At length a crieis was reached, in 1856, when Espartero was dismissed, and insurrections broke out in Madrid, Barcelona and Baragossa. In these disturbances he took no part, and in 1857, resigned his position as Senator, retired to private life, where he has remained, until about two months ago, he was recalled to Madrid by Queen I sabella, and entrusted with the formation of a cablnet. He was then either unable or unwilling to unite the conflicting elements with which he had to deal. He mestid to be a man of determined will, and to be devoted to the cause of liberty and progress.
