the Advisory Budget Commission for the Council of State in required approval of allocations from the contingency and emergency fund, and would further require Advisory Budget Commission approval of allocations by the governor of surplus highway funds. The two provisions are not the same, and there might be some justification for Advisory Budget Approval of highway allocations, for the reason that the money involved has never been appropriated, and appropriating money—like levying taxes—is a legislative function. Many authorities have pointed out that

budget, commission meddling with contingency and emergency funds overlooks or deliberately violates the distinction between executive and legislative provinces. The C & E fund having been appropriated and general rules for its use having been set up by the General Assembly administration of the fund becomes wholly an executive matter.

her in with the power off," Austin said.

The hydraulic system controlling the plane's landing gear failed when the power was cut and Austin landed with his wheels up. Friction set two wingtip gas tanks adrift as the plane skidded down the concrete runway.

Airport firefighting units prevented complete loss of the plane.

representative began steps to have the bill re-passed.

**DUNN, ERWIN MAY NEGOTIATE**

Purely permissive in its scope, the bill, which will become law upon ratification tomorrow or Wednesday, allows the Town of Dunn to enter into negotiations with the Erwin Cotton Mills Company to lease or purchase the water distribution and sewerage systems.

The act also provides that water rates to be charged Erwin citizens by Dunn will be fixed by the State Utilities Commission.

The Utilities Commission last

lence and necessity so that the mills may comply with State law in levying a minimum monthly charge of \$1.50 for water used by Erwin residents, who have purchased their homes from the mills.

Under the contract the Erwin Mills entered into with the Town of Dunn more than 25 years ago to furnish water to Erwin, the mills management was authorized to make a monthly charge of \$1.50 for water used by Erwin residents in their homes. But the Erwin Mills never put such charge into effect until it had to do so under the law when Erwin residents began purchasing their homes.

south of Lillington in southeasterly direction for 3 miles and serves 18 families, one store, one church and one beauty parlor.

The other road from U. S. 15A, 1.4 miles north of Chalybeate Springs 1.5 miles west to the O. C. Whittington residence and serves 16 families.

Officials released George Baker of Fuquay Springs, Route 1 from poll taxes because of disability.

They ordered that the wells subsistence of George Thomas and his wife, both Negroes, be increased from \$15 to \$25 a month from now until July. Both are incapacitated.

Harnett Representative Carson Gregory met with the commissioners and told them of a measure now before the General Assembly which would increase terms of office for county commissioners from two years to four years.

Members of the board indicated their approval of this change in the law.

Chairman Lofton A. Tart was absent again because of illness. Members of the board expressed pleasure at a report stating that Chairman Tart's condition is improved. He is now at his home in Dunn.

the communists even attempt to delay the Allied approach. There Allied patrols advancing up heavily-mined roads in the Pukhan Valley north of Chunchon ran into heavy fire from a strong enemy defense position in rugged mountains just south of the Parallel.

U. S. tanks and infantry crossed the Parallel on the west-central sector northeast of Seoul for the third time in two days. They routed two small Chinese rear-guard forces dug in south and west of the village of Yangong.

**CAUGHT OFF GUARD**

The Chinese were caught with their mortars pointing in the wrong direction. Expecting a repetition of Saturday's crossing along a main highway, the Chinese still were facing west when the American armored team hit them from their eastern flank.

The Yanks killed 14 Reds, wounded 24 and routed the Saturday's two border crossing survivors before returning — as did patrols — to stronger positions south of the Parallel for the night.

On Sunday afternoon, a foot patrol from the same American outfit probed to within a half mile of the Parallel to exchange fire with about 25 Chinese across the pre-war frontier.

Allied forces on the western front moved up unopposed into weather-beaten frontier emplacements that marked the South Korean defense line before the communist invasion last June 25.
