the "Southern Planter and Farmer," adverts to the fact that the brauch and creek bottom lands are becoming less valuable year by year, in consequence of the increas ing difficulty of keeping them drain ed. He says the ditches, and the streams into which they run, are more and more liable to till and hinder the drainage than formerly; and then points out a reason for it; which, it is obvious, is in the main true to wit : Shallow ploughing on the adjacent uplands, the soil of which in swept off by the heavy rains into the creeks and branches, low lands and ditches. The creeks and branches

being filled with the sands, the channels are diminished in depth ; the wa ters raised nearer the surface, back up the ditches, and the lands, thus made more liable to overflows, are rendered more uncertain for agriculfural purposes. Remedy -Deet
