Mr. Randolph went to Russia and England the next year, and during his absence I received but one letter from him in London, which does not contain any matter of special interest.

No. VII.

Mr. Randolph returned from England for the last time in the Fall of 1831. I called upon him immediately after his arrival, and was very much shocked at his emaciated appearance. In reply to my question about his health, he said, in a melancholy tone of voice-" Ah, sir, I am going at last; the machine is worn out-nature is exhausted, and I have tried in vain to restore her!" He then changed the conversation, and spoke with his usual animation of his last visit to England, and touched slightly upon his short sojourn at St. Petersburg.
