

ORIGINAL POETRY.

MY MOTHER.

I asked an infant as it lay, Dozing the morn of life away, Dependent of another— What charms, weak one! has earth for you...

OUR MINNIE.

O, close with reverent care those eyes, Their meek and sorrowing light hid. No trembling gleam, through mists of tears...

DISEASE OF BANK NOTES.

The most curious and small note argument that we have yet seen is the following from Dr. Thomas H. Backer of Baltimore, taken from a recently published work on Epidemic Cholera.

SMALL TYPES.

The injury sustained by the eyes in consequence of printing books and newspapers in small types, is far greater, we believe, than people imagine.

SALT LAKE EMIGRATION.—To those uninitiated in the workings of the Mormon fraternity (says the St. Louis Times) the number and character of the emigrants to the Salt Lake must prove a matter of considerable astonishment.

The Nottingham Journal notices a rumor that Mr. Charles Dickens, the popular novelist, will be invited to become a candidate for the representation of that town on a dissolution of Parliament.

A PROFOUND THEORIST.

The unintelligible and incorrigible Emerson has been again sledging his dim, uncertain light in the shape of a so-called lecture on the "Conduct of Life."

A RELIGIOUS STRUGGLE IN IRELAND.—A letter dated Dublin, Feb. 1st, to the Courier and Enquirer, says: "The new Irish Agitation is a religious warfare. A most extensive system of what is in our class called 'proselytizing' by the other 'convertions'...

From the Liverpool Courier, Feb. 11. A BOLD STROKE FOR A THROUSE: THE CABREY AND COY D'ETAT ON LIONS NABOULEN BONAPARTE. LONDON, GREENBRIDGE AND SONS.

THE BATTLE BETWEEN GARAJAVAL AND THE MEXICANS.—The "Patriot's" Record.—The New Orleans papers contain the details of the battle between Garajajal's forces and the Mexicans, under Canales.

SELF-WINDING CLOCK.—After years of mathematical labor and mechanical results, Prof. Willis of Rochester, has completed and has now in constant operation a self-winding clock, which determines the seconds, minutes, hours, days, weeks, months, and years of time with unvarying accuracy.

SEARCH AFTER HAPPINESS.—If you cannot be happy in one way be happy in another; and this facility of disposition wants but little aid from philosophy, for health and good humour are almost the whole affair. Many run about after felicity, like an absent man looking for his hat while it is on his head or in his hand.—Sharp.

A STRANGE FREAK OF NATURE.

We were visited at our office, a few days since, says the Atlanta, Ga., Intelligencer, by a man named R. H. Copeland, a native of Laurens District, S. C., but now residing in Heard county, in this State, who presents in his peculiar organization a very remarkable natural phenomenon.

EDUCATION.—A Convention of Teachers. Many politicians seem to have persuaded themselves, and endeavor to persuade others, that President making is the most important object of American legislation.

others of a similar standing. If, therefore, an educational convention should be called, we would not only like to see a full representation from the counties and towns of the State, but also one or more delegates from the University and Colleges, &c., that all the elements of the cause might be duly estimated and fostered.

We would cheerfully pursue the subject further, but must postpone it to a future day. It is a serious theme, upon which there is little danger of saying too much.

REV. ANTOINETTE BROWN!!

We clip the following piece of ecclesiastical news, from an exchange. "Miss Antoinette L. Brown, was introduced by the Rev. Theodore Parker, to his congregation on Sunday, in Boston, and she performed the service by prayer, and the preaching of a sermon from chapter 14, of 1 Corinthians, 24, 25. She is a graduate of Oberlin University, twenty-one years old, and rather good looking."

CHANGE OF HOUR.—DEPARTURE OF THE CARS.—The Cars now leave the depot at 8 o'clock A.M. instead of 1-2 past seven, as noticed in our last paper. It is probable the hour will be changed from time to time, as the new track near us, thus lessening the time between Raleigh & Gaston. A new supply of iron has been received, and an additional number of hands placed upon the road.

LITERARY NOTICES.

We have received the March number of the SOUTHERN LITERARY MESSENGER, and glanced over its interesting contents. The Messenger has held a position in the first rank of American periodicals for many years, and under the regimen of its present conductor, has fully established itself in the affections of a large circle of Southern readers.
