

Reds Lose

(Continued From Page One)

particularly in the east. "The pressure on the 2nd Division has lightened considerably but the enemy potential for another blow is still there," an 8th Army spokesman said.

The Chinese threw fresh troops from an estimated four reserve divisions against the reinforced 2nd Division in eight separate attacks along a 20-mile front yesterday—and late today.

The Reds drove two shallow wedges into the UN line on either side of Pungnam, 20 miles south of the 38th Parallel, but savage American and South Korean counter-attacks prevented a breakthrough.

Allied bayonets, machine-guns, grenades, shells and bombs left the battlefield literally covered with enemy dead and wounded, a front dispatch said.

"Each new charge only covered the Communist dead with more bodies," it said.

The Communist attacks ceased soon after dawn.

United Press War Correspondent Glenn Stackhouse reported from the front that the 2nd Division has yielded only five miles to the Reds since the start of the enemy offensive last Tuesday night.

"Any time the Chinese want to swap tens of thousands of casualties for five miles of Korea, we're willing to make the deal," a division staff officer told Stackhouse. "If they call that saving face, they can have it."

On the west-central front, British and U. S. patrols seized high ground southwest of Chongpyong, 24 miles east northeast of Seoul and 18 miles south of the 38th Parallel.

Accidents

(Continued From Page One)

Angier, Rt. 2, had left the road and crashed into a tree. Slaughter was taken to Good Hope Hospital in Erwin to be treated for cuts, bruises and shock. He was later released.

Slaughter will be charged with driving drunk and careless and reckless driving, the patrolman said.

At 11:10 on U. S. 210 near Cumberland County, officers investigated a mishap involving three cars. Charles Fisher, 20, Negro soldier of Fort Bragg, was placed in Harnett County jail in default of \$200 bond on a charge of careless and reckless driving after officers found Fisher's car had hit two others. Leonard said Fisher told him that he ran up behind a line of traffic which was slowing down, failed to stop and crashed into the rear of a Ford driven by William D. Hicks, 24, of Raleigh.

He then crossed into the left lane of traffic and smashed into a 1948 Studebaker driven by Archie Lee Disher of Fort Bragg. The car Fisher was driving was owned by James Edward Golden of Fort Bragg. Damage to Fisher's and Disher's cars was about \$200 each. The Ford suffered about \$40 damage.

Earlier Saturday afternoon a 1941 Chevrolet driven by Charles Rex O'Brian, 19, Bunnlevel, Rt. 1, was overturned and badly damaged when it hit a produce truck as the car was entering U. S. 15-A. The truck driver, Raymond Matthew Lindsey, 37, of Danville, Va., was charged with driving after his operator's license had expired.

Federal Trial

(Continued From Page One)

duced a copy of a new law which states that evidence secured without a search warrant is incompetent and not admissible in court.

Vice Recorder M. O. Lee had no choice but to acquit Womack.

Federal agents stepped in, however, and have charged that Womack was violating Federal liquor laws.

Womack is expected to plead former jeopardy. He is free under \$500 bond.

Corporal O'Daniel said this morning that the man will be given a hearing next Monday before Mrs. Mollie Adams Jackson, local United States Commissioner.

Teacher Dies

(Continued From Page One)

Brown held for further investigation by the grand jury, which convenes Monday morning.

Members of the coroner's jury were: J. R. Baggett, Sam C. Mann, Leroy Taylor, Joe Caviness, Jr., Thomas A. Johnson and C. E. Vaughan.

Miss Edwards died instantly of a broken spine and internal injuries. Mrs. Fortinbacker suffered from shock and minor injuries. Other witnesses who testified, in addition to the patrolmen, were John Maternas, John Lewis Brown and Sadie Brown.

There were no eye witnesses.

Funeral services for Miss Edwards were held at 4 o'clock Monday afternoon at the Tabernacle Baptist Church in Raleigh. D. F. O. Mixon, pastor, officiated. Burial was in Mont Lawn. The body lay in state at the Mitchell Funeral Home Chapel until the hour of service. Miss Edwards, 22-year-old daughter of Mr. and Mrs. G. G. Edwards of 217 Pace Street, was a graduate of Peace College and Meredith College. She was a member of the Lillington School faculty, and was a very active member of the Tabernacle Church, teaching for a number of years in the beginners' department. Pallbearers were the following cousins of Miss Edwards: Elmo Atkins, Luther Atkins, Everette Edwards, Jr., Charles Cross, Clarence Edwards and Frank Ivey. Surviving are her parents and one brother, Phillip Edwards of Raleigh.

ness management of the farms. Responsibility for supervising the experiments and running tests is in the Central Experiment Station and State College. In other words, the state department handles the physical and business administration, the college and experiment station handle the scientific and technical phases of the operation. The co-operative plan has worked well for fifty years. The test farm division in the department of agriculture, headed by Dr. Cecil Thomas, has general supervision of all the farms, each of which has a resident superintendent.

LOCATION—The seven principal units are designated and located as follows: Tidewater Farm near Plymouth in Washington county; Coastal Plains Farm at Willard in Fender county; Upper Coastal Farm near Rocky Mount in Edgecombe county; Tobacco Farm near Oxford in Granville county; Piedmont Farm near Statesville in Iredell county; Upper Mountain Farm near Laurel Springs in Ashe county; and Mountain Farm near Waynesville in Haywood county. There is a sizeable operation at McCullers in Wake county, and negotiations are under way for the establishment of a peanut farm at a suitable point in the peanut area. Also each of the main farms has collateral activity on smaller plots called outlying plots. The principal farms embrace 2,672 acres of land and have estimated inventory value, including land, buildings, equipment and supplies of more than a million dollars. The annual operating budget ranges from \$250,000 to 300,000, not including salaries of the scientists and technicians.

UNKNOWN—Casual inquiries among friends convinced your reporter that a great many North Carolinians have no knowledge of the functions of these test farms. In fact, many people do not know they exist. So, your reporter plans to visit each of the farms this summer as circumstances permit and give you at least a partial story of activities at each, concluding early in the fall with a story on Central Experiment Station and laboratories at Raleigh.

FIELD DAYS—These visits will be made as nearly as possible on days when a lot of other folks are visiting the farms. It is long established policy to encourage farmers to come and see what the research scientists are trying to do. In that way the farmers get to know why some new practices are improvement over the old customs of cultivation, and also there is opportunity for active questions and tentative answers illustrated by visual contact with the running experiments. Weeks ago Dr. Ralph Curran, director of Central Experiment Station, worked out a schedule of farm visits to most of the main farms and many of the small branch stations running through May, June and July.

SPECIALIZED—Some of the farms will be visited several times. In order to serve the specialized needs of the farmers, custom used to be to store one "field day" for each farm. That meant the farmer interested only in wheat had to stick around all day while other farmers were getting needed information on cotton and tobacco and corn and strawberries, hogs and chickens. The new plan is to devote one day at the farm to one subject, giving sufficient time to discussion so that the interested farmers can really get something of value out of the trip. A court-martined professor at State College expressed it this way: "We used to fire a blunderbuss at the convay and hope to get a bird; now we aim at one bird—and eat better."

Mayor

(Continued From Page One)

but Mayor Hanna indicated this morning that the office will be left vacant. It had been expected that City Clerk Charles Storey would be named acting city manager.

The board is expected to reappoint Mr. Storey as city clerk and also to rename I. R. Williams as city attorney. Other appointments will be up to the new city manager.

Patrolmen

(Continued From Page One)

ed by Georgiana Joan Tripp of Norfolk, Va.

O'Daniel said the woman claimed she made a turn signal with her mechanical indicator and was starting to turn left into a side road when Bass struck her from the rear.

Damage to the Lincoln was set at \$250 and to the Oldsmobile at \$175. Bass is scheduled to appear in Dunn Recorder's Court Thursday morning.

Patrolman David Matthews reported minor damage in two accidents Saturday and Sunday, Saturday afternoon about 2 p. m. a 1948 Chevrolet pickup truck driven by John Kelly Faircloth, 18, of Dunn rammed into the rear of a 1949 Mercury sedan driven by Dural Lee Fish, 19, of Dunn, Rt. 2, between Dunn and Erwin.

According to the patrolman, both vehicles were in a line of traffic headed toward Dunn when the lead car turned abruptly. The truck then smashed into the rear of the other machine. Damage to the truck and car were set at \$100 and \$25 respectively. No charges were preferred.

Two more cars suffered light damage Sunday afternoon when they ran together on Highway 217 between Erwin and Linden, Matthews said.

Clady Bell, 28-year-old Negro of Linden, Rt. 1, driving a 1938 Ford coupe, struck a 1948 Nash taxi driven by James Bennon McLean of Erwin while attempting to pass the other car. McLean was going to turn left at the time he was struck, the patrolman said.

Damage ran to about \$50 to \$75 for each machine, said Matthews. No arrests were made.

YOUNGSTOWN KITCHENS
JET-TOWER DISHWASHER
Completely Modernizes Dishwashing!

World's Largest Makers of Steel Kitchens develops new principle that will change all your ideas about dishwashing... bring more practical help into your daily life than came when the vacuum cleaner modernized house cleaning!

The Youngstown Kitchens Automatic Dishwasher brings you really practical, efficient, automatic dishwashing... Ready to take FIRST PLACE among your other modern appliances... to bring you the greatest help a housewife ever had.

Before you've tidied up after a meal (just 9% minutes after you close the lid) this new marvel will have done the hard, boring work!

Your Youngstown Kitchens dealer is ready to show you proof. Hurry—for every day you wait, you're doing lots of work that you no longer need do!

AMAZING JET-TOWER WITH EXCLUSIVE HYDRO-BRUSH ACTION

Revolutionary idea completely modernizes dishwashing! 64 swirling jets of booster-heated water brush-flush every hollow of every dish. Then a piping-hot double rinse, all in 9% minutes (normal water pressure)—automatically, electrically!

Two Grand Models!
Electric Sink—Automatic Dishwasher combined with beautiful 48" Cabinet Sink.
Automatic Dishwasher—In beautifully styled 27" cabinet.

4 Easy steps end your hand-dishwashing drudgery

1. SCRAPE loose food waste into opening of Youngstown Kitchens Food Waste Disposer or receptacle.
2. PLACE dishes in Dishwasher.
3. START by flicking the switch. In 9% minutes, the lid pops open.
4. THAT'S ALL—your dishes are done automatically!

HOPALONG CASSIDY

IF THOSE GENTS WHO WERE CHASIN' YOU WEREN'T TH LIK, THEY LOOKED LIKE 'N' NEXT THING 'N' IT, STRANGER.

THAT HITS IT PRETTY CLOSE, MISTER... BUT WHERE ARE YOU TAKIN' ME?

TO A SHORT CUT OUT OF HERE, 'YUVE GOT A BAD WING. IT NEEDS DOCTORS.

FOLLOW TH' COACH TRAIL TO BUCKARIN. LOOK UP DOC WILEY AN' TELL HIM BRAND SENT YOU. HELL WATCH YOU UP, WITH NO QUESTIONS ASKED.

THANKS, BUT WHAT ABOUT CASSIDY?

FORGET 'N' THEY WON'T CARE SO LUCKY.

BRINGING 'F FATHER

I'M SO GLAD YOUR FOOT IS ALL WELL AGAIN --

DON'T TALK ABOUT IT-- I DON'T WANT TO BE REMINDED OF IT --

NOW--WHO COULD BE CALLING AT THIS HOUR?

I DON'T KNOW-- YOU HAVE ALL THE RELATIVES!

UNCLE BEN!!

I SPRAINED MY ANKLE AN' HEARD YOU DID TOO-- SO I CAME OVER TO FIND OUT WHAT TO DO--

LIL' ABERNETHY

AN-H-H-H-- THIS TRIP IS SO RELAXING. MY DOCTOR SAYS THE SLIGHTEST EXCITEMENT WILL FINISH ME!!

AWK-K!! GASP!! RATTLE!!

SHE WARN'T ON THAT CAR, PAPPY, DEAR-- NOBODY THAR, BUT A DAID OLE LADY!!

CUZZIN'!!

THANKS OUR

Snuffy Smith

YORE IN LUCK, LETTLE CRICKET!! I'M GOIN' TO LET YE BE TH' FUST HUMARIN BEIN' ON TOP OF THIS GREEN AIRTH TO RIDE IN MY WINTON CONVERTIBLE

ARE YE PLUMB SHORE IT'S SAFE?

WAAL-- IF YE SAY SO, INVENTIN' WINTON--

WHY, SHORE IT'S SAFE, GAL!!

UH-- WHO'S YORE NEXT OF KIN?

MICKY MOUSE

OKAY!

NOW THIS IS THE BIG FAREWELL SCENE... YOU SAY GOODBYE TO YOUR HORSE MYRTLE SUB!

REMEMBER... YOU'RE BOTH VERY SAD GIVE ME LOTS OF EMOTION!

CAMERA!

GO LONG, OLD PAL! I...

NO! NO! THAT'S THE WRONG EXPRESSION, MYRTLE SUB!

Blondie

WHOOOPS

SHAME ON YOU, DAGWOOD... REMEMBER, YOU'RE THE ONLY HUSBAND I HAVE

A FATHER WITH NINE MOUTHS TO FEED SHOULD BE MORE CAREFUL

BUT DEAR-- IT'S IMPOSSIBLE TO FALL OFF A LADDER CAREFULLY

NANCY

HOW'S BUSINESS?

AWFUL.

YOU SHOULD PICK A GOOD LOCATION--- LOOK AT THE MONEY MR. JONES MAKES WHERE HE IS

LEMONADE 1¢ A GLASS

LEMONADE 1¢ A GLASS
