## DESERRED ARTICLES.

From the Payetteville Observer. The following from the Charleston Jourier, will give some explanation of the estraordinary and unparalleled subscription to the Bank of Charleston, which e used in the State of South Carolina, on the 2d instant. The calculation by an intelligent gentleman now in that city is, that in the whole State eighty-eight millions of dollars were subscribed, which required 20 millions to be paid down. A very large portion of this subscription was made by capital flowing in from abroad. The Banks in the State of South Carolina have generally been well managed, especially those in the city of Charleston. isted abroad, in their safety, and the stock of every one is from 12 to 23 per cent. abive par. The Branch of the Battk of the United States being on the eye of closing in that city, after s very profitable employment of its sapital, will leave a fine field, and conducted, must be profitable to the ence in North Carolinal The sub-acriptions to the Stack of the Bank of but for the exertions of some of our influential men. The subscriptions to the new stock of the Bank of Cape ear could not be filled, and yet these Banks are managed by skillful, well tried and able mon. We find no canifal flowing in from abroad, though all are willing to agree that North Caro-Jina has a prodent population.

Whence is this want of consideration, this almost forgetfulness of the State? Her sons are unfaithful to themselves; every thing attached to the State is undervalued; it is no credit den abroad to be known as a North Carolinian, and a blush must mantle the check often when her sons are away, to hear their native State charged, justly charged, with sleepliness and indifference. Can it not be otherwise? If the State has resources, are there not men who will aid in their developement? Will we forever sleep over the blessings which Providence, with a liberal hand has laid before us?-Virginia on the North, is appropriating liberally to improve her condition. The patriotic little State of South Ca-rolina has her Rail Road to Hamburg, 145 miles, in successful operation .-Yow at the close of one year, fulfilling their most sanguine anticipations; the stock 10 to 12 per cent. advance .--Tennessee, the child of North Carolina, is urging her Rail Road improvements. North Carolina, will be left leserted, destitute, forgotten, justly forgotten. Why cannot the members of the Gonvention, composed of the intelligent men from all sections of the State, now assembled at Raleigh, do something? Can they originate no scheme which may unite them, and by the weight of their united influence drive the next Legislature into its a-

feelings of Virginia at the cheat put upon them on the Vice Presidency. run up the Van Buren flag; and how do you think he leaps over the ditch gentle reader? Why, simply thus-"The whigs intend to bring the election into the House-I always was in favor of altering the constitution to prevent that alternative. I hate all conventions, but to prevent an election by the house, let's go the little magi-cian." Here are his words:

N. Y. Star.

"But we must say, over and over again-that we wish hereafter to dispense with all such conventions-We see the evils in which they may involve us [aha! do you?]-the mischiefs they may produce-and we pledge our-Great confidence has always ex- selves once more to the People, to bring up the subject again-and to press it with all our energy upon the State Legislatures. But, there is no the public generally that he has REMOVED his time to aniend the Constitution for the next election-and hence it becomes our duty to unite upon some candidate for the Presidency, and to baffle the there can be very little doubt that the schemes of the whigs, who will run Bank of Charleston, well and skilfully White and Webster-to carry the election to the H. of R .- At present, stackholders. How vast the differ- our sheet-anchor is the nomination of a President by the Convention .- Oho! is it? ] There is no other way to dethe State would not have been filled feat the schemes of the whigs, and the juggles of Intriguers."

> Melancholy Occurrence. We la ment to state that an accident of a most distressing nature occurred at West Point on Monday last, the circumstances of which are as follows: two of the cadets, during the recess of study, commenced amusing themselves by fencing unmasked, and with foils which were unfortunately without buttons at the end. In the course of a few passes one of the young gentlemen, a Mr. Carter from Virginia, (son of the late Captain William Carter, of the Navy) received the point of his antagonist's weapon in the eye, passing through that organ deep into the brain. The unfortunate youth instantly fell, deprived of sense and motion, and remained in that condition nine hours, at the end of which period, notwithstanding the most prompt and efficient medical aid, he expired. Our informant states that the wound, which was in the under part of the eye, had merely t'e appearance of a small scratch, and bled, very little. The young gentleman who unhappily caused the accident, has been almost bereft of reason ever since. He is the son of Captain Kennedy, of the Navy. A singular fatality seems to attend the family of Mr. Carter: this is the third of his sons who have died violent deaths. The elder was killed in a duel, the second came to his death by accident, and the fate of the third is recounted in the above statement.

### Courier & Enquirer. Pensacola, May 30.

Naval.-The U. S. Sloop of war, VANDALIA, arrived here on Thursday morning, from Havanna, which port the left on Sunday last. It is painful duty to add that Com. J. D. HENLEY, late commander of the W. India Squadron, died on board the Vandalia, on Saturday last. His death was very sudden. He spent a part of Friday on shore; came on board, in his usual health, and no alarm was felt concerning him, until two o'clock at night. At two the next day,

University of North Carolina. A meeting of the Trustees of the University of North Carolina, for the purpose of appointing a President of the Institution, and transacting other important business, will be held at the Executive Office, in this city, on Saturday, the 27th instant, at 4 o'clock, P. M: By order.

By order. CHAS. MANLY, Sec. 26 2w Raleigh, June 16, 1835

ROWAND'S TONIC MIXTURE; Or, Vegetable Febrifuge,

### A specific and lasting Cure for the Fever and Ague.

This worthy remedy carnestly repels the slur of being a quack medicine, it having been the result of many years' study, experience, and result of many years' study, experience, and labour, in the medical practice and observation of Ferer and Ague. It is composed of such medicinal principles as were considered most fit to restore the harmony of action between the Stomach, Liver, and the other important func-tions of the system, the loss of which harmony is evidently the immediate cause of the disease. It specify promotes a regular and healthy ap-petite, which is generally catively destroyed or rendered very precarious; by which effect, vigour and strength is soon afforded to the whole system. It must be apparent to all, that

whole system. It must be apparent to all, that a medicine possessing these peculiar virtues, is useful in a great variety of complaints. By renewing the healthy action of the digestive or-gans, it has proved itself of remarkable benefit in Dyspepsia, Depraved Appetite, Heart-burd, Water Brash, Flatulency, Jaundice, Night Sweats, Dysentery, Bowel Complaints, and many other affections of similar origin. But it is in the irrestment of Pevers, and especially in-Fever and Ague, or Intermittent Fever, that its "nowers have been principally tested, and with powers have been principally tested, and with those who have seen its uselulness, it is pro-

nounced sovereign to all remedies discovered for those diseases. It has also been used as a preventive, by many who were ubjet to a periodical recurrence of the Chills and Fever, and it has always warded off the apprehended attack.

The above medicine can be had, wholesale retail, at the Brug Store of WILLIAMS, HAYWOOD & Co. Agents.

PLEASURE CARRIAGES.

ELCONDUCTION OF	101 100	400 110 100

The stock of the new Bank is sel

ling at 34 per cent. advance, and the ptock of the Rail Roan 20 per cent.

From the Charleston Cauger. Subscriptions to the New Bank. The subscriptions to the new "Bank of Charleston," at the final closing of the books, by the Commissioners, in this city, yesterday, at 2 o'clock, P. M. had reached the enormous amount of \$81,180,800, being more than forty times the contemplated capital of the institution. Books were simultaneously opened in the towns of Hamburg, Columbia, Camden and Cheraw, and although it is uncertain to what extent subscriptions have been made in those places, the presumption is that they will swell the total amount to at least

nety millions of dollars. A subscription, so vastly disproper tioned to the capital for distribution, the spirit of speculation has right in the wildest estravagance. Many in-dividual subscriptions have covered dividual subscriptions have covered half, and geveral the whole of the ca-pital of the Bank. The shares to be distributed, amount only to twenty thoroughd in number, at the rate of 100 dollars per share, making s capital of two millions of dolfars, and the first instalment of ane-fourth, or 25 dollars per share, required only 500,000 dol-hars, to be paid dawn—but the num-her of shares subscribed for in Charles-ton alone, is 811,088, and the amount paid into the hands of the Commission-ers, is 20,977,500 dollars, being an ex-cess of 791.088 shares, over the whole number, and of \$19,777,900 over the total amount of the first instalment.

Another Earthquake-An arrival at Baltimore from Valparaiso, brings intelligence that the interesting Island of Juan Fernandez has been destroyed by an earthquake. The town was situated in a valley, and on the first alarm, the inhabitants fled to the mountains. The sea at first receded from the Island, and then returned, overflowed the town, and in its return swept away the houses which had been previously prostrated, leaving on the site

an immense mass of black mud.

Suicide - We learn that Mrs. Osburn, of Davidson county, committed suicide by hanging herself, a few days since. The unfortunate woman is said to have been in a melancholy state of mind for some time previou. to the act. One of the neighbors visiited Mr. Osburn's house on the morning of the fatal day, to whom Mrs. Osburn communicated her intention, no suspicion, however, was created by this rash declaration. But, when finding herself alone in the house, she actually committed the rash deed and was found suspended by a handkerchief fastened to a hook at the ceiling.

Martin Gambill vs. Nancy Gambill. Petition for diverse.

In this case, it appearing to the satisfaction of the Court that the defendant, Nancy Gambill, is not within the reach of a process from this Couty and solemn proclamation having been made, and she not appearing, it is ordered that publication be made in the Raleigh Star and Western Carolinian for three months, calling on the said Nancy Gambill to appear at our next Superior Court of Law to be held for the county of Ashe, at the court house in Jefferson, on the 3rd Monday of September next, then and there to answer the aid petition, otherwise the same will be heard

ex parte, and judgment entered accordingly. Witness, Wm. Baker, Clerk of the said Court, t Jefferson, the 3rd Monday of March, A. It. 1835, and in the 59th year of our Independence, WM. BAKER, Clerk.

By R. MURCHISON, D. C.

### COMMITTED

To the jail in Asheville, Buncombe county, North Carolina, on the 10th instant, a negro man, who calls himself JAMES NELSON. He anys he is a tree man; that an that induce in Augusta, but has not any papers that induce that belief to shew. He is six feet high, hus a tolerably dark complexion, is stout made, sp-pears to have no flesh marks, and speaks low. says he is a free man; that his father lives The owner is requested to come forward, prove property, and pay charges, and take him away; otherwise he will be dealt with as the law diecis.
