# Sixth Graders Have Teacher From London

MISS HORTON'S 6TH GRADE

This year we have a very nice teacher from London, England. Our teacher's name is Miss Horton. We are enjoying her very much. She has been telling us about her country and city. They are very interesting.

In our class room we are having literature stories. Miss Horton is reading us now about Oliver Twist by a famous writer called Charles Dickens. This story is very exciting. We are also making designs from numbers and letters by burning them around and upside down. After we finish drawing the designs, we are going to paint and color them.

We are very interested in our new lunchroom. We can hardly wait to move in. We know we shall enjoy it very much.

We painted our blackboard green. They look very nice now.

Our teacher is teaching us to make hot mats out of string. They are very pretty and very nice to use.

Some boys have been making shadoofs, bows and arrows, hats and other things the ancient people made and used.

We have a club meeting every Friday after chapel. Our president is Billy Tyhornton, vice-president is Joyce Ann Harrelson, secretary, Kay Blacks, treasurer, Betty Ann Lee. Our club is called "The 6-H Club."

We are very happy to say we have a new pupil. His name is Lynn Aman from Clinton, North Carolina.

Reporters, Betty Ann Lee and Billy Thornton.

# MRS. WAGGONER'S 11TH GRADE

In our room this week Mrs. Waggoner is getting us acquainted with fire prevention. Some of the pupils have written original plays, poems, and rules which they are going to act out on Friday in our class room. We have also drawn pictures and painted them with paints, or colored them with crayons.

Each pupil reported on something that he had done at home, which might have prevented a fire.

In the unit of geography we just finished we learned a great deal about the solar system and the universe. On paper some people drew pictures of Mars, Jupiter, Earth, Sun, Meteors and Comets. This was especially enjoyed.

Carole Poe, reporter.

The sophomore class of the Buie's Creek High School chose their superlatives as follows: Best looking, Celia Johnson and Travis Ross; best dressed, Mary Lou Harrington and Travis; most studious, Helen Stafford and Ronald Page; friendliest, Celia Johnson and Jack Ragland; wittiest, Alice Dudley; and Evan Taylor best all round, Sylvia Turlington and Pat Harmon most likely to succeed, Helen Stafford and Pat Harmon; most popular, Travis Ross and Katherine Hudgins; and most athletic, Travis Ross and Joan Tysinger.

The picture for the high school and grammar school were taken Monday for the annual. The publishers of our annual, The Creeks, made the pictures without charge.

Four years have passed and Buie's Creek School is still growing. The first year was a hard year for the students and teachers. The building was not finished and there was so much noise it was difficult to hear above it.

We had French, math, geometry, history, biology, health science, chemistry, and English with only four teachers. The college offered us home ec. The second year was a better one and we were able to eat in the lunch room.

Not being able to have a larger school district, we lost a high school and grammar school teacher which gave the high school teachers six Core: Secretary, Uerlon Allen; Treasurer, Bobby Sills; Reporter, Jimmy Hinson; Watch Dog, Bobby Ray Honeycutt and Program Chairman, Shelton Weeks. The initiation will be held Wednesday night, October 17, 1951 at 7:30 p. m.

The Agricultural boys will be in the huge crowd at State Fair, Friday, October 19, 1951.

We wondered why a certain Junior boy left school early Tuesday morning, and now know. How does that new '51 black sedan Ford ride, Delma?

The Junior Class is selling subscriptions for the Daily Record in order to make money for the Junior-Senior Banquet.

Students of Plain View School says, "Thanks to Mr. D. Bass for making it so that we can have that drink and piece of candy we need to make our day."

# Beautiful Campus Enjoyed At HCTS

By "BUSTER" McLEAN

As we look about us, we can clearly see tangible evidence of the rapid realization of the prediction made by Beulah D. Spearman class of '51 that:

"Under Mr. Ledbetter's leadership, Harnett County Training School will blossom like the rose." We are bursting with pride as we now enjoy our beautiful campus which was landscaped by the students along with the financial and physical help of some of our leading school patrons. We are seething with admiration over our new addition to the school curriculum—the Commercial course which is taught by Miss Alice J. Morgan. We are beaming with joy over our new library tables, the new seats for many of the classrooms, the twelve new latest model typewriters, and the new typing tables and chairs. We are chock full of happiness over the inter-communication system recently installed. Yes, H. C. T. S., is blossoming like the rose. Let us continue to show the beautiful flowery fragrance by allying with the P. T. A. The next meeting will be held on Monday night, October 15 at 7:30 p. m. A program will be rendered by the Grammar Department.

The 6th grade presented songs and dances. Mrs. P. T. Massey furnished the music for the program. Miss T. L. Harris served as mistress of ceremonies. The second program was centered around fire prevention. Several papers and skits were presented which were very timely during this week set aside to stress the prevention of fire.
