

Whitman & Co North State.
BY HANES & BRUNER.
SALISBURY, DEC. 4, 1868.

STIRRING NEWS.

The late eruptions of Mount Vesuvius, in Italy, Mount Hecla, in Iceland; the terrible earthquakes in St. Thomas, etc., are perhaps only the preliminaries to grander catastrophes. They seem to have already commenced in a remote region, on a majestic scale. The latest news from Sandwich Islands gives the details of the most terrific earthquake and volcanic eruptions ever experienced there—putting into the shade the most terrible records found either in history or tradition. Even the proverbially cool philosophers are getting alarmed. Prof. Loomis, of New Haven, begins to consider the earth a very unsafe place to stay on longer, from the fact that the late volcanic manifestations have been so general in their character, that there is no longer any doubt about the theory that all volcanoes have not a local, but a general and common origin in the central liquid parts of our globe, where the most intense heat prevails. In comparison to this interior liquid mass the crust on which we live must be excessively thin. Prof. Loomis thinks it is proved now that these eruptions are caused by water getting into that central fire, where, after having been converted into steam by the heat, it exerts a most enormous pressure on the earth's crust, upheaving, sinking, heaving it open, ejecting the interior liquid mass which we call lava, etc. He thinks there is now great danger of the water in the ocean getting through the crust into that central fire, and having been changed into steam, at any moment blowing the whole ball to pieces. In fact, he compares our earth to a huge steam boiler, under extra high pressure. The fate in store for us poor mortals is, in accordance with our learned Professor, the same as that which befall the inhabitants of the planet once existing between Mars and Jupiter. This planet about fifty times larger than the earth, was from several causes, it is thought, blown into several hundred pieces; of these ninety-seven have been discovered by astronomers; they are called asteroids.

SUFFRAGE IN PENNSYLVANIA.

The late Mr. C., an extensive iron master in Lancaster Co., on election was in the habit of having his hands driven in a wagon to the polls, and then, without giving them the trouble to get out, handed in their votes himself, giving in their names as he did so, thus: "This is Peter Hemmel's vote; this is Jacob Miller's vote; this is Casper Weber's vote," and so on until he had voted for all in the wagon. The wagon was then sent off for a fresh load, and when it arrived the same ceremony was gone through with them. It is still the custom in Pennsylvania for iron masters and all other manufacturers to compel their hands to vote as their employers please, but Mr. C. was probably the only one of his day who put in their votes himself. [Exchange.] This sort of voting in October and November carried Pennsylvania against the Democrats. What led to it in part was the act of the present Congress taking from \$65,000,000 to \$80,000,000 from the manufacturers and putting it upon Congress. This was done after the failure of Morehead & Co., to impose additional duties upon foreign goods. The Radicals think it a horrid thing to change a negro vote from a black to a white direction in the Southern States, but esteem it all right to oppress white laborers North who will not vote with their monied masters. — N. Y. Express.

THE HEBREW RACE.

Late foreign news announces the death of Baron James Rothschild, the foremost man of his age in his department—Rothschild the greatest financier, and Rosinid the unrivaled musical composer. They were both of Hebrew blood—which shows that that race, though anathematized, dispersed, villipended and trampled under foot for nearly two thousand years, still possesses wonderful vigor. Nor are these two the only names that illustrate their race. Nearly every department of art and letters in modern times boasts of Israelites as among its noble ornaments. The Primo Minister of England is a Hebrew of pure blood. The great actress, Rachel, belonged to the same stock. German art and literature are covered with their names—Mendelssohn and Jacobi among the rest. In war alone the race is less conspicuous, though it has been said that Massena and Soult—very respectable military characters—were of that race. Both for genius and success in the world it is a blood that compares favorably with any other extant.—Birk Whig.

Washington, Nov. 26, P. M.—The impression increases that Grant will be subjected to all the restrictions which have cramped Johnson.

A Fatal Tragedy.—The Rutherford Vindicator, received on yesterday, bears through private channels, the deplorable affair occurred in Marshfield, Madison county, on last Monday. A Mrs. — approached a young woman, who resides near the village, and asked if her name was —. Being answered in the affirmative, Mrs. — plunged a knife into the breast of the young woman. It then transpired that the unfortunate creature was the sister of the intended victim, and that, in a passion of jealousy, the fatal deed was committed. The murderer is now in jail at Marshall.

The Old North State comes to the conclusion that while the Northern Democracy promises the Southern people everything "it performs nothing." We are beginning to believe that some of the Northern politicians "will do to die."

For long years we have known and felt that the Northern Democracy would "do to die to." The South, time and again, have only trusted that party to be betrayed. Unwillingly we went into the recent campaign under the name of Democracy, feeling almost certain that like sheep in the shambles, we were but being led to the slaughter.

For our own part we think it is the duty of the South to have nothing more to do with National politics. Let the Northern Radical and the Northern Democrat "popperhead" fight it out on their own line," while we at home devote our attention to those matters that will lead to our respective States' best interests, politically and will sweep away the carpet-baggers and scoundrels, and that will tend the most to promote our material interests, agriculturally, mercantile and mechanically.—Walden Argus.

The admission of the Louisiana Congressmen, chosen at the recent election, is highly improbable. The opposition to their admission is strengthened by an official statement of Col. Keeler to the effect that Gen. Rousseau concurred with the radical leaders in the opinion that negroes could not safely vote.

All the departments are closed. Seward and Randall visited President Johnson to-day.

DR. DIED.

In Lexington, N. C. on the 3rd day of October 1868, after a protracted sickness, Dr. WILLIAM RAYSEY HOLY, aged 69 years, 11 months and 3 days. The subject of this notice was, in many respects, a remarkable man. Possessing one of the finest and most extensive farms in Western North Carolina, and enthusiastically devoted to agricultural pursuits, he gave, for many years, to his notable plantation, near Hillsburg, the most of his time, talents and money, and at last we may say, his life. Next to his dear and lovely family, his "Model Farm" claimed his undivided affections and his unremitting energy. Fond of beautifying, as well as fertilizing his valuable lands, of industrious habits an unwearied energy, it is no wonder that the passenger on the cars gazed with admiring eye on Linwood, with its extensive fields of waving grain, its lovely groves of Oak and Hickory, its green pastures of Clover and Timothy, its flocks of the finest Southdown Sheep, its herds of superior Devon cattle, and pronounced it the most splendid farm, and affording the most cheering agricultural view, anywhere on the line of the Central N. C. Railroad. With a mind highly cultivated, and devoted to Science, he brought to bear upon his agricultural labors all the aid of scientific research. And here perhaps, in tender judgment, was his capital error, but an error, if it were, in the right direction. He always would have the best fertilizers, the best Guano and Phosphates, the most improved implements of husbandry, as well as Sheep, Cattle and Horses of the best accredited blood, without that discriminating regard to cost, which would repay the purchaser. A careful and bountiful provider for his household, true and lasting in his friendships, kind and affectionate in disposition, affable and courteous in manner, he himself enjoyed, and made his guests enjoy, the comforts, amenities and delights of his household, whose chief satisfaction, (beyond the endearments of wife and children) consisted in the pleasure of a liberal hospitality, which he enjoyed to a great extent. As an internal improvement man, and an agriculturalist, he stood among the foremost of his native State. A kind and genuine friend, a fond and indulgent parent, a faithful, loving and ever confiding husband, he left his earthly home to join, we trust once more, in a happier world, those noble ones, whose disease and war had torn from his living embrace on earth. A worthy commendation by the protestant Episcopal Church, Dr. Holy attested, in his dying words, his faith, hope and love in Christ, his Saviour, and, long-suffering for months under a wasting disease, contracted on his farm, he nearly ran out the allotted span, three score years and ten, when he was gathered to his fathers, leaving the testimony of a good conscience; "in the communion of the Catholic Church; in the confidence of a certain faith; in the comfort of a reasonable, religious and holy hope; in favor with Thee, our God, and in perfect charity with the world." [Cont.]

DR. SAM'L A. BELL.

DR. SAM'L A. BELL, located on Ennis street, between Main & Lee. Office formerly occupied by Dr. J. A. Caldwell, and offers his professional services to the citizens of the town and vicinity of Salisbury.

GUANO [Text follows]

THE SOUTHERN HEPATIC PILLS. That old, long known and well tried remedy for all Bilious diseases, caused by a DISEASED LIVER. Read the following Certificate of a person of the highest respectability. LIVER COMPLAINT. DR. W. C. F. DAVIS, (Age 23, 1867) says: "I have derived great benefit from the Southern Hepatic Pills, and have known many families and individuals who have found them very beneficial, and I have also known physicians to recommend them to their patients. For all diseases arising from disorders of the liver, I believe they are the best medicine offered to the public."

DR. JAMES W. FORTNER, (Age 23, 1867) says: "For twelve years I was a great sufferer. My liver was diseased, I lost my flesh and strength, and my system was much changed in its color by the bile which my system was overburdened. I became subject to frequent and violent attacks of cholera, every attack leaving me weaker than its predecessor. The physicians had been unable to catch me up a little, but my health was in a deplorable state. I had taken patent medicines until I was tired of them. Within ninety or one hundred days I was cured of my complaint. I was barely able to get about a little. At length I yielded to the recommendation of friends and commenced taking the HEPATIC PILLS, with the result, I believe, that I have never enjoyed since. From that hour I have improved, and procured in their use until now, by a dose of these Pills. My Doctor's bill was annually from \$100 to \$200, but I had no use for a physician since. I can confidently recommend them as a superior family medicine, and take pleasure in forwarding the voluntary tribute. A. W. D. TAYLOR, Esq., Petersburg, Va. (Jan. 12, 1867) says: "In the Spring of 1867, I was attacked with Dyspepsia to such an extent that all my food of every description agreed with me. I was swollen so that I had to loosen my clothes, and might after night find no sleep. I tried one or two physicians and took a good deal of medicine, but had no relief. I purchased one box of the Southern Hepatic Pills, and the first dose I took felt relieved, and continued until I took a whole box. I am now entirely well and hearty, and never have been attacked since. I can safely recommend these Pills to the people and the community at large. They can be sent to any point in the United States by Mail or Express. JOHN H. ENNISS, Druggist, Salisbury, N. C.
