

OUR WORKING MEN.

The following article, which we clip from the Norfolk Day Book, conveys our sentiments precisely, and we commend the article to the attention of the citizens of town:

That city which so shapes its policy as to attract working men, has, in the estimation of all sound thinkers, solved one of the most important problems in regard to growth and prosperity.

The working man is the indispensable essential; without him there is no advancement. A city made up of doctors, lawyers, politicians, bankers and merchants, would soon be overgrown with moss, moth-eaten, and would soon disappear. It would have no vitality, or importance. The live element in all communities is the workingmen. They carry forward the industrial enterprises of the world; they level the forests, bridge the rivers, tunnel the mountains, dig the canals, and frame the locomotives; they build the cities, and cultivate the fields; they invent and construct; they manipulate the keys of machinery, and fill the land with its music. They are the pioneers of progress, and the monuments of civilization are the works of their hands. The sunburnt face and brawny arms bespeak the man "for a' that."

There are ever coming forward from the representative of the plow, loom and anvil men who shape the destinies of nations—men of large brain and practical views, who received their graduating diplomas in workshops, and whose words on questions affecting the material interests of the State outweigh the impractical theories and ephemeral logic of the mere book worm.

The workingmen, what's their task? To carve the stone or bear the load—They wear upon their honest brows The royal stamp and seal of God! And brighter are their deeds of sweat Than diamonds in a coronet!

OFFICE-HOLDER'S MEETING.

A meeting for the purpose of ratifying the nomination of Grant and Colfax, was held by the office holders of the district in this place on last Saturday. These men know that their large salaries depend upon the success of the Radical party, hence their excessive zeal in the cause of high taxes and enormous expenditures. The following persons took part in the proceedings: John Blackburn, Superior Court Clerk, whose salary will amount to about \$1,500 a year, was appointed Chairman.

E. B. Teague, member of the Convention, where he received \$3 a day and 20 cents mileage, Secretary.

D. H. Starbuck, Chairman of the Committee on Resolutions, is U. S. District Attorney, and Judge of the Superior Court, has already reaped a reward of at least \$25,000, and is good for 10,000 more as Judge.

The meeting was first addressed by A. H. Joyce, Solicitor for the District, with a salary of about \$2,500 a year.

J. M. Cloud next appeared and said over Judge Pearson's speech. The Judge's salary for the next eight years amounts to \$26,000.

Mr. Cloud next said a speech for himself. Mr. C. is the expectant successor of Judge Starbuck, as U. S. District Attorney.

Windy Billy Henderson, who receives \$125 per month as Agent of the Freedmen's Bureau, and is also expectant Congressman, next followed.

The whole was managed and overseen by Matthias Masten, Sheriff, whose fees under the present enormous taxation, will amount to \$1,500 or more a year.

From the array of Office-Holders, it will be seen that the masses of the People have but very little to say or do with their meetings. There was only about 300 persons, white and black, present, and about one-third of the number were Conservatives who dropped in out of mere curiosity to see the show. West. Sentinel.

NEW GARDEN NURSERY, near this place, and under the superintendence of that excellent nurseryman Joshua Lindley, are in a flourishing condition. The proprietors have just issued a large and full catalogue which contains many new and improved varieties, among which we noticed some peaches, which will ripen two weeks earlier than any heretofore cultivated in this State. The people of this county are too well posted as to the value of the peach crop, to allow these trees long to remain in Mr. Lindley's nursery. We say to all our farmers—improve your orchards, for the demand for fruit, both green and dry, will increase every year, as our facilities for reaching foreign markets are constantly enlarging. Green peaches are now selling at from 75 cts to 1.50 per bushel and at least 200 bushels are sold daily. Patriot and Times.

Berthony says that Franco had loaned large sums to Austria and Italy for railroad purposes, and the return of this money accounts for the accumulation of bullion in the Bank of France.

Columbia, Aug. 27, P. M.—The Attorney General's opinion on the Bill closing the operations of the Bank of the State, declares the State liable for all obligations of the Bank, and says that the Legislature can dispose of the assets as it sees fit.

NEW YORK COLUMN.

THE political prospect in Forsythe brightens every day. For some time we felt rather desponding at the prospect of making any gains on the Radical vote, but the banks have commenced caving in, and we bear of changes taking place every day.—Western Sentinel.

A Curse on the Country.—Loans at two per cent. a year in New York. Loans at two per cent. a month in the South. This in the nineteenth century—this age of telegraphs and railroads. Why is money so low in New York? Why is it so high here? Why don't the capitalists bug their money so closely? Why are they content with one-tenth of what they might obtain? Because there hangs a curse upon the country—the curse of Radicalism making all money—all property, all security, all enterprise, unsafe.

From Washington. Washington, D. C., August 27—M. It has transpired that McCulloch has ordered to be paid a five hundred dollar gold note and issued an equivalent for a thousand dollar three-month bond, both heretofore pronounced spurious and duplicates. Schofield will not act on Judge Underwood's suggestion, regarding the Virginia Judiciary.

Washington, Aug. 27, P. M.—Senator Fowler, of Tennessee, in a card, denies complicity in the "ring" against Rollins, as charged by the New York Tribune. Revenue, to-day, \$523,000. It is stated that McCulloch has determined to make issue between himself and Rollins. No Treasury or Revenue appointments to be made unless acceptable to McCulloch.

Revenue Commissioner Rollins has instructed certain detectives employed by him under the new law to perform the duties of Supervisors, when circumstances have arisen or may arise, requiring Supervisor's action.

From Georgia.—The Legislature. The Senate bill, postponing the election of the city of Savannah till the second Tuesday in December, passed, 33 to 7.—It increased the ballot boxes to three. Campbell, negro, opposed the postponement, and said that if the ballot boxes were in one building, the negroes would have no chance to vote, and, if not allowed to vote, will fight. He warned Senators how they act.

In the House there was a long and warm discussion on the eligibility of negro members, and the right of negroes to hold office.

Over fifteen hundred Millions of Dollars have been collected by the United States Government in the shape of taxes since the war, still the public debt has increased, and the people are cursed with so great a tax on the justification of fruit that it is impossible for a poor man to think of it.

Will the people support a party that makes the poor poorer every year, and the rich richer.—Western Sentinel.

Terms for Publishing Legal Advertisements. The Editors of the Watchman and North State and AMERICAN, to save themselves from loss, and to induce cash payments for publishing legal advertisements, have adopted the following scale for publishing the same, hereafter, and invite the attention of Clerks of the Courts, and other interested parties to the terms proposed. For publishing usual Legal Notices or Court orders, when the cash accompanies the order, the price will be \$7. When the same are sent and published, without prepayment, the charge will be \$10. Clerks of Courts who themselves advance the money, will have the benefit of the difference.
