PUBLIC MEETING.

WHITE MEETING IN NOCKINGHAM. Pursuant to public notice, a number of the citizens of Rockingham, friend y to the election of Huon L. WHITE for the Presidency, and Jons TYLER for the Vice Presidency, as-sembled in the Court House, on Mon-day, the 23d of May. On motion, Capt James Dilliard was called to the Chair, and Anderson B. Holderby appointed Secretary. The object of the meeting was briefly, but forcibly explained by John L. Leseuer, Esq ; after which the following resolutions were offered, to wit:

We are of opinion that at no former period in the history of our country, as the Presidential election presented itself in a more vitally important aspect to the people of the United States. The principle contended for and acted upon, by the party in power, that the offices and honors of the country, which were created for the public good, are to be used as reward for partizan services, is one, destructive, in our estimation, of all freedom of opinion, as well as purity of action, in public officers. It is a principle which was dis-avowed by all former administrations, and received the decided condemna-tion of the present chief magistrate, before he came into office. We are in the context of a present chief magistrate, before he came into office. We are forther deeply impressed with the vepurity of the elective franchise, from all executive influence or dictation; and have received with deep solicitude the open and undi-guised efforts made by all the departments of the administration to secure the election of a favorite candidate for the Presidency. This we believe is the first instance in which the executive preference has been exhibited, and we are sure it is the first in which that preference has been urged as a reason for the election of that favorite. We believe that if Mr. Van Buren is elected, it will be by Executive influence, and we shall then have the alarming fact in proof, that the President for the time, with the patronage of Government at command, combined with a host of office holders and expectants, may secure the election of his favourite candidate, as his successor, and effectually destroy the elective franchise in our now free, but then enslaved country.

1334673.44

Among the considerations which have influenced us to support Hugh L. White as a candidate for the Presidency, and John Tyler for the Vice Presidency, none have a st onger influence than those growing out of the peculiar situation of the Southern States. An attack has been made upon our rights and our property, by a portion of the citizens of our northern States, (and that portion by no means contemptible in numbers,) who appear determined on mischief. At such a crisis, the importance of having at the head of the national Government, those who are
