TO MOTHERS AND NURSES. The passage of the l'each through the gams produce treathle some and dangerous symptoms. It is known by mathers that there is great irritation in the amount and gams, desting the process. The gams swell, the scoretion of salive is increased, the child is seed with frequent and sudden fits of crying, watchings, starting in the steep, and spassas of peculiar parts; the child shricks with extreme violence, and thrusts in fingers into its mouth. If these precursory symptoms are not speedify alleviated, spasmodic convulsions universally supervene, and acons cause the dissolution of the infant. If mothers who have their little balors off eted with these dis cause the dissolution of the infant. If mothers who have their little babes afficted with these distressing symtoms, would apply Dr. Walliam Evans Celebrated Scottling Syrup, which has preserved bundreds of infants when thought past recovery, from being suddenly attacked with that latal malady appropriates.

A Real Blessing to Mothers. Dr. W. Evans' Celebrated Southing Syrup, For Children Culting their Trella.

This infallible remedy has preserved hundreds of Children, when thought past recovery, from somethious. As soon as the Syrup is rubbed on the guans, the child will recover. This preparaconvulsions. As soon as the Syrup is rubbed on the guest, the child will recover. This prepara-tion is so innocent, so effications, and so pleasant that no child will refore to let its guests be rub-hed with it. When intents are at the age of four months, though there is no appearance of teeth, one buttle of the Syrup should be used on the guest, to open the pures. Parents should nasses, be without the Syrup in the nursery where there are young children; for if a child wakes in; the night with pain in the guest, the Syrup immedianight with pain in the guns, the Syrup immedia-niety gives case by opining the pores and healing the guns; thereby prevening Goovulsions, Fe-

a Important to Mornens -Children generally suffer much uneasiness from the entire ally suffer much uneasiness from the cutting, of facir teeth. Whatever dangerous or fatal symptons attend this process of nature they are produced invaribly from the highly critated and luft med condition of the parts—therefore the principal indications of cure are to abute the inflammation, and to soften, soothe, and relax the guns. If that is effected the infant is preserved from subsequent fever, inflatulation, spasmodic sough twitching of tendons, croop, canker, and accountaions, displaying their latal consequences. If mothers, nurses, or guardians have their babes tortured with painful and promoted dentition, and this notice attracts their attention, they should ture they are of this posice attracts their attention, they should t be deterred from purchasing a bottle of EVAN'S SOOTHING SYRUP

for Children Teuthing, the incomparable virtue of which, in completely relieving the most distressing enses (when applied to the infant's gums as directed) is invaluable. The remedy has restored thou ands of children when on the verge of the grave, to the embraces ugain of their dis-tracted purents, stucked with that awful and mortiferous malady—convulsions.
