POETRY.

[FOR THE STAR.]

"HOME, SWEET HOME!"

Mine be the joy which gleams around
The hearth, where pure affections dwell—
Where *Love* enrob'd in smiles is found
And wraps the spirit with its spell.

I would not seek excitement's whirl,
Where *Pleasure* wears her tinsel crown,
And *Passion's* billows upward curl,
'Neath Hatred's darkly gathering frown.

The dearest boon from Heaven above,
Is *bliss* which brightly hallows *home;*
'Tis sunlight to the world of love,
And *life's pure wine,* without its *foam.*

There is a sympathy of heart
Which consecrates the social shrine,
Robs grief of gloom and doth impart
A joy to gladness all divine,

It glances from the kindling eye,
Which o'er affliction sleepless tends—
It gives deep pathos to the *sigh*
Which anguish from the bosom rends

It plays around the smiling lip,
When love bestows the greeting kiss,
And sparkles in each cup we sip,
Round the domestic board in bliss!

Let other's seek in *wealth* or *fame,*
A splendid path whereon to tread—
I'd rather wear a lowlier name,
With *love's enchantments* round it shed.

Fame's but a *light* to gild the grave,
And wealth can never calm the breast;
But love, a haleyon on life's wave,
Hath power to sooth its strife's to rest.

CHARACTER,

(BETTER BLOOD THAN MANY IMPORTED.)

This fine bred son of Old Sir Archy, will cover mares this season, which has commenced, at my Stable 14 miles N. East of Raleigh, 37 N. West of Smithfield, and 18 S. W. of Louisburg, at the low price of $10 50 the season, and $15 50 to insure. Pasturage gratis; mares grain-fed at 25 cents per day. For further particulars, see hand bill.

CHARACTER is a beautiful sorrel, 5 feet 3 inches high; of great strength and fine action; and is said by those that have seen both, to be a handsomer horse than American Eclipse. His colts are large and likely, and are doing themselves great credit on the Turf.

PEDIGREE.

CHARACTER was got by the justly celebrated Old Sir Archy—his dam by the imported Druid—grandam the famous Old Mark Anthony—his great grandam by the imported Old Jolly Roger, out of a thorough-bred Race mare.

N. B. Character will be for sale at the end o the season. SETH JONES.

WINDSOR HOTEL.

The subscriber has purchased the large and extensive tenement, lately occupied as a Tavern, by Dr. William Watson, in the town of Windsor, Bertie county. There is probably no House in the eastern part of North Carolina, which is more commodious than this Hotel. A large part of the establishment is entirely new, and very extensive. The subscriber pledges himself that every attention shall be given to the comfort and convenience of his guests. His table and bar shall be supplied with the best which the country affords; and his stables are supplied with good provender and attentive ostlers.

Marks's Ointment FOR THE CURE O F PILES.

The subscriber begsleave to offer to the attention of those who are subject to that most disagreeable of disorders, the Piles, a remedy, the efficacy of which has been tested by the experience of years, and the utility of which has in no instance been impaired from failure to relieve. For those who have been subjected to this disease, it will prove, if applied when re-attacked, a sure preventative to its continuance, *without the least pain;* indeed many have pronounced it the most agreeable remedy ever applied. There can be no danger in its use as its component parts are of harmless vegetable matter.

The mother of the subscriber who is the maker of the ointment, has been in the habit of giving it to her friends and neighbors for the last five or six years, and in no instance to her knowledge has its application been ineffectual, as will be seen by a number of certificates annexed, as well as the testimony of a medical gentleman who has used it himself, and prescribed it to the relief of others

Those who are suffering will do well to make a trial of the remedy. Its efficacy is guaranteed, and there can be no doubt but that the disorder may be arrested in its earliest state, if no delay be made in its application.

The directions for use will be found on each bottle. SAMUEL H. MARKS.

Petersburg, Va., Aug. 22, 1836.

I have used the Pile Ointment prepared by Mrs. Marks, and prescribed it to others, with the happiest effect. I therefore can recommend it to those afflicted with that disagreeable complaint —the Piles. L. WHITE, M. D.

Prince George County, July 3d, 1836.

Mr. S. H. Marks:

Dear Sir; In compliance with your request I will inform the public that I have had two members of my family frequently attacked with the Piles, and from an ointment that I obtained from your mother, they have in all cases found entire relief with a few applications.

JESSE HEATH.

Prince George County, Aug 18, 1836.

Mr. Sam'l. H. Marks:

Dear Sir: Yours of the 17th instant was duly received, and it affords me pleasure to comply with your request. I have been afflicted with that disagreeable disorder, the Piles, and also my negro man, and I obtained from your mother the ointment that you offer to the public, and in all attacks both my man and myself have found entire relief. In addition to the above experience, I have given it to some of my friends, and I have never known it to fail giving relief. I would recommend this ointment to those who are subject to this disagreeable disease, as an efficacious and agreeable remedy.

I am yours respectfully, JOHN McBROOM.

Richmond, July 16, 1836.

Sir: I received yours of the 12th inst., you wish me to inform you of my situation at the time that you gave me a bottle of your Pile Ointment, and what effect it had on me.

I had the piles as bad as any person could have hem—so much so, that I could not attend to my daily labors; and in truth, I could scarcely get out of my room. I commenced with your ointment, and in three or four days, I was entirely relieved. I would recommend it to the public, as being one of the most excellent remedies that was ever offered to the public.

WILLIAM CARSON.

Petersburg, Aug. 19, 1836.

Mr. S. H. Marks:

Dear Sir: I take pleasure in informing the public, that I was very badly afflicted with that disagreeable disorder, the Piles, and I obtained from you, a bottle of your ointment, and in a few days the disease was entirely removed. I would recommend it as an infallible remedy. JAMES T. MURPHY.

Petersburg, 19th Aug. 1836.

As a duty I owe to Mr. Marks I will inform the public that I have been badly afflicted with the disagreeable disorder, the Piles, and I obtained from him a bottle of his ointment, and I must say that I have never used any thing that has given me so much relief. I would recommend it to the public as being one of the most agreeable and efficacious remedies that can be used. S. M JACKSON.

Granville County, N. C., March 10, 1837.

MR. EDITOR: Permit a subscriber to say, through your useful paper, to his friends and the public, that he has for the last four years, been sorely afflicted with a disease of the Kidneys; so as very frequently to discharge a large quantity of clear blood from the urethra; and so debilitated had my system become, that I despaired of recovery, for I had employed two eminent physicians, and got other medical advice, but received only momentary relief from them.

Recently, I employed my neighbor Samuel Duty, a Thomsonian practitioner, whose remedies have had a happy effect. I feel that my urinary organs are relieved, and my whole system is fast regaining its usual vigor; in fact, I have arisen from a state of diseased despair, to good health.

I feel confident, from what I have seen in others, and realized in my own person, that the practice of Mr. Duty is safe and efficacious.

I make these declarations with a view of benefitting the afflicted, regardless of any sneer from persons hostile to Thomsonianism.

NAVY COMMISSIONERS' OFFICE, March 18, 1837.

LIVE OAK TIMBER.

Sealed proposals will be received at this office until 3 o'clock P. M. of the 1st day of July next, for the supply of Live Oak Timber, as follows:

No 1. For the frame timber, beam and keelson pieces, and for the promiscuous timber which may be directed, for one ship of the line, one frigate, two sloops of war, (one of each class) and one smaller vessel: to be delivered at the Navy Yard near Portsmouth, N. H.

No 2. For the frame timber, beam and keelson pieces, and for the promiscuous timber which may be directed, for one ship of the line, one frigate, and one steamer: to be delivered at the Navy Yard at Charlestown, Massachusetts.

No 3. For the frame timber, beam and keelson pieces, and for the promiscuous timber which may be directed, for one ship of the line, one sloop of war, large class, one small vessel and one steamer: to be delivered at the Navy Yard, Charlestown, Massachusetts.

No 4 For the frame timber, beam and keelson pieces, and for the promiscuous timber which may be directed, for one ship of the line, one frigate and one steamer: to be delivered at the Navy Yard, Brooklyn, N. Y.

No 5. For the frame timber, beam and keelson pieces, and for the promiscuous timber which may be directed, for one ship of the line, one sloop of war, large class, and one steamer: to be delivered at the Navy Yard, Brooklyn, N. Y.

N. 6. For the frame timber, beam and keelson pieces, and for the promiscuous timber which may be directed, for two sloops of war, small class, and two steamers: to be delivered at the Navy Yard, at Philadelphia.

The quantity and dimensions of the promiscuous timber for each vessel, of each class, is as follows:

For each ship of the line 6,000 cubic feet; which must be sided 15 inches, and be from 12 to 20 feet in length, six of the longest pieces to side 22 inches.

For each frigate 3,000 cubic feet; which must be sided 15 inches, and be from 12 to 20 feet long, six of the longest pieces to side 19 inches.

For each sloop of war 1,500 cubic feet; which must be sided 12 inches, and be from 12 to 18 feet long six of the longest pieces to side 16 inches.

For each steamer 1,500 cubic feet; which must be sided 15 inches, and be from 12 to 18 feet long, six of the longest pieces to side 16 inches.

For each small vessel 800 cubic feet; which must be sided 8 inches, and be from 10 to 16 feet long, six of the longest pieces to side 12½ inches.

A part of the promiscuous timber may be got to larger dimensions, provided the pieces will answer for replacing defective hawse pieces, transoms, breast hooks, or other valuable pieces.

Separate offers must be made for each of the preceding numbers, and each offer must embrace all the timber that is called for by the number to which it refers; the prices asked per cubic foot must be stated separately for each and every class of vessels embraced in the offer, and for the promiscuous timber of each class separately from the other; all of which other is considered moulded timber.

At least one-fourth of the whole quantity of timber embraced in each offer, comprising a fair proportion of the most valuable pieces, must be delivered on or before the last of March, 1839; one-half of the remainder on or before the last of March, 1840; and the whole quantity on or before the last of March, 1841; and if the above proportions shall not be delivered at the respective times above specified, the Commissioners of the Navy reserve to themselves the right of cancelling any contract, in the execution of which such failure may occur, and of entering into new contracts, holding the original contractors & their sureties liable for any excess of cost, and other damages, which may be thus incurred.

The said live oak timber must have grown within twenty-five miles of the seaboard, (which must be proven to the satisfaction of the respective Commandants,) must be got out by the moulds and written directions, and specifications of dimensions, &c which will be furnished to the contractors for their government, and must be free from all injuries and defects which may impair the good quality of the said timber for the purpose for which it is required by contract, and be in all respects satisfactory to the Commandants of the respective navy yards where it is delivered.

Bonds, with two good and responsible sureties (whose names must be forwarded with the offers) in the amount of one-third the estimated value of the timber to be furnished under the respective contracts, will be required, and as collateral security for the faithful compliance with the terms, stipulations, and conditions of the said contracts, ten per centum will be reserved from the actual amount of each payment which may be made from time to time, within thirty days after bills shall be duly approved and presented to the Navy Agent, until the said contracts are completed and closed; which reservations, respectively, will be forfeited to the use and benefit of the United States, in the event of failures to deliver the timber within the respective periods prescribed.

The moulds will be furnished to the contractors at one of the navy yards, Brooklin, Gosport, or Philadelphia.

To be published twice a week, until the 15th of June next, in the National Intelligencer, Globe, Eastern Argus, New Hampshire, Gazette, Boston Morning Post and Commercial Gazette, New York Times, New York Evening Post, Trenton Emporium, Pennsylvania, American Sentinel, Richmond Enquirer, Norfolk Herald, Raleigh Star, Charleston Patriot, Georgian, Pensacola Gazette, Louisiana Advertiser, and Mobile Register.

LIVE OAK TIMBER.

Sealed offers, endorsed "Offers for Live Oak for small vessels," will be received at this office until 3 o'clock P. M. of the first day of June next, for the supply of Live Oak Timber as follows viz.

No. 1. For the frame timber and keelson pieces, and the promiscuous timber for one sloop of war, (small class,) to be delivered at the Navy Yard, Charleston, Massachusettes.

No. 2. For the frame timber, keelson pieces, and the promiscuous timber for one sloop of war, (small class,) and one smaller vessel, to be delivered at the Navy Yard Brooklyn, New York.

No. 3. For the frame timber keelson pieces and promiscuous timber for one smaller vessel, to be delivered at the Navy Yard Philadelphia.

No. 4. For the frame timber, keelson pieces, and promiscuous timber for one sloop of war, (small class,) to be delivered at the Navy Yard, Washington, District of Columbia.

No. 5. For the frame timber, keelson pieces, and promiscuous timber for one sloop of war, (small class,) to be delivered at the Navy Yard, Gosport, Virginia.

The quantity and dimensions of the promiscuous timber for each vessel of each class is as follows:

For each sloop of war, 1,500 cubic feet, which must be sided twelve inches, and be from twelve to eighteen feet long; six of the longest pieces to side sixteen inches.

For each smaller vessel, 800 cubic feet, which must be sided eight inches, and be from ten to sixteen feet long; six of the longest pieces to side twelve and a half inches.

A part of the promiscuous timber may be got to larger dimensions, provided the pieces will answer for replacing defective hawse pieces, transoms, breast hooks, or other valuable pieces.

Separate offers must be made for each of the preceding numbers, and each offer must embrace all the timber that is called for by the number to which it refers; the prices asked per cubic foot must be stated separately, for each and every class of vessels embraced in the offer and for the promiscuous timber of each class separately from the other; all of which other is considered moulded timber.

The whole to be delivered before the first day of July, 1838, and as much sooner as practicable.

The said live Oak Timber must have grown within 25 miles of the seaboard, (which must be proven to the satisfaction of the respective commandants,) must be got out by the moulds and written directions and specifications of dimensions, &c. which will be furnished to contractors for their government; and must be free from all injuries and defects which may impair the good quality of the said timber for the purposes for which it is required by contract, and be, in all respects, satisfactory to the commandants of the respective navy yards where it is delivered.

Neuse River Cotton Seed Oil Works.

These extensive Works, the Subscribers have the pleasure of announcing to the people of North Carolina, are now in full and complete operation. In addition to the works first erected, they have added greatly to their machinery, which is now capable of making TWENTY THOUSAND GALLONS OF OIL per annum. The Southern market can now be supplied with a first rate Lamp and Paint Oil. The Cotton Seed Oil has been known and used with great success in Virginia and further North, for the last seven years, and pronounced one of the best Paint Oils now in existence. The Oil possesses a heavy body, and a building painted with it will last one third longer than one painted with linseed Oil. A single word will satisfy the most fastidious on this point.

The Linseed Oil possesses a light body, and wood being porous, it absorbs the Oil and leaves the lead to wash off by rains; not so with the Cotton Seed Oil, which possesses a heavy body and a proportion of mucilage, which, when mixed with lead, forms a solid and substantial coat that will stand the Summer's sun and Winter's storms. As a Lamp Oil, it has no equal, and is free from that disagreeable smell which arises from Fish Oil. The Cotton Seed Oil gives a brilliant light and will burn twenty per cent longer than the best Sperm. This fact has been ascertained by the Subscribers, and will only need trying to satisfy those who are in want of Lamp or Paint Oil.

The following direction is to be observed in using the Cotton Seed Oil as a Paint Oil: To every gallon of Oil, add half a pound of Litharge, and mix well.

Oil, can be had at the Oil Works, or on application to either of the Subscribers in Raleigh.

All orders from the country, promptly attended to. W. F. CLARK,
