THE TIME-PIECE .- We copy from Gov. Evenerr's Addres, before the Massachusetts Charitable Association.

in all their relations, of the invention of the latother modern instrument, far the measurement of time, various specimens of which are on exhibi-tion in the halls. To say nothing of the importame of an accurate measurement of time in astronomical observations, nothing of the undiention of time-keepers to the put pages of errigition -how vast must be the aggregate effect on the affairs of life, throughout the condited world; and, in the progress of ages, of a contenient and ports' e apparatus for the sauring the lause of time! Who can calculate in him many of those erdical junctures when the affairs of weightest import hang upon the issue of an hunr, poutence and foregest have triumphed over blind captaley. by being enabled to measure with precision the flight of time, in its am Heat subdiv. since!

Is it not something more than more mechanism, which watches walt us to the sick bed of some dear filed, through the livelong salgude of sight, enabling us to count, in the slackening pulse, Nature's trembling steps toward recurery, and to a lumister the prescribed remedy at the precise, perhaps the critical anomat of its application! By means of a watch, ponetoalny in all his duties, which in its prefection is one of the incommunicable attributes of Derry, is brought, in no mean measure, within the reach of man. He is consider, if he will be guided by this, to intimate that subline precision which led the earth, after a cargon of five hundred tribions of miles, back to the solstine at the appointed moment without the loss of one scennil, no, not the million h part of a second, for the ages on a-ges during which it has travetted that must. What a miracle of art, that a man can teach a few brass wheels, and a little peice of elastic steel, to out estendate himself, to give him a ra-tional answer to one of the most important ques-tions which a being travelling towards elemity can ask! What a miracle that a mair can put rithin the a' it ers chine a spirit that me fures the flight of time was greater decuracy than the unwhich watches and moves when sleep palaies slike the hand of the maker and the mind of the sanfriver, as , when the last sie p has some o-

- Exchange. - The New York Journal of Commerce of Saturday states that the quantity of exchange which lay over from packet day was large, and the anxiety of sellers to dispose of their bifts before the sailing of the packets was such, that the price was depressed on Friday morning to 10? per cent preimum, or only one per ct. above par. Specie is coming into New York in all directions and going out at none. A schooner from Havanna on Friday brought \$28,000; the back Ann Eliza from Vera Cruz 856, -000. The last packets for Liverpool, London and Havre, have taken none, and beyond all question a current of coin will soon set in upon us from all those ports.

STONY HILL ACADEMY.

exercises will commoned again at this Monday in January, and terminate Board 15th June. The entire expenses, for Board, Tuition, &c. will be \$50 per session. — Boaks and Candles, when lurinshed, will constitute the only extra charge. In this Institution are taught the Latin and tireek Languages, with the various branches of a Mathematical and English Education. Those who intend a course at

aded by the Faculty of our University Stony Hill is well situated, and has many advantages for the studious. It is retired, in a country: free from the noise and bustling of town and rillage distractions; a suffiiency of comfortable and convenient roomy; a well selected and growing library, belonging to and under the direction of the students; a well conducted debating society, under their awa regulations, from which all political and religious discussions are excluded. Italso has many advantages to the satisfaction and interest of Parents: their sons are treated with kindness and mildness, at the same time they are made to behave themselves. Their health and confort, as well as education and deportment, are attended to, no idling, contracting debts, nor vicious indulgences. Thus, whilst the studious and thoughtful find many things to interest them, and their situation agreeable and comfortable; whilst they enjoy themselves, and are happy in the prosecution of their studies; the idle and vicious become restive, long to be free from a proper restraint, and, by artifice, frequently im-pose on their credulous and unsuspecting pa-rents; thereby leaving the studious in the full enjoyment of their quet, and the possession of those advantages which none but the studious care for or know how to appreciate.

Parents are requested to visit the school frequently. Address at Banton's Bridge, N. C. M. R. GARRETT.
