From the N. Y. Courier and Enquiver. The fullowing Song, written by Mr. Le Roy Anderson, of Virginia, was sung with great taste and spirit during the past sesson of fashion and gainty at Saratoga. The fair' songstress, Miss E. A. The daing words of an old Editor. 1780 - My son, I shall sown be gone, and you will have the management of the concern. Never expect to sustain your paper upon any other foundation their call themselves nabobs, if they please, so long as, they pay for the paper; never exhibit that aristocracy, which is a part of the original sin, that is in us all, in any such way, for it will do you no good, my son.

Above all things, never put it in the ower of any man to esy, " that is our paper, we subscribe twenty dollars a piece to keep it up;" for as sure as you live, Billy, sooner or later, something will be printed, that somebody won't like; and then somebody will drop his subscribtion, to get your paper down .--One man will withdraw, or become a little water gruelly towards you, because you are too severe upon singlers and upon sin; and another, because you are not half severe enough. Another will give you that half way support, that will be more injurious than no sup port at all; and if your paper is heartly praised by some old fashinned, honest hearted men, he will reply, in pru dent and well balanced phraseology. that he does not know but it is so, and he does not know as it is so Every morning, directly before prayers, read attentively the lable of the Old man. Jack ass, and little boy. Never omit it as long as you live. You will have maby things to encounter, that are not very agreeable. Anonymous letters of an impudent character, burn at once; never mention them to any body, not even to your wife. Where a customer drops the paper, do not betray your displeasure, by an extraordinary appearance of civility, when you happen to meet him again. Never run about to pick up crumbs of comfort, nor ask any man what he thinks of this, that, or the other article in your paper which you wrote yourself. Be cautions in put-ting your advertisements: I lost a good advertisement customer by placing another man's advertisement of molasses before his own. With your good common sense you will do well enough." The public will respect you for your independence; but you must remember that there is the same difference be tween real and affected independence. as between real numers and the article manufactured at home. In a word fear God, and shame the Devil .- Long Primer. -030-A Greasy Article - Capt Hamilton. in his far famed book, is very severe on the Americans for eating such a vast quantity of grease, as is customary a mong all classes. But, as far as our own observation has extended, we are not aware that the Americans are peculiar in this respect. In Spain, the south of France, Italy, and indeed in all countries bordering on the Mediterranean, fond of every description is either cooked or steeped in Olive oilwhich, if it is a little rancid, so much the better-and the inhabitants, including all clusses, ages, and sexes, swal low it with a gusto which would even astunish the Yankees. In Lisbon and St. Ubes, we have seen many a combat between the cook of an American ship and the Portuguese Pilots or Custom House Officers, because the latter had made a gormandizing attack on the filthy contents of the slush barrel-a nauseous compound of all sorts of grease which had been accumulating during the voyage, and which the cook always deems his perquisite, and sells to the soap chandler, on his return. In Archangle we have seen a Muscovite get a

severe ropes-ending from the mate of a vessel, for greasing his food with the odorous contents of the biomacle lampand afterwards drawing the wick through his teeth, with all the keen relish and enjoyment of a pampered epicure:

Some idea may be formed of the immensel quantity of grease consomed in Havana as food, from the fact that besides wast quantities of olive oil and butter, the annual consumption of Américan hogs lard is about 80,000 kegs of from 50 to 35 lbs, rach. If we add to this the very considerable quantity produced in the city and environs, the reader must be convinced that the Spaniards of Cuba, any more than the Yankees of America, do not allow their food to stick in their throats for the want of grease!- Lowell Journal.

It is said that the force of the explo sion of the New England, was so great, as to throw a piece of one of the boilers to the distance of two miles, whilst a large fragment, weighing several tons, was cast on the top of the wheel-house. Some of the descriptions which have been given of the consequences of this explosion, are truly appalling. It is time that some decided measures should be adopted to prevent these disasters, for they may be most certainly and ef fectually guarded against. It appears that there is a law in England providing that the boiler of every steam engine shall be tested, quarterly, at three times the strength which it is licensed to use, and none but the officers of the govern ment have access to the safety valve. Since the passage of this law, not a single steam-boat explosion has occur red.-Bultimore Gazette.

THE TRUSPEES of this Institution inform the public that they have filled all the vacant Chairs, and that the regular course of Lectures will commence, as usual, on the 2d Monday in November.

In selecting gendemen to become Professors in the Medical College of South Carolina, the Trustees were influenced slone by a sense of public daty. They therefore invited talent from every quarter of our whitely extended constry. being solicitous alone for the promotion of Me dical Science, and of propriating a Medical Sciool at the South. This they flatter them--dieal selves they have accomplished.

ry, a well selected and arranged Museum of Natural History and Mineralogy, and excellen-Chemical Apparatus, a good Museum of Anatot my, and the newly elected Professor of that Chair will bring with him a Museum of Health-ful and Morbid Austomy, which contains upwords of 1300 Specimens, 300 Oil Paintings and Brawings, and a great number of Casts. The new-ly elected Protestor of Obstetules, will also ing a Museum connected with his Department not surpassed by any in the United States. Ad not surpassed by any in the United States. Ad-joining the College are two Publis Institutions, viz. the Marine Hospital and A has Arouse, which are under the superintendence of the Medical Society and the Professors of the College, and where Clinics will be delivered by the Professor of the Theory and Practice of Physic and the Professor of Surgery. The Trustees regret that the senson was so for advanced before the reorganization of the College could be effected, but they thought it a duty to the State and to the City which have endowed this College, as well as to the Medical profession, to be certa the character and attainments of the Candidater before they appointed them as Professors. Th College they can now recommend as possessing advantages not surpassed by any in the United States.

Proposals,

For publishing in Lincolnton, N. C. a Weekly Newspaper, to be called the

LINCOLN HERALD. The undersigned being ardently solicited by many of his friends to undertake the publica-tion of a newspapes, in this village, has been in-duced to offer these proposals, relying on pub-lic patronage, for that support necessary to jus-tily him in the prosecution of the same. His main object will be to instruct, to please, to excite unclules, to add to social enjoyment, and the space whatever has an evil tendency on

and to expose whatever has an evil tendency on good morals.

It will be his surpose to give all the impor-tant news both foreign and domestic, to insert spricultural essays, and to diffuse information on all subjects that have a tendency to improve society in its various relations.

He will intersperse literary information, as well as scientific instruction, mingling at the same time, a flavour of poetry, humer, and apeedote, in order to present a variety, so that each mitricinal may find something to gratify his own particular taste.

He professes to be a republican, both in prineiple and in feeling, his political course theretore will be to pursue (according to his judg-ment) the traces marked out by the Old Jeffermian School -avoiding on the one hand that exposition of the Constitution, which tends to consolidation, and shunning on the other, the equal-

ly dangerous doctrine of pullification. He has as heretofore the highest regard for the charseter of Andrew Jackson, and the ut-most confidence in his administration. He leaves himself entirely uncommitted as regards his successor-free to support whenever the ex-igency arrives, whatever individual in his opinigency arrives, whatever from his character, talents, and sound principles is entitled to occupy that elevated station. All personal controversy will be strictly prohibited, and every exertion will be made to present such a paper as will be acceptable to the nublie

The HERALD will be published once a week, on an imperial sheet, at three dollars per an-nno. The first number will issue on the first of January 1884, or as soon thereafter as practicable, provided a sufficient number of subseribers are obtained to authorize the commence-
